## The Joint Inspection Unit

1. The Joint Inspection Unit (JIU), established by United Nations General Assembly Resolution Number 2150 (XXI) in 1966, is an independent, external oversight body of the United Nations system mandated to conduct evaluations, inspections and investigations system-wide. The JIU is composed of 11 inspectors whose aim is to help improve management and methods, promote greater coordination among United Nations organizations and determine whether activities undertaken by participating organizations are carried out in the most economical manner.
2. The JIU's participating organizations are the United Nations and its affiliated bodies and specialized agencies. WFP is a participating organization through its constitutional ties to the United Nations and the Food and Agriculture Organization of the United Nations (FAO). Relevant JIU reports are addressed to the Executive Director for transmission to the WFP Board.

### JIU reports for WFP action

3. In the 2019 reporting period,<sup>1</sup> the JIU issued seven reports that require WFP action, which may be found on the JIU website in Arabic, Chinese, English, French, Russian and Spanish, and via the hyperlinks in annex III.
4. The following JIU reports include new recommendations for WFP action:
  - i) Opportunities to improve efficiency and effectiveness in administrative support services by enhancing inter-agency cooperation (JIU/REP/2018/5)
  - ii) Enhancing accessibility for persons with disabilities to conferences and meetings of the United Nations system (JIU/REP/2018/6)
  - iii) Strengthening policy research uptake in the context of the 2030 Agenda for Sustainable Development (JIU/REP/2018/7)
  - iv) Review of the United Nations System-Wide Action Plan on Gender Equality and the Empowerment of Women (JIU/REP/2019/2)
  - v) Review of the integration of disaster risk reduction in the work of the United Nations system in the context of the 2030 Agenda for Sustainable Development (JIU/REP/2019/3)
  - vi) Review of change management in United Nations system organizations (JIU/REP/2019/4)
  - vii) Review of audit and oversight committees in the United Nations system (JIU/REP/2019/6)
5. Annex I outlines 44 new recommendations from JIU reports with recommendations for WFP action issued since the last report to the Board, and WFP's responses and follow-up actions. These include 12 recommendations for action by the legislative body received in the 2019 reporting cycle, and responses suggested by the Secretariat. The Alternates of the Executive Board Bureau reviewed these suggested responses, which were subsequently endorsed by the Bureau at its December 2019 meeting.
6. Annex II updates the status of 11 recommendations from reports previously reported to the Board.

---

<sup>1</sup> Reports received by 15 October 2019.

7. Annex III provides links to JIU reports discussed in this document and the associated comments of the United Nations System Chief Executives Board for Coordination (CEB).
8. Follow-up has resulted in the closure of 43 recommendations (see table 1).

| 2019/6<br>Rec. 2 | Review of audit and oversight committees in the United Nations system | The legislative and/or governing bodies of the United Nations system organizations that have not already done so should ensure that the terms of reference or charter of the audit and oversight committees of their respective organizations are revised to reflect all the internal oversight functions that are part of the responsibilities and activities of the committee, where applicable, by the end of 2021. | Accepted    | In progress      | Open      | Focal point: Executive Board Secretariat (EBS)<br>The <a href="#">Revised terms of reference of the Audit Committee (TOR)</a> <sup>1</sup> provide the specific responsibilities of the Audit Committee regarding internal oversight functions. They include advising the Executive Board and the Executive Director on the staffing, resources and performance of the internal audit function, the appropriateness of the independence of the function, the selection and performance of the Inspector General and Director of Oversight Office, the annual plan for oversight activities of the Oversight Office and the process for handling and investigating significant allegations. Since their approval by the Board in 2011, the TOR have been updated three times to reflect evolving oversight priorities. On 4 December 2019, the Executive Board Bureau and the Audit Committee discussed proposing additional changes to the TOR. For example, the Audit Committee meets the Director of Evaluation every year as a standing agenda item for its mid-year meeting, which is not listed in the current TOR. The TOR will be revised to reflect that evaluation function as part of the internal oversight functions covered by the Audit Committee. |

