World Food Programme
Strategic orientation

• Introduces two outcome areas:
  • A new portfolio empowering women smallholder farmers through resilience to climate change and participation in value chains
  • Expands country capacity strengthening for social protection, school feeding, healthy diets, and emergency preparedness & response
• Adopts a food systems approach integrating the production, aggregation, transformation, marketing and consumption of nutritious food
• Promotes WFP private sector engagement and One UN approach
Strategic shifts

• Adopts **country capacity strengthening** modality
• Contributes to Bhutan’s emerging **social protection** agenda
• Prioritises **gender transformative** support for rural women
• Addresses gaps in **climate smart** approaches and **value chains**
• Integrates **social behaviour change** across all activities
• Commits to the expansion of UN **partnerships**
Thank you
