Side Event on Scaling Up Nutrition (SUN) and the Global Nutrition Architecture

11 November, 2015

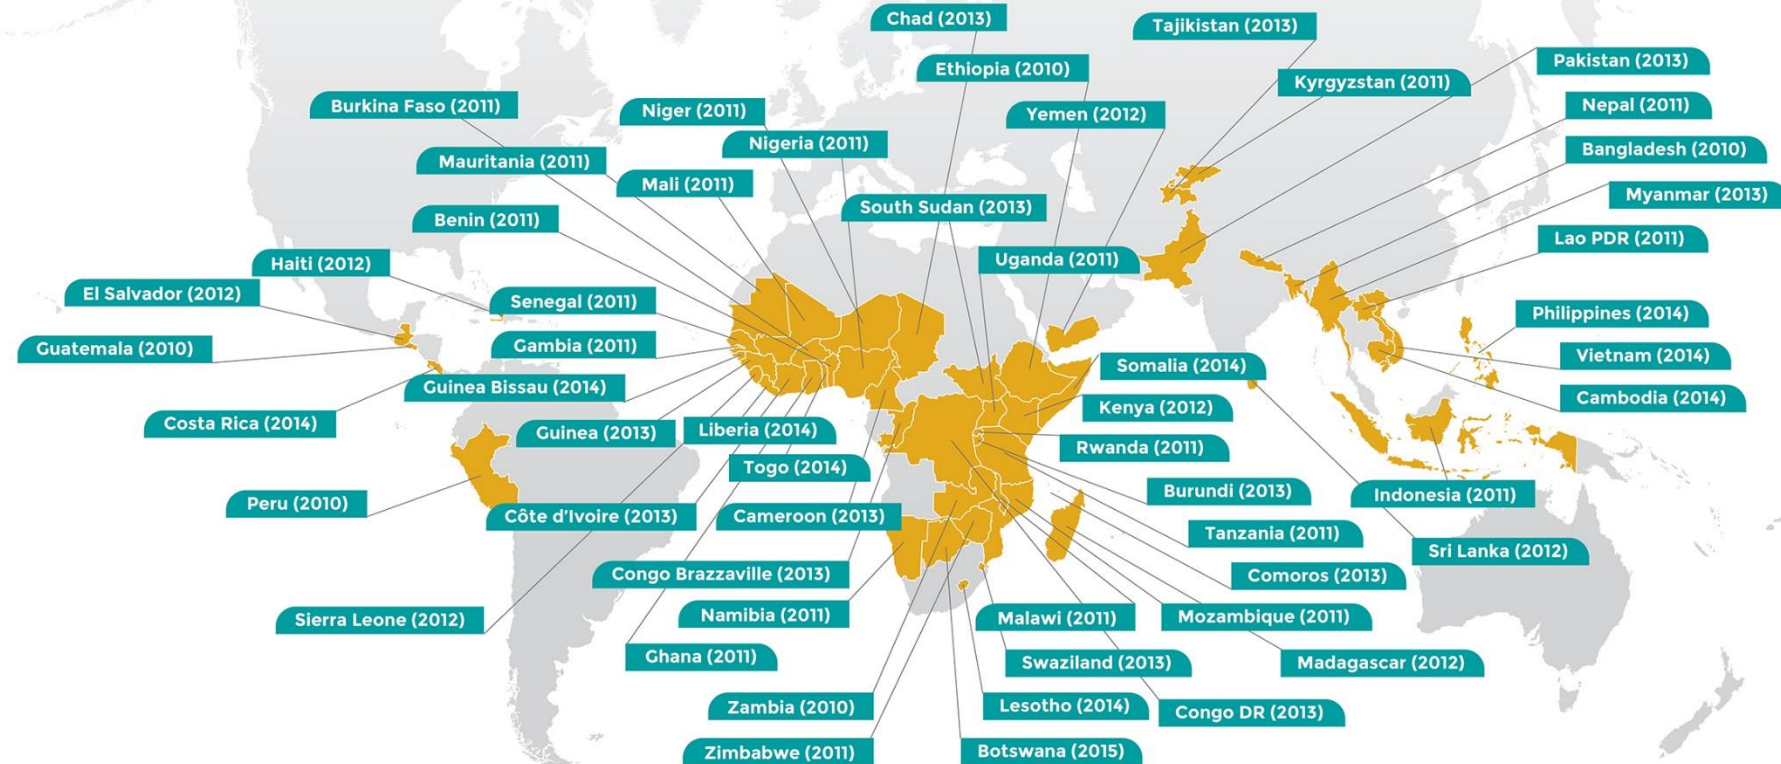

13.30-14.30- WFP Auditorium

The Evolution of the SUN Movement

56 countries are scaling up nutrition

They are home to over 85 million stunted children.
Our vision is to bring this number to zero.

