

WFP EVALUATION

Evaluation of Sierra Leone WFP Country Strategic Plan 2020–2025

WFP Executive Board – November 2025

World Food
Programme

SAVING
LIVES
CHANGING
LIVES

Insight 1: Strategic positioning

- **Country Strategic Plan (CSP) designed** based on **analysis of hunger & nutrition challenges** across **key groups**.
- **Aligned with national priorities** – especially Feed Salone – in food security, nutrition & education, and with relevant **UNSDCF** outcomes.
- **Leveraged** WFP's strengths in **logistics, school feeding & emergency response**, while expanding into **resilience & capacity strengthening**.
- **Gaps** remained in planning for the **Moderately Acute Malnutrition transition** & in integrating **environmental** considerations.

Insight 2: Results

- School feeding **boosted enrolment, attendance & retention.**
- Resilience building **activities improved crop production & farmer incomes.**
- Nutrition interventions **improved household dietary practices, particularly for children.**
- WFP **strengthened national emergency preparedness & response** through enhanced capacity, logistics & coordination.

Insight 3: Challenges

- Rapid scale-up of school feeding interventions **strained capacity & reduced frequency and rations.**
- **Delayed payments** limited benefits from resilience building activities.
- Social & behaviour change interventions **lacked scale and continuity.**
- Gender & nutrition-sensitivity **fragmented and under-resourced.**

Recommendations

1

Strengthen **integrated resilience programming to address slow-onset emergencies** while maintaining flexibility for emergency response.

2

Enhance the **national school feeding** programme **through stronger partnerships** & improved **coordination**.

3

Increase investment in nutrition for the first 1,000 days of life to build a continuum of effects from early childhood through adulthood.

4

Improve **smallholder farmer market access through adapted procurement systems** that better respond to their needs.

5

Promote **integration of gender equality, women's empowerment & environmental** considerations.
