Presentation of the findings of MOPAN assessment of the World Food Programme

Side event on the margins of the first regular session of the WFP Executive Board
Wednesday, 27 February 2019, 13:15 – 14:45
Aula I (Aula Delegatis), WFP headquarters

Denmark and the United States of America are pleased to invite you to a side event on the presentation of the findings of MOPAN assessment of the World Food Programme (2016–2018) (released in February 2019).

The Multilateral Organisation Performance Assessment Network (MOPAN) is a network of 18 donor countries that jointly assess the performance of multilateral organisations.¹ Members of MOPAN use the outcomes of these assessments to inform both strategic decision-making as well as engagement with the assessed organizations. The assessments also give the organizations a useful external view on their performance and relevance.

The MOPAN assessment of WFP covers the period 2016 to mid-2018. It involved a document review, an online partner survey conducted in 11 countries,² and interviews and consultations with WFP staff.

Denmark and the United States of America are serving as the lead countries for this assessment. The role of institutional lead is to ensure the assessment is fair, accurate and credible, and to present the findings to WFP. The launch of this report will also be an opportunity for MOPAN members and other member states to discuss the key findings.

Agenda:

- An introduction to MOPAN assessment by Denmark and the United States of America
- A presentation of the assessment findings by the Institutional Leads and the MOPAN Secretariat
- Response by senior management of WFP
- Discussion

We kindly ask you to save the date for this briefing and to confirm your attendance by email at: WFPSecretarytotheEB@wfp.org by **Monday, 25 February**.

We look forward to seeing you on Wednesday, 27 February.

With kind regards,

Erik Vilstrup Lorenzen