<sup>1</sup> The revised terms of reference of the Audit Committee set out in document WFP/EB.2/2018/10/1 were approved by the Executive Board during its second regular session in November 2018. <https://docs.wfp.org/api/documents/WFP-0000099367/download/>.

| 2019/6<br>Rec. 5 | Review of audit and oversight committees in the United Nations system | In order to meet the needs of the organizations, the legislative and/or governing bodies of the United Nations system organizations that have not already done so should consider revising and updating the terms of reference or charter of their audit and oversight committees to contain provisions related to the relevant skills and professional expertise of members, including a balanced mix of public and private sector experience at the senior level. In addition, a strong understanding of the structure and functioning of the United Nations system and/or intergovernmental and international organizations is desirable. | Accepted    | Implemented      | Closed    | <p>Focal point: EBS</p> <p>The TOR of the Audit Committee already require committee members to have skills, knowledge and senior-level experience in the following areas: finance and audit; governance and accountability structures of organizations, including risk management; general legal concepts; senior-level management; and the organization, structure and functioning of the United Nations system and/or other intergovernmental organizations.</p> <p>In addition, the TOR require members to have or acquire an understanding of the objectives of WFP, its mission and governance and accountability structures and the rules governing it. This is facilitated by an “onboarding” induction and orientation session for new members as mentioned in paragraph 38 of the TOR: “As part of onboarding activities, incoming members shall receive a one-day induction, similar to that arranged for new Executive Board members and observers, prior to their first meeting.”</p> |
| 2019/6<br>Rec. 6 | Review of audit and oversight committees in the United Nations system | The legislative and/or governing bodies of the United Nations system organizations that have not already done so should request their audit and oversight committees to undertake a self-assessment every year and an independent performance evaluation every three years and report to them on the results.  | Accepted    | In Progress      | Open      | <p>Focal point: EBS</p> <p>The Audit Committee’s self-assessment of its performance was included in the committee’s rules of procedure from the outset. | 2019/6<br>Rec. 7 | Review of audit and oversight committees in the United Nations system | The legislative and/or governing bodies of the United Nations system organizations that have not already done so should ensure that the terms of reference or charter of their audit and oversight committees are periodically revised and updated with a view to including emerging priorities of, and new challenges to, their respective organizations. | Accepted    | Implemented      | Closed    | Focal point: EBS<br>The TOR of the Audit Committee already include a paragraph stating: “The Executive Board and the Executive Director shall take the necessary actions to ensure periodic review of these TOR. Any proposed amendment shall be submitted to the Executive Board for approval.”<br>The revised TOR of the Audit Committee set out in document WFP/EB.2/2018/10/1 were approved by the Executive Board during its second regular session in November 2018. The TOR have been revised three times since 2011 when they were first approved by the Board in response to the February 2009 decision by the Board that the Audit Committee would report to both the Executive Board and the Executive Director. |
| 2019/4<br>Rec. 1 | Review of change management in United Nations system organizations    | Governing/legislative bodies are encouraged to ensure that executive heads embed change management approaches and methods in their organizational reforms and report on the results.   | Accepted    | Implemented      | Closed    | Focal point: Innovation and Knowledge Management Division (INK)<br>WFP acknowledges the importance of embedding change management approaches and methodology in organizational reforms. Change management approaches were developed for organizational change initiatives including the Integrated Road Map and the Fit for Purpose exercise. To ensure that change management support is available, WFP has created a change management team within INK  |

