

**CHANGING** LIVES

# **Country Strategic Plan 2019-2023**

October 2024 - Round table on evaluation reports

#### **Overview of the Rwanda CSP**

- Continued support to refugees with food and CBT (SO1)
- Increased enabling role of WFP in strengthening national systems - social protection and DRRM (SO2-SO3)
- Progressed support to smallholder farmers (SO4)
- Added humanitarian service provision (SO5)
- NBP of USD 278.3 million (as per Budget Revision 03); **56% funded** in June 2023

### Strategic positioning and alignment

**Strong evidence base** supported a focus on the vulnerable and good national alignment

Consultative approach and partnership with national and local institutions conducive to adaptability and national ownership

Good internal **programme synergies** and search for **external complementarities** 

### **Key contributions to change**

**High coverage of refugees** offered safety nets against shocks and **shift to cash** had generally positive effects at various levels

Establishment of national **school feeding programme** a positive development building on WFP's past efforts

Promising steps forward in **nutrition mainstreaming** and for **smallholder farmers**, though still modest

Contributions to **national policy framework and capacities**, notably in social protection connected to DRRM

Effective **supply chain support** to national responses to crises

### Specific areas for CSP improvement

Refugee support needs to rely on suitable funding base

Enhanced attention to disability inclusion and gender

Refined approach to country capacity strengthening,

Room for increased attention to **environment** and **climate change**, and to mainstreaming **sustainability approaches** 

## Systemic issues for consideration

1

M&E systems focused on outputs, and does not adequately capture outcomes in various areas of focus

2

Need solutions and adequate financing for livelihoods consolidation and self-reliance, and better clarity of WFP's role as enabler, alongside and in coordination with other partners

3

Strengthen management arrangements and staffing profiles to better align with CSP focus
