2006/EB.1/1 Current and Future Strategic Issues

The Board took note of the Executive Director's oral presentation on strategic issues facing WFP. The main points of the presentation and the Board's comments would be contained in the summary of the work of the session.

20 February 2006

ANNUAL REPORTS

2006/EB.1/2 Annual Report for 2005 to ECOSOC and FAO Council

The Board approved the Annual Report for 2005 to the United Nations Economic and Social Council (ECOSOC) and the Council of the Food and Agriculture Organization of the United Nations (FAO) (WFP/EB.1/2006/4/Rev.1 + Add.1). In accordance with its decision 2004/EB.A/11 of 24 May 2004, the Board requested that the Annual Report be forwarded to ECOSOC and to the FAO Council, along with the Board's decisions and recommendations for 2005 and the present decision.

20 February 2006

POLICY ISSUES

2006/EB.1/3 Targeting in Emergencies

The Board endorsed the document “Targeting in Emergencies” (WFP/EB.1/2006/5-A) and requested that the following recommendations be added to the Policy Compendium:

“It is WFP policy that targeting is a central element of an integrated and comprehensive emergency needs assessment and response strategy. WFP should continue to respond immediately and in a cost-effective manner to emergencies and, in so doing, aim to meet conditions for effective targeting such as:

- i) food assistance is required to save or protect lives and livelihoods;
- ii) the most vulnerable target groups are identified;
- iii) type and form of food assistance best suited to the needs of the target groups are identified; and
- iv) on-going adjustments are made to the above on the basis of appropriate assessments and modification of activities according to changing needs.

Targeting should be a conscious and integral management activity at all stages of the programme cycle. As an emergency develops and population needs change, target groups, targeting methods and WFP practices must also evolve. Successful targeting requires regular, systematic analysis of a multiplicity of factors, including the gender dimensions of an emergency. Setting clear project objectives from the start that take these factors into account will later allow for targeting flexibility without compromising the goals of a project. The selection of programme and delivery mechanisms that ensure that food reaches those who need it is an equally important aspect of targeting.

The main targeting objective of WFP in emergencies is to achieve a balance between targeting exclusion errors, which can be life-threatening, and potentially disruptive or wasteful inclusion errors. In acute emergencies, due to the urgency of the situation, it may well be necessary to accept inclusion errors in order to save lives or protect livelihoods. Other targeting objectives include providing a safe environment for food deliveries and maintaining flexibility to adapt to rapidly changing situations.

Targeting costs increase in proportion to the level and detail of targeting. WFP should analyze benefits and budget for costs associated with different targeting approaches, keeping in mind that cost-efficiency for WFP may imply increased transaction or opportunity costs for recipients.”

23 February 2006

2006/EB.1/4

Humanitarian Access and its Implications for WFP

The Board took note of the information contained in the document “Note on Humanitarian Access and its Implications for WFP” (WFP/EB.1/2006/5-B + Corr.1 + Corr.2) and encouraged the Secretariat to continue developing its expertise in this area.

22 February 2006

2006/EB.1/5

Food Procurement in Developing Countries

In considering the paper “Food Procurement in Developing Countries” (WFP/EB.1/2006/5-C), the Board noted the issues involved in local, sub-regional and regional purchases of food products, especially where markets were not well developed, and recognized the positive and possible negative impacts WFP’s procurement might have on these markets. The Board therefore requested that WFP continue to advance in its study of the developmental impact of food procurement, both on markets and on the food security of vulnerable groups. The Board further requested WFP to encourage local, sub-regional and regional purchases to the extent possible.

In addition, the Board:

- subject to considerations of cost-efficiency, timeliness and appropriateness to beneficiary needs, *re-affirmed* that WFP should continue to undertake food procurement in a manner that accentuated positive impacts and mitigated against negative consequences;
- *urged* donors to provide more unrestricted, timely and predictable funding so that WFP could more effectively plan and undertake local, sub-regional and regional food procurement; and
- *requested* WFP to give due consideration to optimizing the potential developmental benefits of procurement by:
 - ◇ working closely with national governments, FAO, IFAD and others to assess the capacity of local, sub-regional and regional markets to participate in WFP procurement and to support partner efforts to develop this capacity further;
 - ◇ ensuring that WFP country offices and/or regional bureaux, where appropriate to the overall needs of WFP, have the necessary staff to enable them to procure food based on an adequate knowledge and analysis of local, sub-regional and regional markets; and
 - ◇ providing the Board, in the framework of its discussions of WFP’s operations and country situations, with a detailed breakdown of the origin of commodities purchased or received in local, sub-regional and regional markets and assessments of the capacity of local, sub-regional and regional suppliers to meet procurement needs.

The Board requested that the Secretariat provide a report on the implementation of its requests at the Annual Session in 2006, and regularly thereafter.

21 February 2006

2006/EB.1/6 Ending Child Hunger and Undernutrition Initiative
