

SUPPLEMENTARY NOTE - Briefing on the Revised Corporate Result Framework (2022- 2025)

The following list is an excerpt of the 40 new indicators proposed for addition to WFP's Corporate Results Framework (CRF) 2022-2025. Methodological notes for each indicator can be found in WFP's Indicator Compendium, with direct links provided in the fourth column below.

Strategic Outcome 1: People are better able to meet their urgent food and nutrition needs

Outcome indicators

Programme area	Outcome indicator	Summary Definition	Indicator Compendium page reference
Food security and essential needs	Percentage of Essential Need Items Available to Beneficiaries in the Targeted Markets where WFP Operates	This indicator measures how many of the total essential needs' items are available to beneficiaries at WFP contracted shops, expressed as a percentage.	Page 68
	Percentage Increase in Purchasing Power of WFP Voucher Beneficiaries	This indicator measures the percentage increase in purchasing power for beneficiaries of WFP vouchers. It does so by comparing the prices of goods at contracted shops with the prices in general markets. The resulting percentage indicates how much more (or less) beneficiaries can afford when redeeming their vouchers (of a determined transfer value) at contracted retailers, as opposed to purchasing the same items in non-contracted markets.	Page 72
Nutrition	Percentage of individuals practicing recommended healthy diet behaviour <i>(Indicator repeated under SO.1, SO.2, SO.3 & SO.4)</i>	This indicator measures the percentage of individuals practicing recommended healthy diet behaviours. The indicator focuses on individuals who, through social and behaviour change (SBC) initiatives by WFP or partners, follow the promoted healthy diet behaviours.	Page 149

Output indicators

1.1 Food insecure and crisis-affected populations have access to nutritious food and cash-based assistance, restored assets and services to meet their urgent needs

<i>Output category</i>	<i>Output indicator</i>	<i>Definition</i>	<i>Indicator Compendium page reference</i>
C. Capacity development and technical support provided	Percentage of Retailers with Overall Good Performance Score	This indicator measures the percentage of contracted retailers surveyed whose overall scores are above 70%, namely, whose scores fall into the category 'Good' or 'Very Good'.	Page 732

Strategic Outcome 2: People have better nutrition, health and education outcomes

Outcome indicators

<i>Programme area</i>	<i>Outcome indicator</i>	<i>Definition</i>	<i>Indicator Compendium page reference</i>
Nutrition	Percentage of school-aged children meeting minimum dietary diversity score	This indicator measures the proportion of school aged children meeting a minimum dietary diversity score. Minimum dietary diversity is defined as the consumption of 5 or more food groups out of 10 in the last 24 hours.	Page 127
	Number of new or adapted national social protection policy and/or programmes made HIV/TB sensitive, as result of WFP's support	This indicator measures the number of new or adapted national social protection programs made HIV/TB-sensitive due to WFP's support. It involves leveraging broad-based social protection programs to address legal, policy, social barriers, and knowledge gaps, ensuring inclusion of those living with, at risk of, or affected by HIV/TB.	Page 136

	Number of new or existing legislative instruments, standards or policies for fortified staple foods endorsed as result of WFP capacity strengthening support	This indicator measures the number of new or existing legislative instruments, standards, or policies for fortified staple foods endorsed as a result of WFP's capacity strengthening support. These refer to frameworks enabling public and private sector action on food fortification, not internal organizational policies.	Page 141
	Percentage of individuals practicing recommended healthy diet behaviour (<i>Indicator repeated under SO.1, SO.2, SO.3 & SO.4</i>)	This indicator measures the percentage of individuals practicing recommended healthy diet behaviours. The indicator focuses on individuals who, through social and behaviour change (SBC) initiatives by WFP or partners, follow the promoted healthy diet behaviours.	Page 149
	Number of new or existing legislative instruments, standards or policies for fortified staple foods developed/adopted with WFP capacity strengthening support	This indicator tracks the number of new or updated legislative instruments, standards, or policies for fortified staple foods developed or adapted with WFP's support. This reflects WFP's long-term impact on strengthening national regulations to combat micronutrient deficiencies.	Page 145
School-based programmes	Resources mobilized (USD value) for national school Health and Nutrition/including School Feeding programmes with WFP capacity strengthening support and/or advocacy	This indicator measures the amount of resources mobilized (in USD) for national school health and nutrition/school feeding programmes with WFP capacity strengthening support and/or advocacy.	Page 201
	Percentage of children absent from school because of ill-health	The percentage of students absent from school because of ill-health is defined as the overall average percentage of female and male students absent from school every month in WFP assisted schools as compared to the total number of enrolled students.	Page 206
	Percentage of milestones in SABER-based Implementation plan (related to full SABER exercise or pre-screening tool) that have been fully met	This indicator reports on the status of SABER-based implementation plans by measuring the milestones completed.	Page 213

