UPDATE ON OUTSTANDING BALANCE OF COMMITMENTS

This document is printed in a limited number of copies. Executive Board documents are available on WFP's WEB site (http://www.wfp.org/eb_public/EB_Home.html).

INFORMATION NOTE

1. The following table updates the last Information Note on the outstanding balance of commitments (OBC)* for ongoing development activities (document WFP/EB.2/99/INF/6):

DEVELOPMENT PORTFOLIO: OBC ANALYSIS	
	Thousand metric tons
a) Crude ¹ OBC as at 31.12.1998	2 276
b) Expected ² deliveries in 1999	-799
c) New commitments approved since 1.1.1999	217
d) Projects/Country Programmes for approval at EB.3	56
e) Potential for additional commitments in 1999	333
f) Expected crude OBC at 31.12.1999	2 083
g) Estimated adjustment for the delivery performance ratio (DPR) ³	208
h) Estimated adjusted balance as at 31.12.1999	1 875
i) Target OBC as at 31.12.1999	1 875

¹ "Crude" OBC represents the total outstanding balance of commitments. When adjusted for the delivery performance ratio (DPR—defined in footnote 3), it becomes a "net" OBC.

² Corresponds to the estimated level of resources available for delivery in 1999.

³ An empirical adjustment factor defined as the ratio of final deliveries over total approved commitments. Globally, the DPR is currently estimated at 90 percent.

2. To be in line with the target OBC, established at 1,875,000 metric tons (i.e. 2.5 times the estimated availability of 750,000 metric tons), some 623,000 metric tons could be approved in 1999. An additional expected commitment of 333,000 metric tons [see e) above] will be deferred to 2000.

* Indicates the volume of approved commitments for ongoing projects/programmes that remains to be resourced.
