## **Report of the Executive Director on contributions, reductions and waivers of costs under General Rule XIII.4 (f) in 2021**

### **Introduction**

1. In accordance with General Rule XIII.4 (f), this report is submitted to the Executive Board for information and provides a summary of contributions that do not achieve full cost recovery received from governments of developing countries, countries with economies in transition and other non-traditional donors ( General Rule XIII.4 (c)); contributions with reductions or waivers of indirect support costs (ISC) and, where applicable, direct support costs of an activity or activities (General Rule XIII.4 (d)) and; contributions from governments of developing countries and countries with economies in transition with a reduced indirect support cost rate as set by the Board (General Rule XIII.4 (e));

### **Contributions from governments of developing countries, governments of countries with economies in transition, and other non-traditional donors (General Rule XIII.4 (c))**

2. Many governments of developing countries and countries with economies in transition, and other non- traditional donors, support WFP operations through in-kind contributions of commodities or services under General Rule XIII.4 (c). In 2021, the value of such contributions was USD 11.7 million under twinning arrangements, down from USD 13.6 million in 2020. In-kind commodity, service and cash contributions were matched with USD 1.2 million of cash contributions from other donors, up from USD 0.6 million in 2020, and USD 7.2 million from the Emerging Donor Matching Fund (EDMF), down from 7.8 million in 2020. No ISC were waived on these contributions in 2020 or 2021.

---

#### **Focal points:**

Mr M. Juneja  
Chief Financial Officer and  
Assistant Executive Director  
Resource Management Department  
tel.: 066513-2885

Mr R.van der Zee  
Director  
Corporate Finance Division  
tel.: 066513-2544

Ms M. Mananikova  
Deputy Director, Financial Reporting  
Corporate Finance Division  
tel:066513-2868

<b>Total 2021</b>	<b>11 677 000</b>	<b>1 210 646</b>	<b>7 184 016</b>
<b>Total 2020</b>	<b>13 559 683</b>	<b>652 459</b>	<b>7 790 546</b>

\* The Emerging Donors Matching Fund provided the funds to cover the support costs associated with these contributions.

### **Waivers of indirect support costs and direct support costs (General Rule XIII.4 (d))**

- WFP's 2021 operations were also augmented through in-kind contributions of services and non-food items under General Rule XIII.4 (d). In 2021 these contributions decreased to USD 13.9 million from USD 27.4 million in 2020. The decrease in 2021 is attributed mainly to phase out of in-kind services provided by governments, non-governmental organisations, and private entities in support to the COVID-19 response. The 2021 estimated value was close to the 2019 one in the pre-COVID-19 period. The total estimated waived ISC in 2021 decreased to USD 0.9 million from USD 1.8 million in 2020. No ISC on cash contributions or direct support costs were waived in 2021. Table 2 provides waived ISC details by donor, recipient country, and contribution amount.

### **Reduced indirect support costs for contributions from governments of developing countries and countries with economies in transition (General Rule XIII.4 (e))**

4. The Executive Board approved<sup>1</sup> a reduced ISC rate of 4 percent for governments' contributions to programmes in their own countries and contributions made by developing countries or countries with economies in transition. In 2021 the value of such contributions in the form of cash and in-kind was USD 495.8 million, up from USD 334.1 million in 2020, with ISC of USD 19.1 million, up from 12.9 million in 2020. The increase in contribution value by 48 percent from 2020 can be explained by the increased contributions from the host governments with reduced ISC rate, of which approximately 45 percent were funded by international financial institutions (IFIs)<sup>2</sup>. Table 3 provides the details by donor country, contribution amount and reduced ISC.

<sup>1</sup> [WFP/EB.2/2020/5-A/1/Rev.1](#).

<sup>2</sup> In 2021, WFP and an IFI entered into three agreements, one to support operations in Afghanistan and two to support operations in Yemen, applying the ISC rate of 4 percent. WFP's standard ISC rate is 6.5 percent for all programmatic contributions except for governments' contributions to programmes in their own countries, and government contributions made pursuant to General Rule XIII.4(e), for which the ISC rate of 4 percent applies. Following extensive consultations and legal review, senior management concluded that the application of the 4 percent ISC rate was incorrect for the three grants due to the fact that they were made by an IFI directly to WFP and not a government, and that a 6.5 percent ISC rate should have applied. These grants were subsequently registered with the standard 6.5 percent ISC rate. This issue is disclosed in Note 8.2 to the [Audited Annual Accounts, 2021](#). Furthermore, in the [Update on the WFP management plan \(2022-2024\)](#), WFP is seeking Executive Board approval to extend the application of the 4 percent ISC rate to situations where IFI contributions would normally have been directed through host governments but where the host government is ineligible to receive contributions from IFIs, such as in the case of *de facto* authorities.
