## Crisis Response

**STRATEGIC OUTCOME 1**  
Crisis-affected populations including refugees, IDPs, returnees and host population in Cameroon have safe access to adequate and nutritious food during and in the aftermath of crises.

**STRATEGIC OUTCOME 2**  
Children 6-23 months, adolescent girls, pregnant and lactating women and other nutritionally vulnerable groups in prioritized regions have improved nutrition status and resilience in line with national standards by 2026.

**STRATEGIC OUTCOME 3**  
Food-insecure and climate-affected populations and smallholder farmers have enhanced livelihoods and resilience to shocks by 2026.

**STRATEGIC OUTCOME 4**  
National institutions and partners have strengthened capacities to manage food and nutrition programmes and social protection systems by 2030.

**STRATEGIC OUTCOME 5**  
The government, humanitarian and development partners in Cameroon can reach vulnerable populations and respond to emergencies throughout the year.
What’s different: Key changes from 1G CSP to 2G CSP

Country context changes
• Rising needs (L2), access challenges; Increasing food insecurity – esp. NW/SW, and Far North
• CAR refugee influx, Nigerian refugee repatriation
• COVID-19 impact
• New National Development Strategy (2020-2030)
• New UN Cooperation Framework (2022-2026)
• Funding challenges / pipeline breaks

Programme changes
• Transition relief beneficiaries to recovery and resilience activities
• Increased resilience activities including HGSF, support to SHF, livelihoods
• Capacity strengthening for EPR (SO1), resilience to support social protection, FSN analysis (CH)
• Use of humanitarian platform to deliver safety nets
• Increased use of CBT & digital solutions
• Improved partnership with Government, UN, IFIs, CPs for SDG2
• Better coordination with all stakeholders

Strategic changes
• Holistic approach across triple nexus (incorporating conflict and climate change analysis)
• Food systems focus, nutrition integration
• Programme integration
• Analysis/evidence generation for better programme design and advocacy
• Innovation in digital transformation (esp. CBT and financial inclusion)
• Cross cutting concerns: nutrition, gender, protection, DI, AAP, environmental sustainability
• Shift from an actor to an enabler... Transition to CM03 and 2030 horizon
