

A woman with dark curly hair, wearing a red t-shirt and a green sarong, is smiling. She is carrying a large black inflatable ring over her shoulder and a large bundle of fresh green leafy vegetables and green beans in her arms. She is standing in front of a wooden structure with a corrugated metal roof, surrounded by lush green vegetation.

# Pacific Multi-Country Strategic Plan 2023-2027

Executive Board Informal Consultation

30 March 2023

World Food Programme

SAVING  
LIVES  
CHANGING  
LIVES

# CONTEXT

## 14 Pacific Island countries and territories (PICTs):

- Cook Islands, Fiji, Kiribati, the Republic of Marshall Islands, the Federated States of Micronesia, Nauru, Niue, Palau, Samoa, Solomon Islands, Tokelau, Tonga, Tuvalu and Vanuatu.
- Small-sized Nations, Isolated, Maritime, Remote.

## Compounded risks:

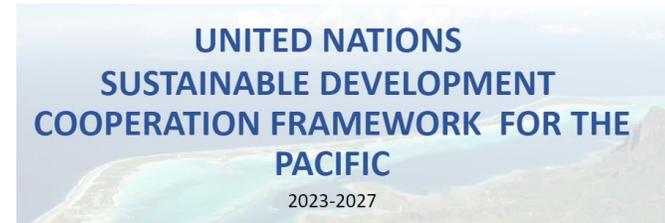

- **COVID-19, persistent economic hardships, climate-related risks and other hazards.**
- **None of the PICTs are on track to achieve the SDGs by 2030.**
- Drivers of poverty include **inequalities** and **inadequate systems** to address poverty and manage risk — all occurring in the context of more intense and frequent climate-related disasters.
- **Lack of robust data** on the impact of shocks on most vulnerable.

# ALIGNMENT

Informed by:

- Policy frameworks and priorities

- Consultations

- Regional institutions, national government counterparts and other stakeholders
- Development partners, including United Nations system agencies, non-governmental organizations, and the International Federation of the Red Cross
- Civil society organizations

# STRATEGIC ORIENTATION

---

- Focus on enhancing the **effectiveness, efficiency** and **sustainability** of preparedness actions and strengthening regional and national capacities to respond to disasters **without WFP direct food assistance**.
- Focus on increasing the Pacific Governments' capacity to understand and address the differentiated impacts of climate change and other shocks on the **food security and nutrition of those most at risk of being left behind** through evidence and action.
- **Contingency to provide mandated and on-demand services in response to sudden-onset shocks**. Limited crisis response would augment specific government and partner gaps, only as required, in logistics, emergency telecommunications and on-demand services.
- **Gender and disability inclusion** as key cross-cutting elements.

# PARTNERSHIPS

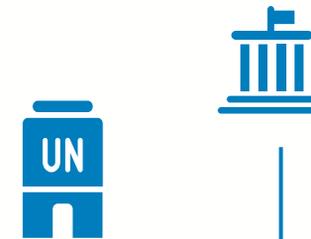

## Partnerships are central to the MCSP approach

**Joint programmes** with United Nations agencies and regional partners to build human capital and resilience

**PICT Governments** across all areas to promote Pacific-led approaches.

**Innovative solutions** with regional partners (CROP agencies)

**Serving communities** through enhancing preparedness and social protection systems

**Building knowledge** and generating FSN evidence with academia and research institutes

**Private Sector Partnerships** for enhancing supply chains and ETC

**Thank you**
