

**HIGH-LEVEL DIALOGUE ON THE CONTRIBUTION OF BRAZIL TO ENHANCING SOUTH-SOUTH COOPERATION WITHIN THE FRAMEWORK OF THE 2030 AGENDA:
The Sustainable National School Feeding Programme Case**

Side Event on the margins of the Second Regular Session of the Executive Board

Monday, 26 November 2018 from 13.30–14.45

Auditorium, WFP Headquarters

You are kindly invited to the side event entitled “High-Level Dialogue on the Contribution of Brazil to Enhancing South-South Cooperation within the Framework of the 2030 Agenda: The Sustainable National School Feeding Programme Case” which will be chaired by the Government of Brazil and the World Food Programme Centre of Excellence against Hunger in Brazil (WFP-CoE).

The pioneering partnership between Brazil and WFP resulted in the creation of the WFP-CoE which has since achieved significant results in school feeding programmes on the African continent, both at national and regional levels. In this setting, this side event will focus on the innovative experience of Brazil in Sustainable National School Feeding Programmes (SNSF) and Trilateral South-South Cooperation (TSSC) and on the key lessons learned. These lessons will be food for thought and discussions on the role of the Global South in the 2030 Agenda to provide recommendations on how to improve coordination and result-based evaluation of TSSC initiatives.

The event will bring together the WFP Executive Director, the Minister of Social Development of Brazil and other representatives, the Brazilian Cooperation Agency, the National Fund for Education Development of Brazil, the Ministry for Basic and Secondary Education of the Gambia, the Ministry of Education and Human Development of Mozambique (TBC), the Department on Rural Economy and Agriculture on the African Union Commission and the WFP-CoE.

We look forward to welcoming you.