| 2019/4<br>Rec. 5 | Review of change management in United Nations system organizations  | Executive heads should give greater prominence to the role that their strategic human resources management functions play in organizational change management. This would include promoting changes in individual attitudes and behaviours, establishing mechanisms to reinforce these, and creating channels to communicate feedback across all personnel.  | Accepted           | Implemented      | Closed    | Focal point: HRM<br>WFP agrees that strategic human resources functions such as talent management and workforce planning support the organization in its ability to successfully adapt to change (including organizational restructuring and change in general) and will continue to emphasize the value of such functions.   |
| 2019/4<br>Rec. 6 | Review of change management in United Nations system organizations  | Executive heads should include an item on the agenda of the next meeting of the High-level Committee on Management of the United Nations System Chief Executives Board for Coordination to consider how to support the United Nations Laboratory for Organizational Change and Knowledge to play a greater role in United Nations system reforms.  | Accepted           |                  | Closed    | Focal point: INK<br>As a member of the CEB, WFP will contribute to inter-agency initiatives established as a result of this recommendation. WFP agrees that knowledge related to change management should be stored and redeployed for the benefit of the United Nations system and its organizations in order to provide opportunities for learning and growth in change management practices among United Nations organizations.  |
| 2019/3<br>Rec. 1 | Review of the integration of disaster risk reduction in the work of the United Nations system in the context of the 2030 Agenda for Sustainable Development | The governing bodies of the organizations of the United Nations system should request the secretariats of their organizations to present a map of interlinkages between the core mandate of their organizations and disaster risk reduction and report on the progress made on disaster risk reduction accordingly, using the specific guidance provided by the "Results Framework of the United Nations Plan of Action on Disaster Risk Reduction for Resilience – guidance for monitoring and reporting on the progress of the implementation of the United Nations Plan for Action on disaster risk reduction". | Partially accepted |                  | Closed    | Focal point: Climate and Disaster Risk Reduction Programmes Unit (OSZIR)<br>WFP recognizes the value of mapping interlinkages between an organization's core mandate and disaster risk reduction. However, it considers that for decentralized operational agencies, which have diverse programmes in many offices in the field, the suggested reporting methodology is cumbersome, particularly because it is not aligned with WFP's existing monitoring and evaluation processes. |

| 2019/3<br>Rec. 2 | Review of the integration of disaster risk reduction in the work of the United Nations system in the context of the 2030 Agenda for Sustainable Development | The Secretary-General, in leading the reform of the United Nations development system, together with the executive heads of the organizations, should ensure that the new generation of United Nations Sustainable Development Cooperation Frameworks systematically include disaster risk reduction as part of the common strategic plans of the country teams, to enable risk-informed development and planning, with allocated resources for its implementation, and a common reporting system to measure progress against the priorities of the Sendai Framework and the United Nations Plan of Action on Disaster Risk Reduction for Resilience, with detailed reporting on operational activities to the governing bodies. | Partially accepted |                         | Closed           | Focal point: OSZIR<br>WFP already has monitoring and evaluation reporting systems designed to suit its needs as a humanitarian organization. WFP agrees with the recommendation in principle but considers that the recommended reporting methodology is too detailed and overly cumbersome for operational organizations that have diverse programmes in many field offices.  |
| 2019/3<br>Rec. 3 | Review of the integration of disaster risk reduction in the work of the United Nations system in the context of the 2030 Agenda for Sustainable Development | The executive heads of the organizations working in the field, in contributing to the ongoing reform of the reinvigorated resident coordinator system, should ensure that the United Nations country teams plan for dedicated capacity to implement risk-informed development activities and that such activities in the field are reported to headquarters, including by monitoring their contribution to implementing the Sendai Framework, taking into account the reporting framework for Sustainable Development Goals.   | Partially accepted |                         | Closed           | Focal point: OSZIR<br>WFP recognizes the benefit of having dedicated support in United Nations country teams, especially for reporting on disaster risk reduction. However, the reporting systems of humanitarian agencies are very different from those of development agencies and include fewer data on disaster risk reduction. Humanitarian agencies therefore require different support for monitoring and reporting related to disaster risk reduction. |

