

WFP Annual Performance Report 2011

Executive Board Annual Session
Rome, 4-8 June 2012

Accountability and learning tool for WFP

- Information aligned with the Strategic Results Framework and Management Result Dimensions;
- A valuable assessment tool of WFP performance metrics;
- Continues to be a work in progress that we will strive to improve.

Today's presentation

- **Global context**
- **WFP's response**
- **Performance results**
- **Challenges & way forward**

APR 2011

- Today's presentation
- Global context
 - WFP's response
 - Performance results
 - Challenges & way forward

Global context

- Costliest year with limited resources;
- Food prices at an all-time high;
- 209 million people affected by natural disasters;
- Global economy struggling to emerge from recession;
- 1.5 billion people in countries affected by repeated cycles of political instability;
- Safe humanitarian space shrinking.

- Shift operations to country with comparative advantage and maximize partnerships
- Raise and mobilize funding to support programme activities
- Clarify and further develop WFP concept framework
- Enhance coherence and align
- Improve HRM systems and reporting in partnerships to demonstrate WFP's unique effectiveness and better value for money

Global context

Costliest year with limited resources;

Food prices at an all-time high;

209 million people affected by natural disasters;

Global context

- Costliest year with limited resources;
- Food prices at an all-time high;
- 209 million people affected by natural disasters;
- Global economy struggling to emerge from recession;
- 1.5 billion people in countries affected by repeated cycles of political instability;
- Safe humanitarian space shrinking.

- Shift operations to comply with cost savings initiatives and restructure partnerships
- Raise and mobilize funding to support emergency operations
- Clarify and further develop WFP conceptual framework
- Enhance outreach and staff
- Improve HRM systems and reporting in partnership to demonstrate WFP's strong effectiveness and better value for money

