FIVE CASH ASSURANCE STANDARDS

1. The people we serve are able to easily contact us if they have questions or need to report a problem or wrongdoing.
2. We respect people's privacy and personal data.
3. We know who we are transferring cash or vouchers to.
4. We connect people with financial products and services that they prefer and are empowered to use.
5. We have a tamper-proof way to send money to people and check that they received it.
