WHAT WE DO

Three Key Thematic Areas

SUPPORTING AND ENABLING OPERATIONS

- RM divisions work together to ensure the smooth running of WFP's operations - **critical, but not always visible.**
- **Agile and reliable technology** is more important than ever – TEC works to ensure our technology improves processes, operations & decision-making.

DRIVING PERFORMANCE MANAGEMENT

- RM facilitates all phases of the **performance management cycle** – from planning, to budgeting, to monitoring and reporting.
- RM is responsible for producing key corporate documents: the **Management Plan**, the **Annual Performance Report**, and the **Annual Financial Statements**.

MANAGING AND SAFEGUARDING OUR RESOURCES

- RM safeguards WFP's resources – **staff, finances and assets.**
- RM plays a key role in **understanding, managing and mitigating risk.**

A photograph of two young children sitting at a table, eating a meal. The child in the foreground is a young girl with dark hair, wearing a white shirt with a lace collar, looking towards the camera with her hand near her mouth. The child in the background is another young girl, also in a white shirt, eating from a white bowl. The table is covered with a green and white striped tablecloth. The overall lighting is dim, and the image has a dark overlay.
