1. In response to the Board's request for information on progress made by WFP within the framework of the implementation of General Assembly resolution 56/201, Triennial Comprehensive Policy Review, WFP is submitting the attached Secretary-General report, presented to the Economic and Social Council (ECOSOC) at its substantive session in July 2002. Paragraph 96 of that resolution requested the Secretary-General to report on the progress made in its implementation and to formulate appropriate recommendations for consideration by ECOSOC.
  2. The attached report outlines a management process for implementing resolution 56/201, with clear issues, targets, time frames and delegation of responsibilities fully laid out. It highlights the progress made in simplifying and harmonizing rules and procedures for operational activities for development, outlines United Nations system support to capacity-building, and assesses the effectiveness of the United Nations system's operational activities for development. As a member of the United Nations Development Group (UNDG) and its Executive Committee, WFP is a full participant in this management process.

**Management process for the implementation of General Assembly resolution 56/201***Summary*

The present report is submitted in compliance with the request contained in paragraph 94 of General Assembly resolution 56/201. The management process should assist the Economic and Social Council in fulfilling its main responsibility in the area of development cooperation, which is to improve the quality and impact of the operational activities of the United Nations, promote an integrated approach, and ensure that the policy directives formulated by the General Assembly during the triennial policy review of operational activities are appropriately implemented on a system-wide basis. The report contains targets, benchmarks, actions and time frames for the implementation of resolution 56/201 and complements the report of the Secretary-General on operational activities of the United Nations for international development cooperation (E/2002/47).

\* E/2002/100.

\*\* The document was submitted late to the conference services without the explanation required under paragraph 8 of General Assembly resolution 53/208 B, by which the Assembly decided that, if a report is submitted late, the reason should be included in a footnote to the document.

## Introduction

1. The General Assembly, in its resolution 56/201 (para. 93), reiterated the provisions of its resolutions 48/162, 50/227 and 52/12 B, in which it detailed the respective functions of the General Assembly, the Economic and Social Council and the executive boards of the United Nations funds and programmes and encouraged the Council, within its institutional role, to provide overall guidance to the United Nations system on operational activities for development. In addition, in paragraph 91 of the resolution, the General Assembly reaffirmed that the governing bodies of the funds, programmes and specialized agencies of the United Nations system should take appropriate action for the full implementation of resolution 56/201, and reiterated its request to the executive heads of those funds, programmes and specialized agencies to submit a yearly progress report to their governing bodies on measures taken and envisaged for the implementation of the resolution.

2. The General Assembly also invited the executive boards of the United Nations funds and programmes to ensure that the heads of those funds and programmes include in their annual reports to the Council, prepared in accordance with Council resolution 1994/33, a thorough analysis of problems encountered and lessons learned, with emphasis on issues arising from the implementation of the Secretary-General's reform programme, the triennial policy review and the follow-up to the United Nations Millennium Declaration and major United Nations conferences, so as to allow the Council to fulfil its coordinating role.

3. The present report has been prepared to implement the request contained in paragraph 94 of General Assembly resolution 56/201, in which the Assembly requested the Secretary-General, after consultation with the funds, programmes and specialized agencies of the United Nations system, to submit a progress report to the Economic and Social Council, at its substantive session of 2002, on an appropriate management process, containing clear guidelines, targets, benchmarks and time frames for the full implementation of the resolution. The management process should also assist the Council in fulfilling its main responsibility in the area of development cooperation, which is to improve the quality and impact of the operational activities of the United Nations, to promote an integrated approach, and to ensure that the policy directives formulated by the General Assembly during the triennial policy review of operational activities are appropriately implemented on a system-wide basis.<sup>1</sup> Moreover, while considering the annual reports of the executive boards and heads of the United Nations funds and programmes, as well as other reports submitted to its operational activities segment, the Council should consider them in the light of the implementation of General Assembly resolution 56/201.
