Update on the regional and country-level implementation of the policy on protection and accountability

2022 July
WE MADE EFFORTS TO....

1. Include people-centred standards into the WFP institutional system to ensure accountability

2. Understand what protection means to affected populations and integrate it into the programme

3. Invest in capacity strengthening to implement the protection and accountability policy

4. Put affected populations at the centre of the policy’s monitoring framework

5. Influence the inter-agency space to amplify the positive effect of protection outcomes
IMPLEMENTATION PLAN PILLARS

1. Leadership & institutional set-up and processes: ownership, direction, and support by WFP leaders at the global, regional and country levels.

2. Planning & programming: translation of the protection and accountability policy norms and standards into programming frameworks.

3. Capacity development: staff at all levels need a shared understanding of how protection is relevant to their work.

4. Partnership & accountability: protection actors and entities are essential to ensuring complementarity in achieving protection outcomes.

5. Advocacy & communications: inside and outside WFP, affected persons need platforms to voice their views and concerns regarding decisions that affect their lives.
1. Include people-centred standards into the WFP institutional system to ensure accountability

WFP Corporate strategic plan (2022-2025)

- Save and change lives safely
- Policy coherence
- Inclusion

Second-generation country strategic plans mainstreamed protection, accountability, and conflict sensitivity.

Significant improvements: time & consultation with communities.
2. Understand what protection means to affected populations and integrate it into programming

Communities

- Functional Community Feedback Mechanism
- Collection and Analysis on food security and barriers
- Evidence-based Targeting

Engagement

- Reach the most vulnerable, increase transparency, fairness, and better use of resources.
- Locally and culturally relevant programmes
- Listen, understand and respond to the affected population

Challenges

1. **TIME**
   To understand if efforts have improved the quality and equity of access to WFP interventions

2. **CULTURAL CHANGE**
   To redefine success as a move away from numbers and coverage toward inclusion

3. **HARMONIZED ANALYTICAL FRAMEWORK**
   To give decision-makers a holistic view of risks, needs and fears

4. **ANALYSIS AND DIGITAL SOLUTIONS**
   To support the formulation of evidence-based and actionable recommendations

5. **PARTNERSHIP WITH LOCAL ORGANISATIONS**
   To ensure an inclusive and harmonised approach to implementation

6. **PROTECTION-CENTERED TARGETING**
   To reach those most exposed to vulnerability and risk

7. **MULTI-YEAR FUNDING AND HUMAN RESOURCES**
   To guarantee that protection is mainstreamed into programming