	Transition strategy for School Health and Nutrition/including School feeding fully implemented by national stakeholder and WFP	This indicator measures the transition progress of school health and nutrition interventions into national programmes. This can include school feeding programmes fully implemented by national stakeholders and WFP.	Page 197
--	--	---	--------------------------

Output indicators

2.3 School-age children and adolescents have access to school-based health and nutrition packages

Output category	Output indicator	Definition	Indicator Compendium page reference
A. Resources transferred	Number of girls and boys receiving food/cash-based transfers/commodity vouchers/capacity strengthening transfers through school-based programmes	The indicator counts the number of direct recipients of WFP School Based Programmes and their households (if assistance is provided to the entire family), as per Tier 1 beneficiary definitions. This indicator also counts activity supporters (cooks, adults) if applicable.	Page 530

Strategic Outcome 3: People have better nutrition, health and education outcomes

Outcome indicators

Programme area	Outcome indicator	Definition	Indicator Compendium page reference
Nutrition	Percentage of individuals practicing recommended healthy diet behaviour (Indicator repeated under SO.1, SO.2, SO.3 & SO.4)	This indicator measures the percentage of individuals practicing recommended healthy diet behaviours. The indicator focuses on individuals who, through social and behaviour change (SBC) initiatives by WFP or partners, follow the promoted healthy diet behaviours.	Page 149

Resilience & Livelihoods	Shock Exposure Index (SEI)	This indicator gauges the extent of shock and stressor exposure for each household, based on the TANGO method. It assesses the frequency and severity of shocks to provide context for understanding resilience and food security outcomes, rather than measuring program performance.	Page 276
	Proportion of people engaged in Income generating activities (IGA) as a result of skills development trainings (FFT)	This indicator measures the impact of skills development training on participants' livelihoods by assessing the percentage of trainees who, as a result of the acquired or enhanced skills, successfully engage in income generation through employment or self-employment.	Page 256
	Resilience Capacity Score (RCS)	This indicator measures households' perception of their resilience capacities to generic or country-specific shocks and stressors.	Page 262

Output indicators

3.2 People and communities have increased skills, capacities and access to financial, energy and climate services for climate-adapted and sustainable livelihoods

<i>Output category</i>	<i>Output indicator</i>	<i>Definition</i>	<i>Indicator Compendium page reference</i>
A. Resources transferred	Number of women, men, boys and girls receiving food/cash-based/commodity vouchers/individual capacity strengthening transfers through actions to protect against climate shocks	The indicator counts the number of people benefiting from food/cash-based/commodity vouchers/individual capacity strengthening transfers through actions to protect against climate shocks.	Page 547

	Quantity of food provided to people and communities through actions to protect against climate shocks	The indicator counts the total quantity of food transferred to beneficiaries of actions to protect against climate shocks activities.	Page 575
	Total value of cash transferred to people through actions to protect against Climate Shocks	The indicator counts the total value of cash transferred to beneficiaries of actions to protect against climate shocks.	Page 593

3.3 Smallholder farmers and value chain actors have increased capacity to produce and aggregate marketable surpluses, reduce post-harvest losses, access markets and leverage linkages to schools

