DRAFT STRATEGY 2016-2018

Vision

Vulnerable communities globally are effectively served in crisis by a prepared and locally driven humanitarian logistics system.

Mission

The Logistics Cluster enables global, regional and local actors to meet humanitarian needs.

Before crises, we work with stakeholders in high risk countries and regions to strengthen local capacities. In crisis, where local capacities have been exceeded, we provide leadership, coordination, information and operational services.

Globally, the Logistics Cluster is a community of organisations actively working to overcome logistics constraints, develop and share best practices and solutions.
