

SAVING DAYS

TO SAVE LIVES

GCMF

GLOBAL COMMODITY MANAGEMENT FACILITY

Established in 2010, the Global Commodity Management Facility (GCMF) is an advance financing mechanism, allowing WFP to respond faster to emergencies. It enables a steady supply of commodities at a reduced lead-time and food procurement when markets are favorable.

FOOTPRINT

1.7 million mt of food

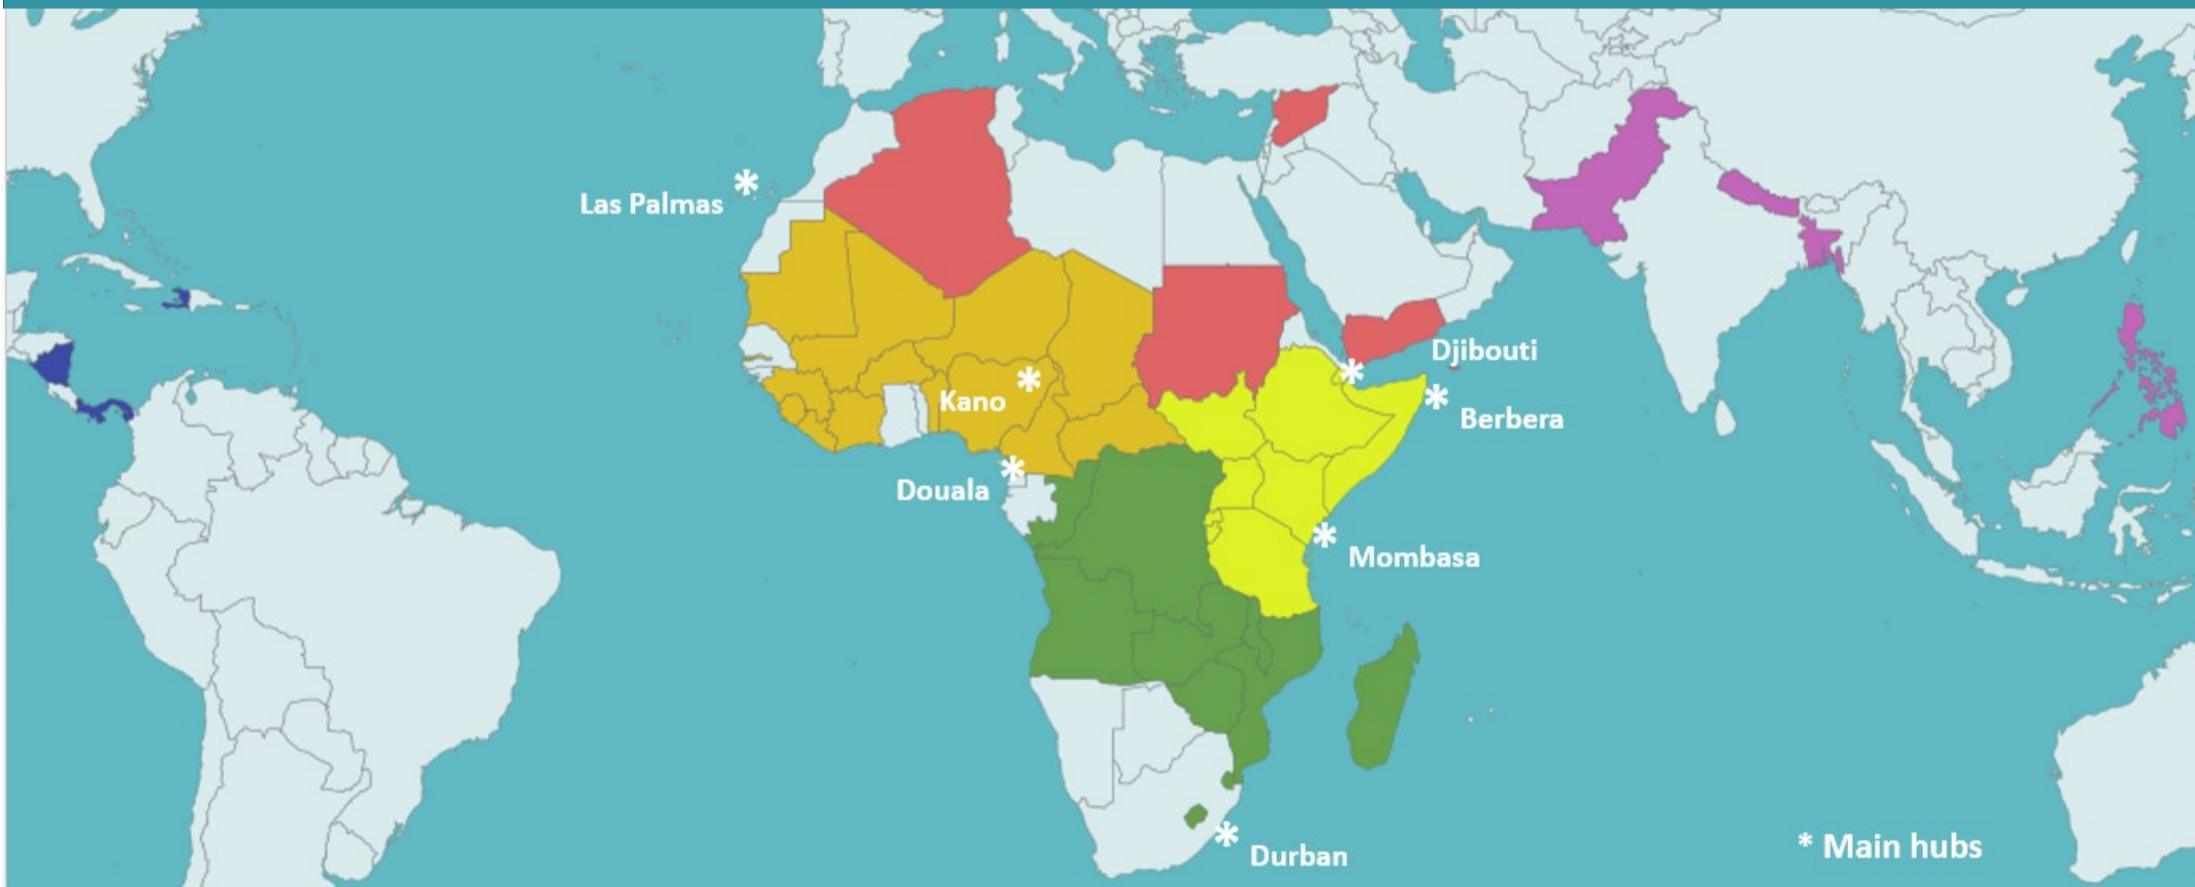

47% of all food resourced in 2017

SOURCING

40% of food procured in local and regional markets in 2017