<i>Output category</i>	<i>Output indicator</i>	<i>Definition</i>	<i>Indicator Compendium page reference</i>
N. School feeding provided	Value of school meal items sourced from smallholder farmers/other local actors	This indicator refers to the total value of commodities sourced from smallholder farmers and other actors (i.e., fishermen, millers, etc.) for school meals that WFP is supporting.	Page 1030
	Volume of school meal items sourced from smallholder farmers/other local actors	This indicator refers ONLY to the total quantity of commodities sourced from smallholder farmers and other actors (see definition and examples below) for school meals that WFP is supporting. This refers specifically to decentralized procurement models where the schools or WFP procure directly from smallholder farmers and other actors for school feeding.	Page 1035

Strategic Outcome 4: National programmes and systems are strengthened

Outcome indicators

Programme area	Outcome indicator	Definition	Indicator Compendium page reference
Institutional Capacity Strengthening	Number of people covered (WFP indirect beneficiaries) by national social protection systems or programmes to which WFP provided support	This indicator measures the estimated wider population that indirectly benefits from WFP's technical support to national social protection systems and programmes. This wider population is defined by WFP as Tier 3 beneficiaries. When covering Tier 3 beneficiaries, the main entry point is WFPs work with national social protection at three levels: systems architecture, knowledge and learning, and programme features.	Page 512
	Transition strategy for programmes or other system components contributing to Zero Hunger and other SDGs developed with WFP capacity strengthening support	This indicator measures progress towards increased national ownership of systems and programs that support vulnerable populations is essential for achieving Zero Hunger and other SDGs sustainably and at scale.	Page 457
	Number of policies and legislative instruments contributing to Zero Hunger and other SDGs created or adapted by national stakeholders with WFP capacity strengthening support	The indicator counts the creation or adaptation of instruments only when the process is completed or submitted for endorsement, reflecting WFP's role in capacity strengthening alongside other stakeholders.	Page 407
	Number of national policies, strategies, programmes and other	This indicator aims to give a high-level overview of the magnitude and range of WFP's capacity strengthening support to national systems contributing to Zero Hunger and other SDGs and to demonstrate	Page 402

	system components contributing to Zero Hunger and other SDGs that have benefitted from WFP capacity strengthening support	how various WFP capacity-strengthening interventions contribute to strengthening a specific system as a whole.	
	Number of Enhanced Programme Designs, Processes, and Platforms Contributing to Zero Hunger and other SDGs Implemented at Scale by National Organizations Following WFP Capacity Strengthening Support	This indicator represents WFP's support in enhancing stakeholder program design and delivery, focusing on investing in capacities, technologies, and innovations to alleviate hunger, malnutrition, and vulnerability through national systems. "Implemented at scale" refers to the mainstreaming of the programme design, process, or platform.	Page 471
	Number of enhanced business processes contributing to Zero Hunger and other SDGs implemented at scale by national stakeholders following WFP capacity strengthening support	This indicator aims to measure results from activities aligned with Pathways 2 and 3 in WFP's CCS Framework, focusing on tasks aimed at achieving specific organizational objectives.	Page 423
	Transition strategy for programmes or other system components contributing to Zero Hunger and other SDGs fully implemented by national stakeholder and WFP	This indicator measures progress towards increased national ownership. National ownership of systems and programmes that provide support and services to vulnerable populations is key to achieving Zero Hunger and other SDGs sustainability and at scale.	Page 461
Nutrition	Percentage of individuals practicing recommended healthy diet behaviour (Indicator repeated under SO.1, SO.2, SO.3 & SO.4)	This indicator measures the percentage of individuals practicing recommended healthy diet behaviours. The indicator focuses on individuals who, through social and behaviour change (SBC) initiatives by WFP or partners, follow the promoted healthy diet behaviours.	Page 149

Strategic Outcome 4: Humanitarian and development actors are more efficient and effective

Output indicators

5.1 Governments and humanitarian actors utilize mandated services in crisis-setting to set-up, manage and deliver response and services

