WFP Syria

2022-2023 Interim Country Strategic Plan

November 2021

CONTEXT

- Over 60 percent of the population food insecure.
- Declining dietary diversity and increasing nutrition concerns.
- Severe economic crisis, exhausted coping strategies, uprooted livelihoods, sporadic violence.

WFP's STRATEGIC FOCUS

- More and better-quality general food assistance.
- Focused nutrition and school feeding interventions.
- Holistic livelihoods and resilience response.
- Common services to enable humanitarian response.