However, these benefits should be balanced against the implicit costs, the need for safeguards to ensure protection of sensitive data and the efficient use of existing platforms.   |
| 2018/7<br>Rec. 7 | Strengthening policy research uptake in the context of the 2030 Agenda for Sustainable Development | The Secretary-General of the United Nations and the Executive Heads of other United Nations system organizations should review the level of involvement of researchers from the South and adopt policies and frameworks that will stimulate capacity-building for all dimensions of the policy research functions, including research uptake at the national level, and report thereon to the General Assembly and to the governing bodies, respectively, by the end of 2020. | Accepted           |                         | Closed           | Focal point: RAM<br>WFP supports the goal of increasing national capacity for country-led food security analysis and research that can adequately inform national policies, programmes and projects. As a member of the CEB, WFP will contribute to inter-agency initiatives resulting from this recommendation.   |
| 2018/7<br>Rec. 8 | Strengthening policy research uptake in the context of the 2030 Agenda for Sustainable Development | The Executive Heads of the United Nations system organizations involved in the United Nations Network on Migration should instruct the relevant units to assess the options of inter-agency collaboration, on the basis of converging interests and specific competencies, with regard to decision-making on migration-related research projects, by the end of 2019.   | Accepted           |                         | Closed           | Focal point: RAM<br>As a member of the CEB, WFP will contribute to inter-agency initiatives resulting from this recommendation. Migration and its implications for food security and livelihood outcomes remain a key topic. WFP welcomes the opportunity to work with inter-agency partners on leveraging comparative advantages in order to inform timely decisions affecting displaced populations. |
| 2018/7<br>Rec. 9 | Strengthening policy research uptake in the context of the 2030 Agenda for Sustainable Development | The governing bodies of the United Nations system organizations should take measures to ensure that commitments to inter-agency collaboration, including through the establishment of a global data knowledge platform and the facilitation of academic exchanges, as stipulated in the Global Compact for Safe, Orderly and Regular Migration, are implemented by the end of 2020.   | Accepted           |                         | Closed           | Focal point: RAM<br>As a member of the United Nations system, WFP will contribute to inter-agency initiatives resulting from this recommendation. WFP will share its research as a global public good and, whenever possible, will share anonymized datasets with the global data knowledge platform once established.   |

| 2018/7<br>Rec. 12 | Strengthening policy research uptake in the context of the 2030 Agenda for Sustainable Development             | The Secretary-General of the United Nations, in consultation with all Executive Heads of the United Nations system organizations, should encourage long-term partnerships with academic communities at the global, regional and national levels, and establish basic guidelines for such partnerships.  | Partially accepted |                         | Closed           | Focal point: RAM<br>WFP recognizes the value of establishing and nurturing long-term partnerships with academic communities at the global, regional and national levels. However, it does not see the benefit of establishing generic guidelines given the need to remain flexible in accommodating various research interests and contexts.   |
| 2018/6<br>Rec. 1  | Enhancing accessibility for persons with disabilities to conferences and meetings of the United Nations system | The executive heads of United Nations system organizations should task the relevant offices with developing, by the end of 2020, a draft policy on the accessibility of conferences and meetings for persons with disabilities, as well as guidelines for policy implementation, and present them to their respective legislative bodies, should the endorsement of those bodies be required for the policy to take effect. | Partially accepted |                         | Closed           | Focal points: EBS, Management Services Division (MSD) – Facilities Management Branch (MSDI)<br>WFP agrees with the CEB response to this recommendation, which notes that the policy would be most effective if it were part of a broader policy on accessibility in United Nations premises, to be implemented in all organizations to ensure coherent responses and standards. WFP will contribute to any inter-agency action initiated in response to this recommendation. |
| 2018/6<br>Rec. 2  | Enhancing accessibility for persons with disabilities to conferences and meetings of the United Nations system | For all major conferences that are hosted off the premises of United Nations system organizations, the executive heads of these organizations should ensure that accessibility requirements are clearly stipulated in individual agreements concluded with the hosting entity for specific conferences and meetings.  | Accepted           | Implemented             | Closed           | Focal points: EBS, MSDI, Goods and Services Procurement Branch (SCOPG)<br>WFP will specify requirements in its agreements with external vendors of meeting and venue services for major conferences.   |