<i>Output category</i>	<i>Output indicator</i>	<i>Definition</i>	<i>Indicator Compendium page reference</i>
H. Shared services and platforms provided	Number of organizations engaged in cluster coordination activities/forums	This indicator measures the number of organizations engaged in cluster activities where WFP-led cluster refers to the following three clusters and UNHAS that can be led by WFP in the country context: <ul style="list-style-type: none"> • Food Security Cluster • Logistics Cluster • Emergency Telecommunications Cluster (ETC) • United Nations Humanitarian Air Service (UNHAS) 	Page 962
	Number of destinations/service locations served	This indicator measures the number of sites and/or locations where cluster/sector services were established.	Page 966
	Number of active UNHAS user organizations	This indicator measures the number of active UNHAS user organizations within a single CSP.	Page 980
	Number of timely medical and security evacuations performed	This indicator measures the number of times a timely evacuation (as defined below) was undertaken by WFP UNHAS.	Page 983

5.2 Partners utilize on-demand services to augment their capacity and ensure more efficient, effective and coordinated interventions

<i>Output category</i>	<i>Output indicator</i>	<i>Definition</i>	<i>Indicator Compendium page reference</i>
H. Shared services and platforms provided	Number of partners using Admin Platform to deliver services to beneficiaries	This indicator measures the number of partners that use WFP admin platform to deliver services to beneficiaries.	Page 973
	USD Value of Efficiency Gains generated using the UN Booking Hub for external partners	This indicator measures the amount (in USD value) of efficiency gains (which is calculated based on time efficiencies), generated for partners, specifically for 'Accommodation' and 'Mobility' services provided through the UN Booking Hub platform.	Page 976
	Number of trucks deployed under Global Fleet service provision scheme in response to humanitarian needs	This indicator measures the number of trucks, provided by WFP HQ upon request, for food deliveries, as well as fleet related services and staffing support under the Global Fleet Service Provision scheme to Country Offices	Page 970

WFP cross-cutting priorities

Cross-cutting priorities and indicators

Protection and accountability to affected populations

<i>Cross-cutting indicator</i>	<i>Definition</i>	<i>Indicator Compendium page reference</i>
Country Office Score on Meeting Standards for the Identification and Documentation of Conflict Analysis and Conflict Sensitivity Risks, and Implementation of Mitigation Measures	This indicator helps assess the level of integration of conflict sensitivity into WFP programming and operations at a CO level, through assessing the most fundamental steps of conflict sensitivity: possible conflict sensitivity risks of activities on the basis of a conflict analysis and developing and implementing mitigation measures.	Page 1090

Gender equality and women empowerment

<i>Cross-cutting indicator</i>	<i>Definition</i>	<i>Indicator Compendium page reference</i>
Proportion of women and men in decision-making entities who report meaningful participation	This indicator looks at equitable and inclusive engagement in decision-making, as the equal exercise of power is the fundamental indicator for gender equality.	Page 1135
Proportion of women and men reporting economic empowerment	This indicator helps measure progress in achieving WFP's corporate priority on Gender Equality and Women's Empowerment, recognizing that addressing gender inequalities is essential for achieving zero hunger (Gender Policy 2022, Objective 2). It also supports the third objective of the Gender Policy to advance the economic empowerment of women and girls in food security and nutrition, and the fourth priority to drive transformative action on social norms and structural barriers.	Page 1147
Proportion of Country Strategic Plan (CSP) activities contributing systematically to advance gender equality in the context of food security and nutrition	This indicator measures WFP's progress in gender equality and women's empowerment, recognizing that gender equality is essential for achieving zero hunger. It also reflects the commitment to ensure all programs and CSPs are informed by a gender analysis (WFP Strategic Plan 2022-2025, paragraph 94) and supports the objectives and priorities of the WFP Gender Policy 2022, facilitated by the Policy's essential enablers.	Page 1159

Nutrition Integration

<i>Cross-cutting indicator</i>	<i>Definition</i>	<i>Indicator Compendium page reference</i>
Nutrition-Sensitive score	This indicator measures the proportion of the country office portfolio meeting minimum quality standards. The score is process focused and acts as a proxy to assess the quality of nutrition-sensitive programming and the extent to which a country office portfolio is nutrition-sensitive against a set of criteria that represent the standard for good quality nutrition-sensitive programme design and implementation.	Page 1190
