Philippines Country Strategic Plan 2024-2028

Executive Board Informal Consultation

27 July 2023

Country Context

CHALLENGES

Highest disaster risk worldwide

due to very high exposure, vulnerability and susceptibility

27% children under 5 suffer from **stunting amidst growing overweight/obesity**

Impact of COVID-19 worsened by the global **food, fuel, and fertilizer crisis**

Fragile context in **BARMM** with two-year window for the transitional regional government

Capacity gaps remain at **national and local level**

Alignment to the UNSDCF and National Plans
