The Localization Policy

Executive Board Informal Consultation

2025 February

Process and milestones

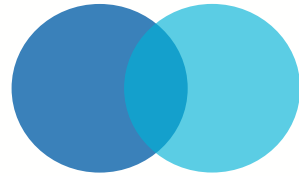

○ Ongoing bilateral external consultations with select INGOs, local NGOs, UN agencies, donors and member states.

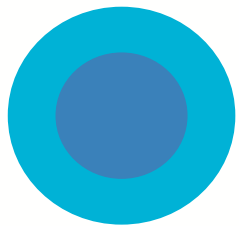

Defining the scope

**COMPARATIVE
ADVANTAGE**

COMPLEMENTARITY
WITH EXISTING POLICIES
NOT DUPLICATION

SPHERE OF CONTROL

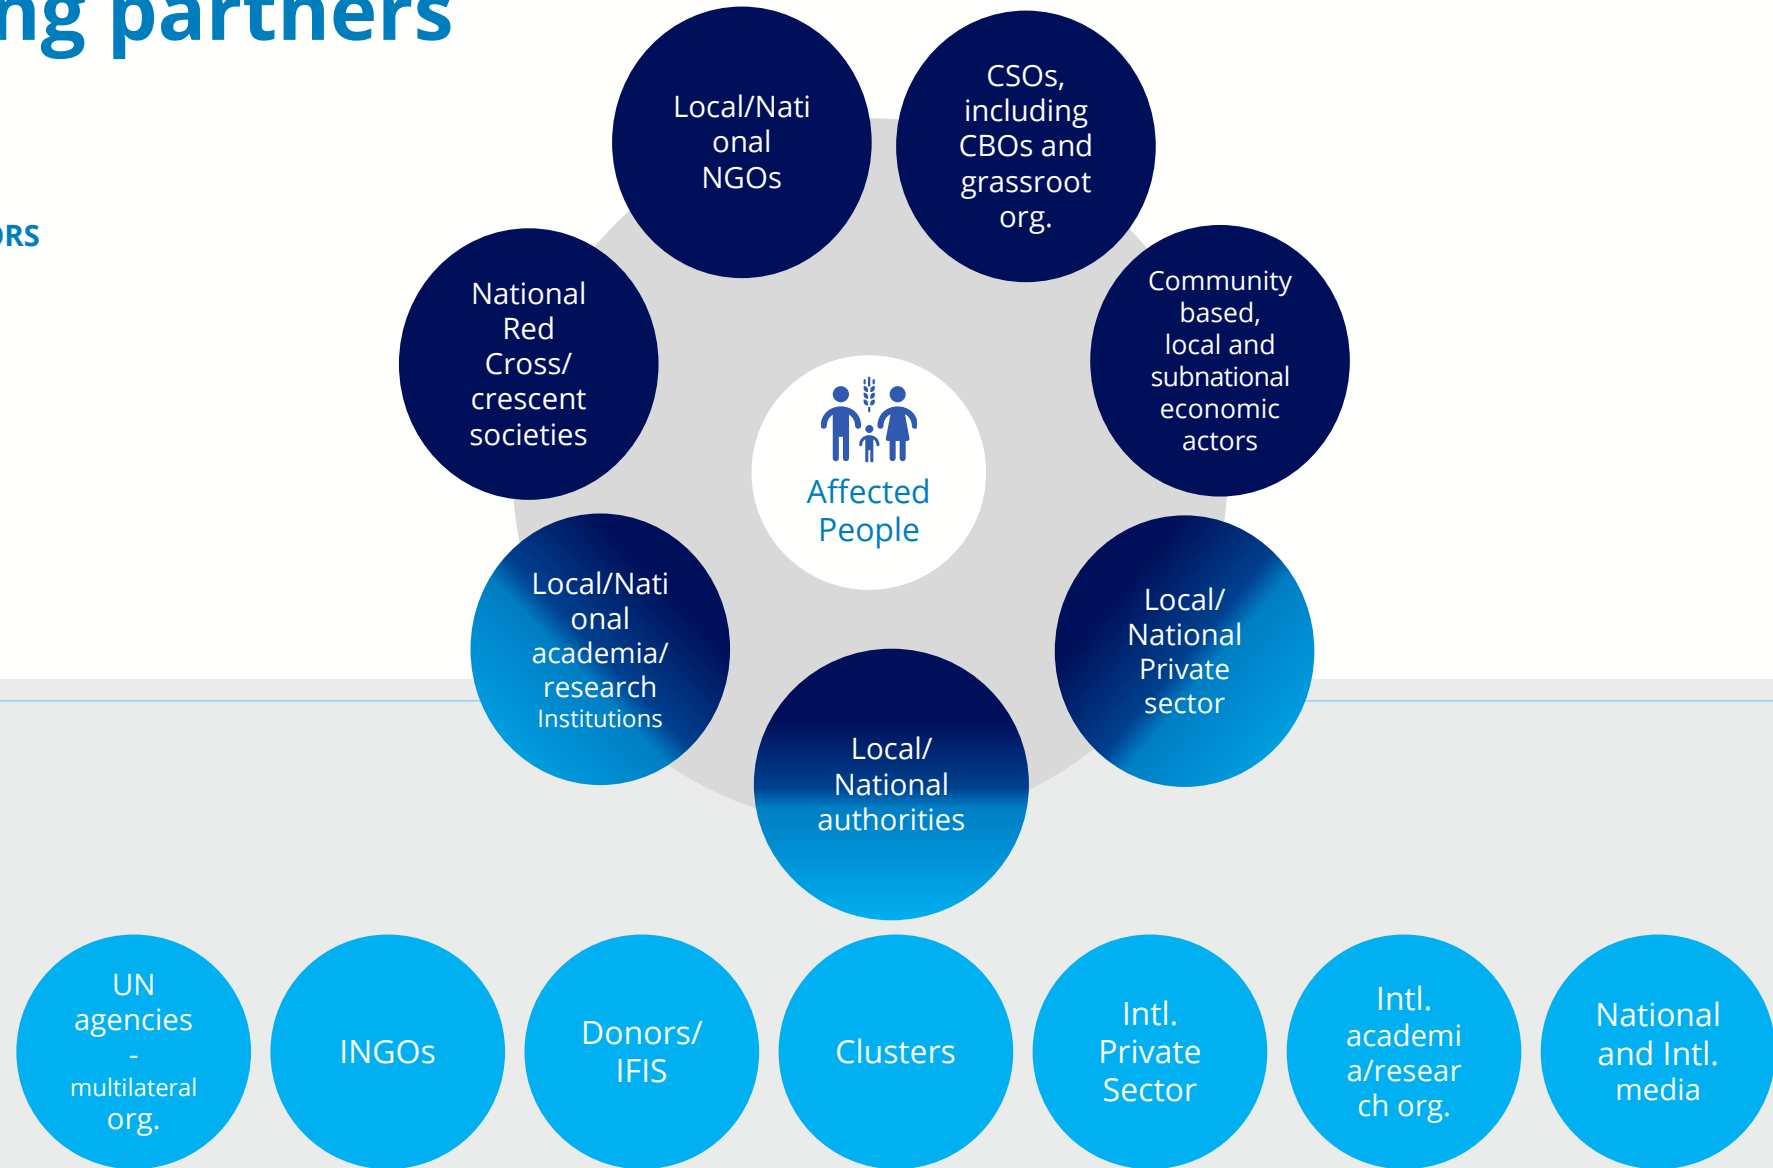

COMMITMENTS

Key and enabling partners

LOCAL AND NATIONAL KEY ACTORS

WFP aims to elevate its partnership with local and national actors so that they are better able to inform and shape decisions to address the food security and nutrition needs of their people.

ENABLING PARTNERS

WFP leverages its partnership with enabling actors to support the inclusion of local and national actors and promote their role as leaders in food security and nutrition spaces.

Priorities and pathways

[1] Local and national cooperating partners are better able lead high-quality responses to food security and nutrition needs and priorities on the ground.

[2] Local civil society organizations, including community-based organizations, are better able to represent local people and address their needs and priorities in relation to food security and nutrition.

[3] Local economic actors at the sub-national and community levels are better able to contribute to equitable, inclusive and responsive value chains that support food security and nutrition.

[4] Local and national actors are better able to influence and shape food security and nutrition policies, systems and programmes, including the related funding decisions.

#1 Build on, strengthen and share capacities with local and national actors

#2 Adopt participatory approaches while placing local and national actors in leadership positions

#3 Foster collaborative and equitable partnerships facilitated by multi-year funding and innovative financing

#4 Promote mutual accountability and enhance risk sharing

Thank you