Strategy and Road Map 2016-2020

- **Currently being developed....** (due April 2016)
 - **High level strategy agreed** vision, goals, objectives, principles and ways of working
 - **Roadmap will describe actions**, outputs, responsibilities and timeframes
 - **Continues to build ownership**, mutual accountability, and leverage its members core competencies and comparative advantage
 - **Work is not on hold!**
- **Builds upon the experiences** within countries that are scaling up nutrition
- **Responds to the findings** of an Independent Comprehensive Evaluation
- **Is guided by and contributes to the spirit of strengthened global solidarity** and international commitment
- **Emphasis on implementation at scale and the capabilities needed to accelerate impact**
- **Maintains focus on under-nutrition**, recognises the multiple burdens of malnutrition (overweight and obesity)
- **Continuous exercise in improvement**, through learning and adaptation.

4 Strategic Objectives

- 1) Sustain an enabling environment
- 2) Prioritise effective actions
- 3) Implement and align actions
- 4) Utilise and increase financial resources

Priorities for 2016 – 2020

1) Strengthening Capabilities

- The policy-management cycle
- Amplifying advocacy and mobilisation
- Coordination across sectors, stakeholders and levels
- Derive maximum value from those who engage

2) Accountability and Common Results Framework

- Accountabilities of different stakeholders
- Ambitious and realistic targets
- Avoiding duplication (also with other alliances)
- Transparent reporting, course correction

Support to the government and multi-stakeholder platform

Support to the government and multi-stakeholder platform

- **Strengthen national nutrition policies / action plans** by providing support to national governments and technical groups and enabling a multi-sectoral, multi-stakeholder approach
- **Increase advocacy, awareness and consensus** of stakeholders on the nutrition situation and facilitate the development of strategies / priorities for its improvement
- **Increase national capacity and expertise** on nutrition, including multi-sectoral coordination capacity
- **Strengthen governance by increasing effectiveness and accountability** of stakeholders in implementing and supporting nutrition effort

