

Update on the Financial Framework Review

Informal Consultation

11 October 2016

World Food Programme

Issues arising from the FFR informal consultation on October 7^h

1. **Strengthened commitment on information availability**
2. **Clarity on process for deciding on delegations of authority thresholds**
3. **Alignment to donor funding lines**
4. **Reinforced commitment to learn from pilots**

I. Strengthened commitment on information availability

- Pilot CSP's to include **project-level information**;
- Expanded commitment on **annual information availability** in FFR decisions; and,
- Balance of information between CSP and annual processes **to be revisited** as a result of pilots in 2017

II. Clarity on process for deciding on delegations of authority thresholds

FFR Document will:

- **Not present** a specific proposal on thresholds;
- Outline a **process of consultation** that will:
 - Provide background analysis on potential thresholds; and
 - Frame the discussion around a series of key questions.
- **Propose a review** after a number of years of implementation

III. Alignment to donor funding lines

- Tagging Strategic Outcomes based on ‘contexts’ of Strategic Plan will **not** be pursued;
- Tagging Strategic Outcomes **by focus area will be piloted**, including:
 - Crisis Response
 - Resilience Building
 - Root Causes
 - Etc
- Secretariat will **engage with donors and Executive Board through 2017** on this issue.

IV. Reinforced commitment to learn from pilots

- 2017 Pilots will be used to **refine all aspects** of the FFR;
- **Extensive dialogue** through informal consultations and bilateral discussions will continue **through 2017**; and
- The FFR decision points will be expanded to better reflect this commitment.

THANK YOU