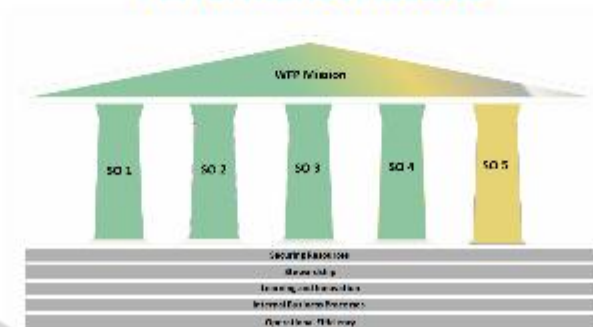

Bo

WFP Response

Provided food assistance to 99.1 million beneficiaries in 75 countries

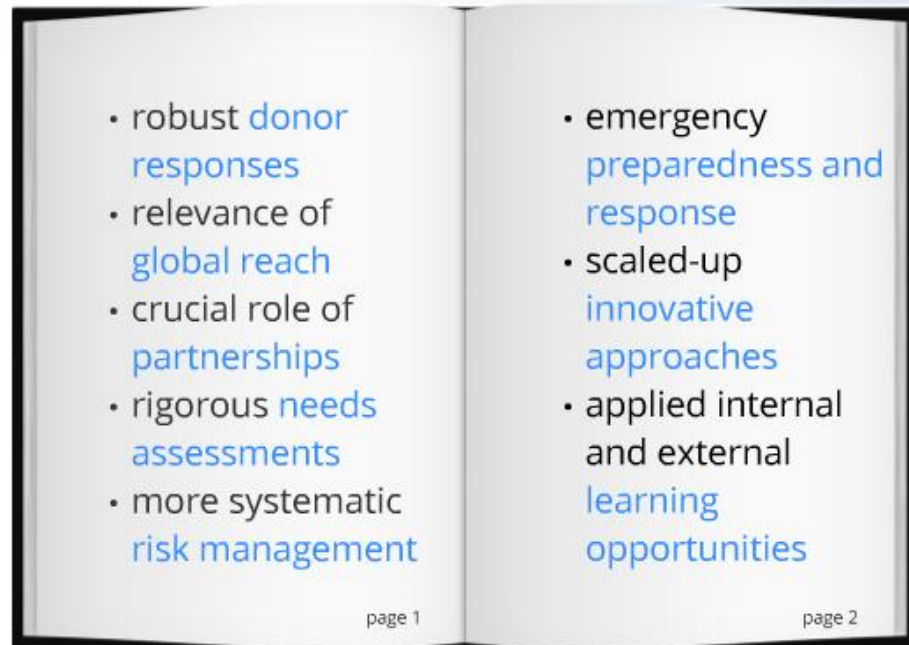

Performance Results

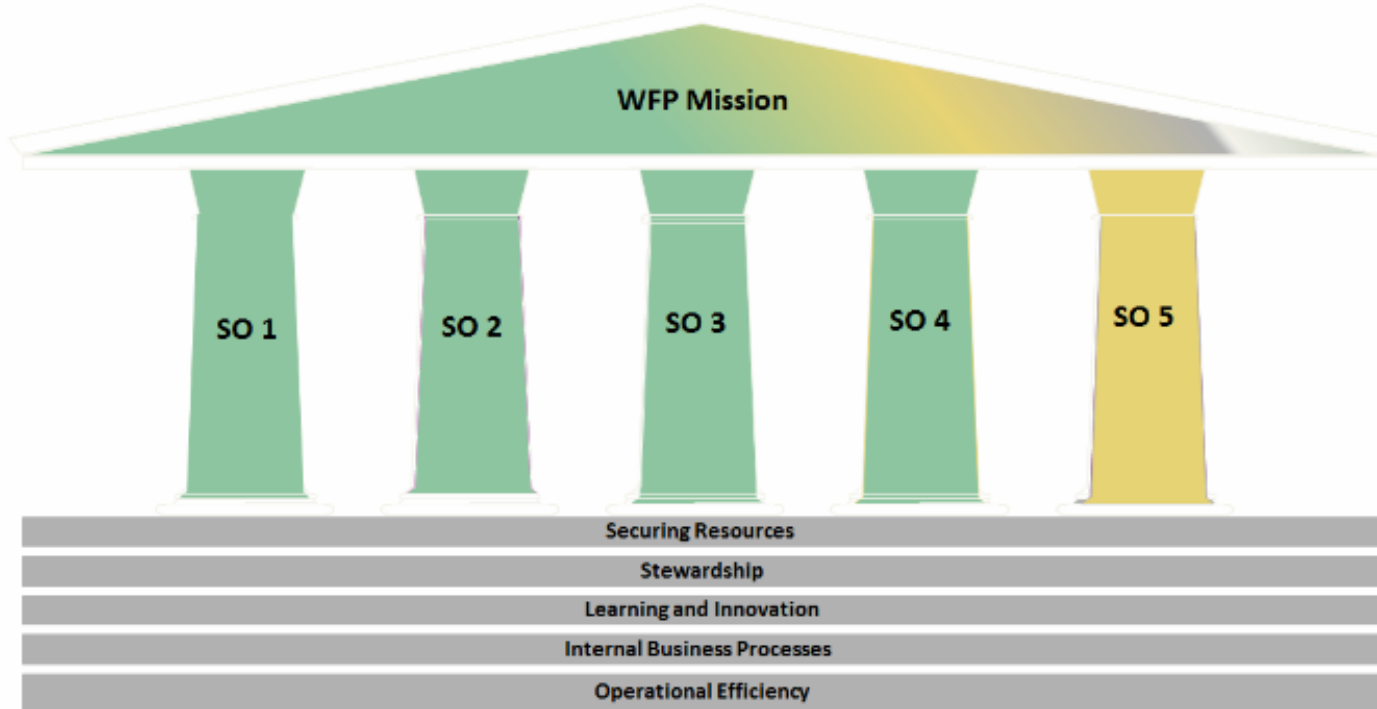

WFP Response

Provided food assistance to 99.1 million beneficiaries in 75 countries

Performance Results

Challenges

Define parameters to identify WFP's comparative advantages and appropriate partnerships;

Seek predictable funding to support programme/operations;

Clarify and further develop WFP conceptual frameworks;

Enhance expertise and skills;

Improve M&E systems and reporting on performance to demonstrate efficiency, effectiveness and better value for money.

2012

High food and fuel prices will continue to affect the poor, in tandem with economic slowdown and natural disasters.

WFP needs to further design programme responses with adequate tools, using advance financing mechanisms and seek innovative strategies for predictable funding.

WFP will enhance preparedness and response capacity for emergencies.

WFP will increase transparency and accountability.

Strategic Plan 2014 - 2017