| 2018/5<br>Rec. 5 | Opportunities to improve efficiency and effectiveness in administrative support services by enhancing inter-agency cooperation | The Secretary-General should designate, by September 2019, a limited group of executive heads, which would include those of UNDP, UNFPA, UNHCR, UNICEF and WFP, to formulate a proposal for consolidated country-level administrative support arrangements, in accordance with the provisions of General Assembly resolution 72/279.   | Accepted    |                  | Closed    | Focal point: MSD<br>As mentioned in the <a href="#">CEB inter-agency comments</a> , this work is ongoing as part of implementation of General Assembly resolution 72/279, and is led by the BIG, in close consultation with the transition team for repositioning the United Nations development system and under the overall guidance of the Deputy Secretary-General. The agencies listed are all participating. An update on progress made was presented to the Economic and Social Council at its operational activities segment in 2019.   |
| 2018/5<br>Rec. 6 | Opportunities to improve efficiency and effectiveness in administrative support services by enhancing inter-agency cooperation | The United Nations Sustainable Development Group should refocus the common business operations of United Nations country teams on a more limited agenda, such as common premises, facility services and procurement. All country teams should be required, by the end of 2020, to put forward a business case on common premises. They should also be required to establish joint long-term agreements and service contracts by the end of 2020. | Accepted    |                  | Closed    | Focal point: MSD<br>WFP supports the recommendation but agrees with the CEB inter-agency comments on the JIU report, which note that it is not always possible to co-locate at the country level owing to a lack of availability, affordability or security compliance. Other working modalities should therefore be considered. See also response to recommendation 4.<br>WFP also agrees with the <a href="#">CEB inter-agency comments</a> on the perspective of service recipients, which note that focusing on a limited set of services may lead to increased administrative costs and complexity. | 2017/9<br>Rec. 2  | Review of mechanisms and policies addressing conflict of interest in the United Nations system | Executive heads of the United Nations system organizations, who have not yet done so, should direct their human resources services to introduce a mandatory conflict of interest disclosure form that should be signed by staff members, along with their declaration of office, by all staff members and other types of personnel joining an organization, whether in a short- or long-term capacity. The form should be developed with the assistance of the ethics function of the respective organization and with other functions, as appropriate, and in consultation with any future inter-agency forum. | Accepted           | In progress             | Open             | Focal points: HRM and ETO in consultation with LEG<br>ETO created a pre-appointment conflicts of interest disclosure form and corresponding guidance for HRM implementation. HRM piloted the form and a simplified online version will be needed for global rollout. HRM will continue to engage with ETO on the next steps for global implementation. |
| 2017/9<br>Rec. 3  | Review of mechanisms and policies addressing conflict of interest in the United Nations system | The governing bodies of the United Nations system organizations should request the executive heads of the organizations to prepare a detailed report on existing financial disclosure programmes and propose any changes to the rationale and scope of those programmes that are needed to increase their effectiveness.  | Accepted           | Implemented             | Closed           | Focal point: ETO<br>In 2017, based on experiences and lessons learned and in consultation with an external contractor, ETO reviewed the financial disclosure programme. The new Executive Director Circular on "Conflicts of Interest and the Annual Conflicts of Interest and Financial Disclosure Programme" was issued in March 2020.               |

| 2017/3<br>Rec. 6  | Review of air travel policies in the United Nations system | The executive heads of the United Nations system organizations, if they have not already done so, should encourage the use of online booking tools for air travel, update their travel policies with guidelines for optimal use of such tools, and consider integrating them with their existing systems by 2020.  | Accepted           | In progress             | Open             | Focal point: MSD<br>WFP has developed a self-service travel platform, which was piloted at headquarters and in the Global Support Services' India Travel Group in 2019. Further rollout and development in 2020 is under review due to the WFP WINGS upgrade and the COVID-19 travel restrictions.   |
| 2016/10<br>Rec. 1   | Knowledge management in the United Nations system          | The executive heads of the United Nations system organizations, if they have not already done so, should develop knowledge management strategies and policies aligned with the mandate, goals and objectives of their respective organizations, by the end of 2018. Such strategies should be based on an assessment of current and future knowledge management needs and include measures for implementation. | Accepted           | Implemented             | Closed           | Focal point: INK<br>WFP has developed a knowledge management strategy that reaffirms the importance of knowledge management in contributing to the achievement of organizational goals linked to the 2030 Agenda. The strategy is based on three pillars: people, processes and systems. WFP is rolling out the strategy and the systems are being deployed. The adaptation of the strategy to needs in the people and processes pillars is occurring at the divisional and regional levels. |
