Global Report on Food Crises 2017 – *updated figures*

Note: figures of food insecurity magnitude for countries indicated by an asterisk are provided by FAO-GIEWS.

In 2017, FAO aims to support **14 million people**

So far, we have reached **9 million people**

FAO has reached 64% of its target

A photograph of a man with dark skin and short hair, wearing a blue cloth draped over his shoulder, looking towards the camera. He is standing next to a large, light-colored cow with massive, curved, yellowish-brown horns. The cow has a black and gold collar around its neck. The background is a bright, overcast sky with some green foliage visible in the distance.

Protecting livelihoods
is the best defence
against **famine**

Producing their own
food is **cost effective**

In **Nigeria**,
a crop kit costs **\$86**
providing **6 months**
of food for a family

In **Somalia**,
it costs **40 cents**
to protect
a **goat** and
\$40 to replace it

**1 goat provides
1/2 litre of milk
for a child each day**

In South Sudan, a fishing kit costs \$70

and can generate
430 kg of fresh fish monthly

In **Yemen**,
multi-nutrient blocks
cost **\$4**

and can **increase**
milk production
by **1 litre** per day

Northeastern Nigeria – FAO update on situation

5.2 million people severely food insecure

in the three affected northern Nigerian states

Prospects for the 2017 cereal crops are favourable

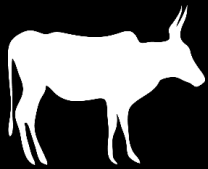

Food prices remain at high levels

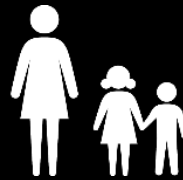

Northeastern Nigeria – FAO update on response

FAO reached
1.09 million people
main planting season

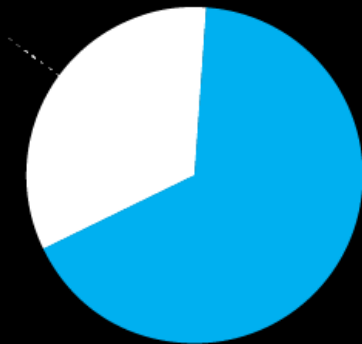

livestock support
animal health
campaign

3 600 goats to restock herds
900 women-headed
households

funding to-date
**USD 20.7
million**

funding gap
**USD 41.4
million**

total funding requirement
USD 62.1 million

Somalia – FAO update on situation

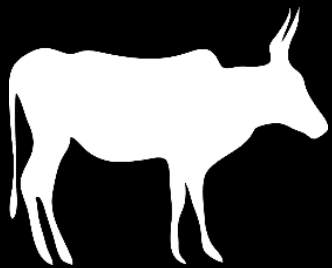

3.1 million people severely food insecure

25% of total population

risk of famine continues in worst affected areas

**Harvest of 2017 main season “Gu”
37% below average**

Poor conditions for livestock

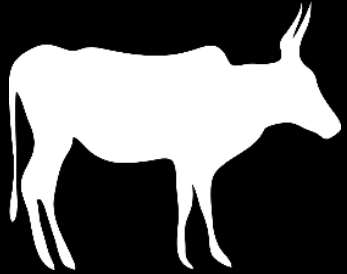

low milk production and low birth rates

herds shrunk by 40 to 60 percent

Somalia – FAO update on response

FAO animal health campaign

21 million livestock treated
benefiting over
3 million people

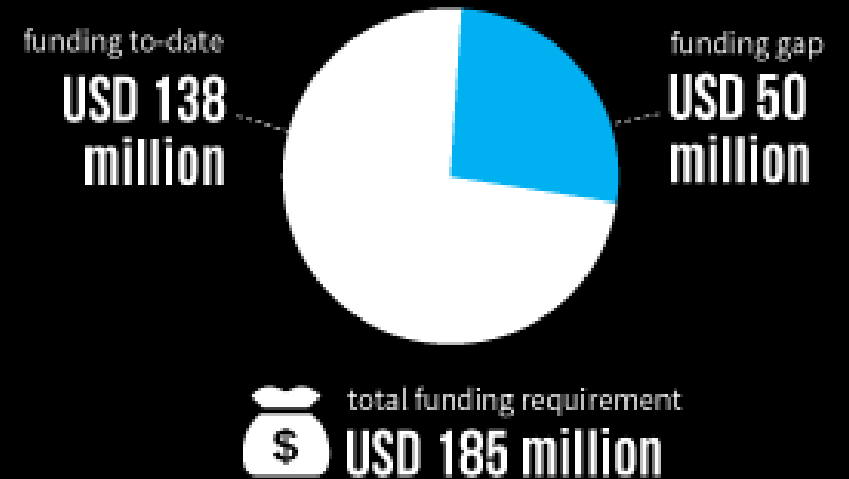

cash-for-work
and cash+
530 000 people

water trucking
134 sites
enough for
800 000 animals
per day

multi nutrient
blocks
43 640 families

South Sudan – FAO update on situation

6 million people severely food insecure

highest amount ever recorded in South Sudan

increase of 1 million people since February (when Famine was declared)

1st season crop production expected below average

Food access constrained (widespread insecurity and large-scale displacements, high food prices, market disruptions and limited income-generating opportunities)