Main focus

2

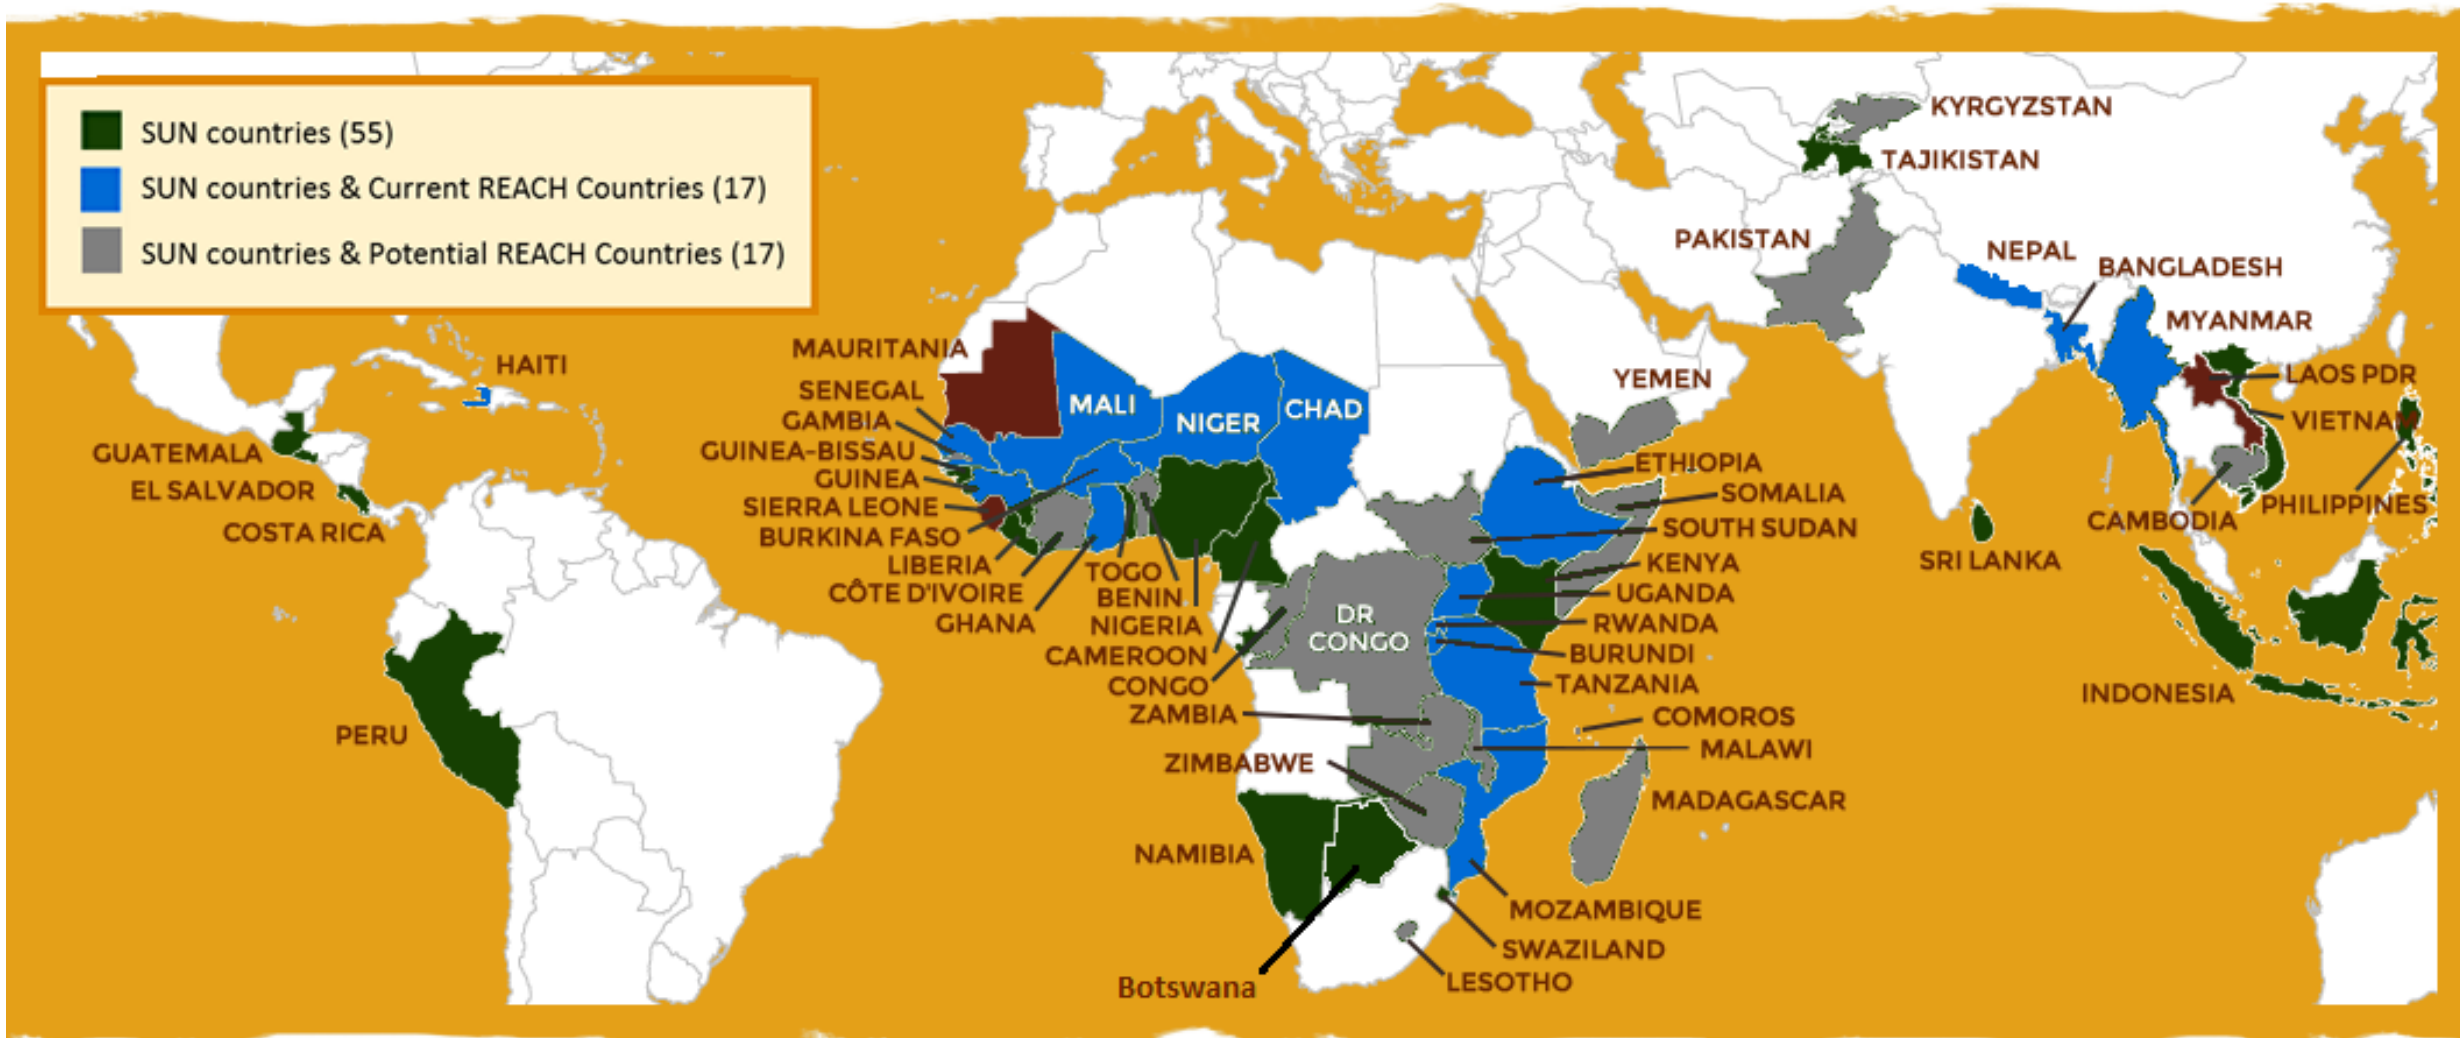

Support to the UN Network

Supports and establishes linkages to the UN Network

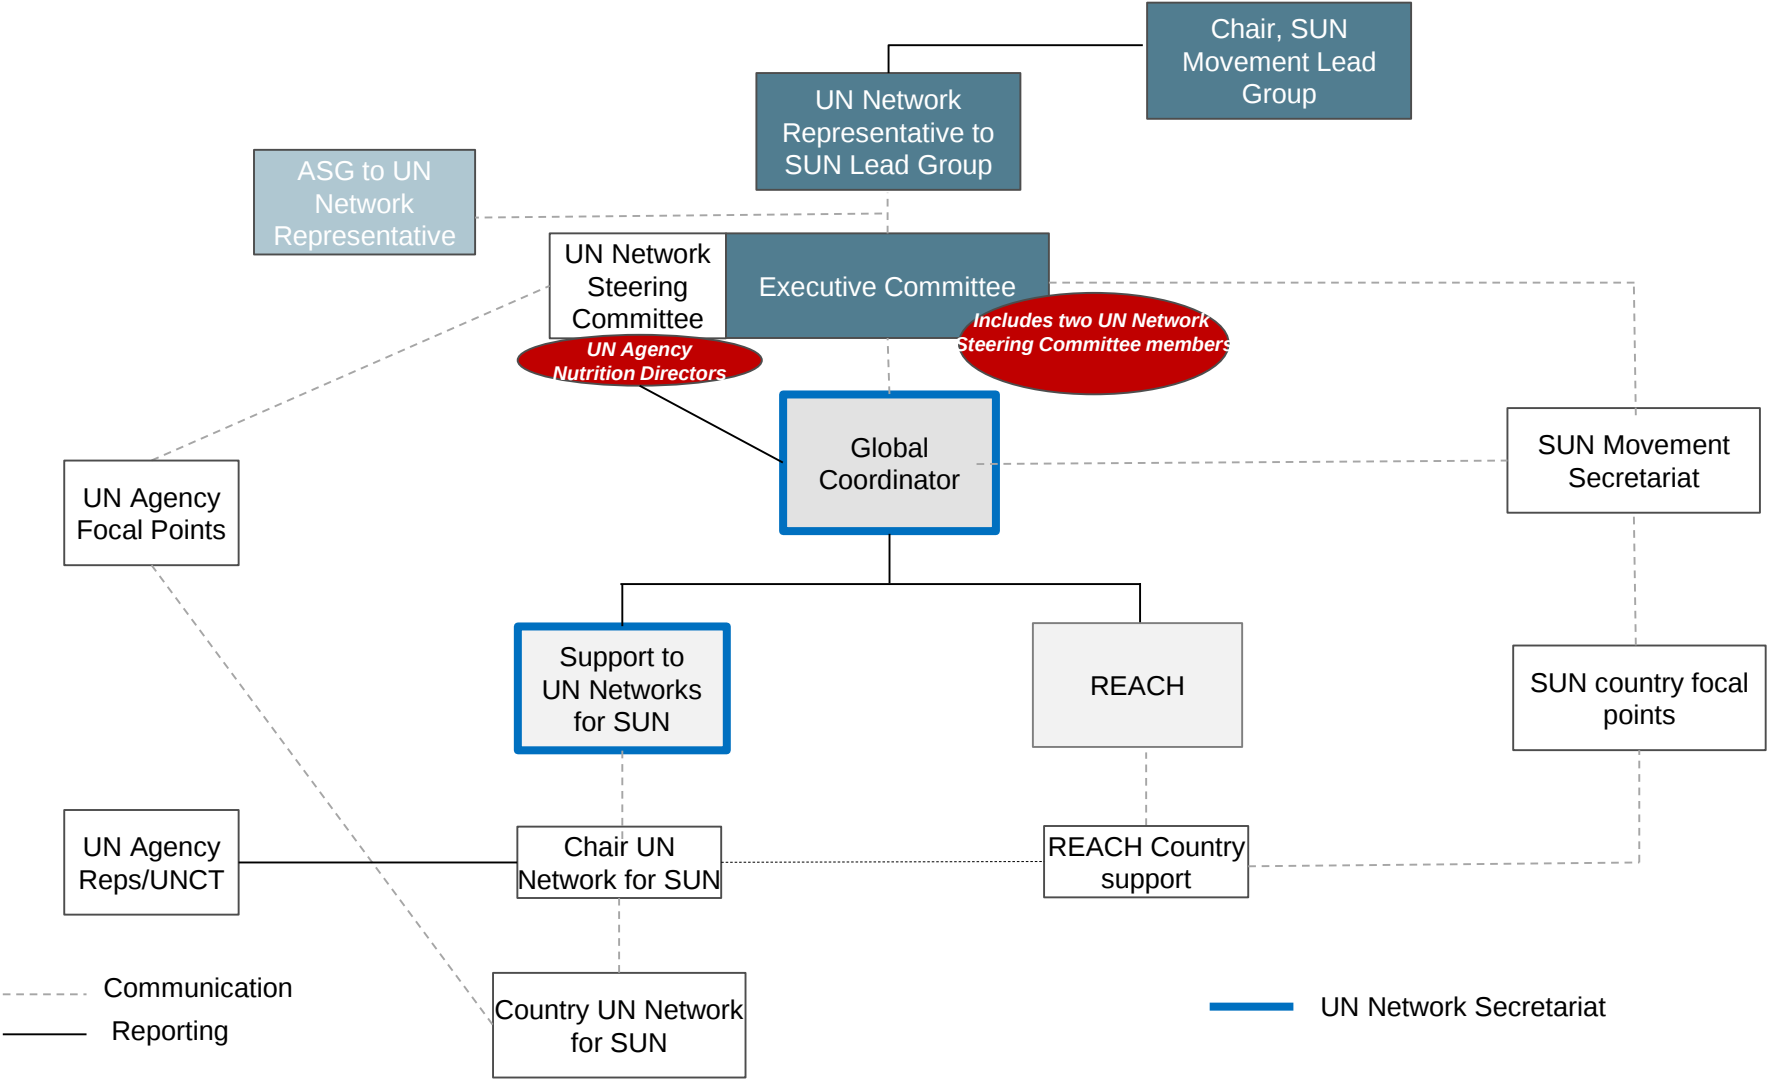

- Facilitates UN network efforts through the **sharing and harmonization** of work plans, approaches and interactions **among UN agencies and with governments and stakeholders**
- Supports the **UN to speak with one voice** and ensures the relevance and effectiveness of UN support
- **Leverages UN expertise**
- **Supports the Chair** of the UN Network as requested

In view of the strong link between REACH facilitation and the country UN Nutrition Team, the UN's efforts will be better integrated/ strengthened