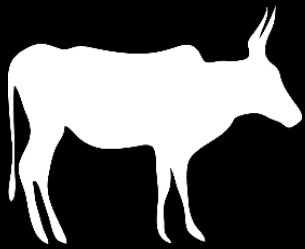

Fall armyworm and **foot-and-mouth disease**

South Sudan – FAO update on response

FAO reached
3.9 million people
fish, vegetable and crop kits

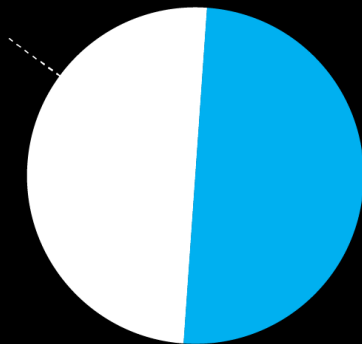

animal health campaign
3.1 million livestock
treated and vaccinated

48 000 families
to benefit from seed fairs and
livelihood kits for 2nd planting season

funding to-date

**USD 35.5
million**

funding gap
**USD 34.5
million**

total funding requirement

USD 70 million

Yemen – FAO update on situation

17 million people severely food insecure

60% of total population

Agricultural livelihoods important income source

Domestic cereal crop production very limited

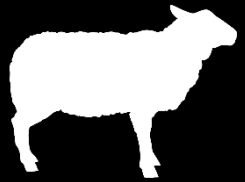

High prices and shortage of agricultural inputs

Yemen – FAO update on response

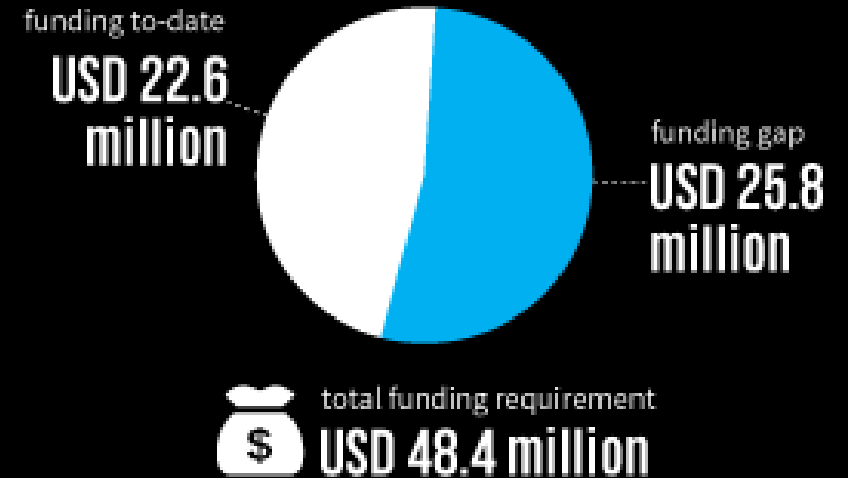

FAO reached
595 000 people
emergency livelihood support

1.3 million
sheep and goats
treated, vaccinated and
received animal feed

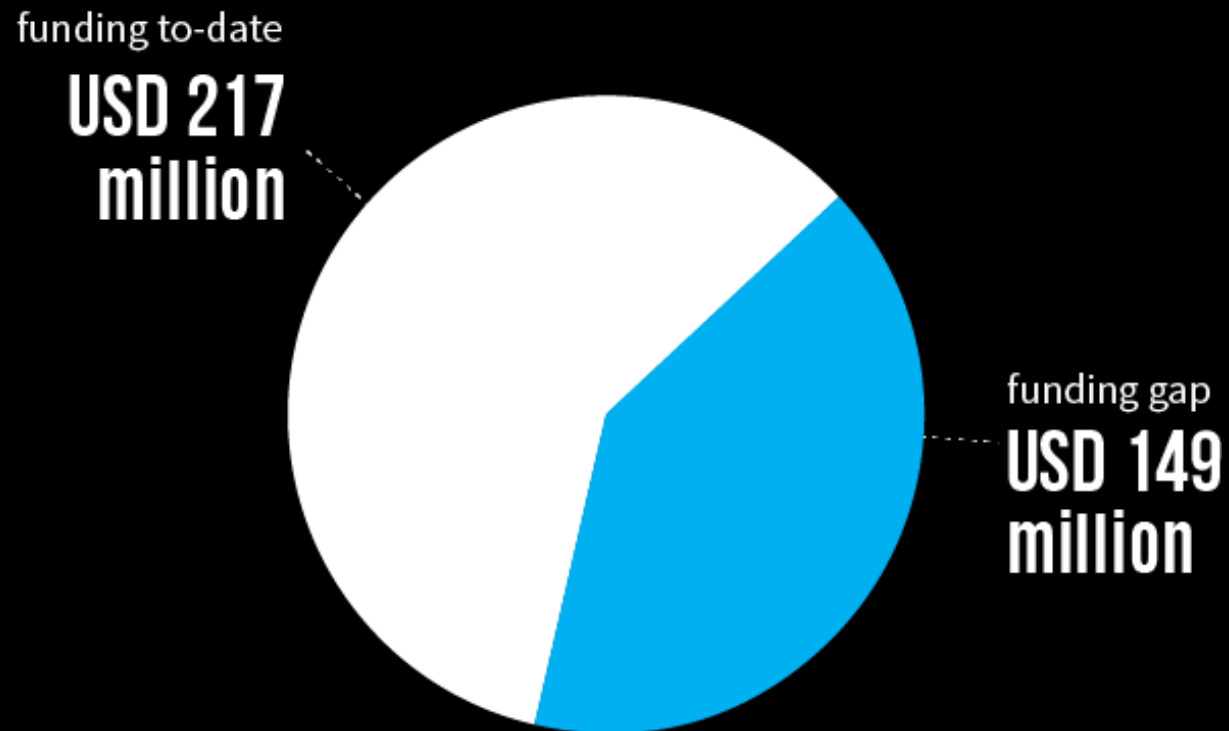

>16 000 families
received crop and vegetable kits
