
ANNEX II-D: OUTCOME ANALYSIS AGAINST STRATEGIC OBJECTIVES AND CROSS-CUTTING RESULTS

2021 RESULTS BY STRATEGIC OBJECTIVE
SO 1: End hunger by protecting access to food - 39 indicators

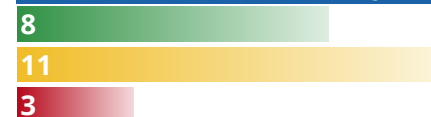

SO 2: Improve nutrition - 27 indicators

SO 3: Achieve food security - 25 indicators

SO 4: Support SDG implementation - 12 indicators

SO 5: Partner for SDG results - 6 indicators

2020 RESULTS BY STRATEGIC OBJECTIVE
SO 1: End hunger by protecting access to food - 39 indicators

SO 2: Improve nutrition - 33 indicators

SO 3: Achieve food security - 22 indicators

SO 4: Support SDG implementation - 10 indicators

SO 5: Partner for SDG results - 6 indicators

Strategic Objective 1 – End hunger by protecting access to food

Strategic Result 1 – Everyone has access to food

Outcome 1.1: Maintained/enhanced individual and household access to adequate food

| Outcome indicators | No. of countries reporting | No. of countries reporting sufficient data | Country reporting rate | No. of measurements | No. of complete measurements | Reporting rate | 2021 performance rating | 2020 performance rating | No. of measurements showing improvement or stabilization compared with the baseline | No. of measurements achieving or exceeding the target |

| 8.2.3 Consumption-based coping strategy index (average) | 1 | 1 | 100% | 4 | 2 | 50% |  |  | 1 | 1 |

The above outcome analysis is done following the methodology stated in annex II-C. The following definitions apply:

- No. of countries reporting:** countries reporting against an indicator for one or several target groups/locations/activities/modalities.
- No. of countries reporting sufficient data:** only country offices that have reported sufficient data are included in the performance analysis. "Sufficient data" is defined as having at least 50 percent of relevant outcome indicator measurements complete. For instance, if Cameroon measured the "Food consumption score for its interventions – proportion of households with acceptable food consumption score" 30 times (because of different combinations) but only ten of them are complete data sets, then Cameroon is not included in the analysis of the food consumption score. Therefore, Cameroon is classified as a country that is reporting insufficient data.
- Country reporting rate** = point b)/point a).
- No. of measurements:** total number of measurements against an indicator (e.g. the food consumption score can be measured for one activity in three locations and for each location three target groups (total measurements: 9).
- No. of complete measurements:** if a measurement has all the three data points (annual follow-up, annual target and baseline), it is defined as: *complete*.
- Reporting rate:** point e)/point d).
- No. of measurements showing improvement or stabilization compared with the baseline:** number of measurements within the indicator, for which the annual follow-up improved compared with the baseline.
- No. of measurements achieving or exceeding the target:** number of measurements within the indicator, for which the annual follow-up reached or exceeded the annual target.

CROSS-CUTTING RESULTS

C.2: Affected populations are able to benefit from WFP programmes in a manner that ensures and promotes their safety, dignity and integrity

| Cross-cutting indicators | No. of countries reporting | No. of countries reporting sufficient data | Country reporting rate | No. of measurements | No. of complete measurements | Performance rating | No. of measurements showing improvement or stabilization compared with the baseline | No. of measurements achieving or exceeding the target |
|--|----------------------------|--|------------------------|---------------------|------------------------------|---|---|---|
| C.2.2 Proportion of targeted people receiving assistance without safety challenges (new) | 70 | 43 | 62% | 231 | 128 |  | 85 | 67 |
| C.2.3 Proportion of targeted people who report that WFP programmes are dignified (new) | 66 | 41 | 63% | 215 | 126 |  | 84 | 58 |
| C.2.4 Proportion of targeted people having unhindered access to WFP programmes (new) | 63 | 40 | 64% | 197 | 121 |  | 81 | 51 |

C.1: Affected populations are able to hold WFP and partners accountable for meeting their hunger needs in a manner that reflects their views and preferences

| Cross-cutting indicators | No. of countries reporting | No. of countries reporting sufficient data | Country reporting rate | No. of measurements | No. of complete measurements | Performance rating | No. of measurements showing improvement or stabilization compared with the baseline | No. of measurements achieving or exceeding the target |
|--|----------------------------|--|------------------------|---------------------|------------------------------|---|---|---|
| C.1.1 Proportion of assisted people informed about the programme (who is included, what people will receive, length of assistance) | 73 | 35 | 48% | 264 | 121 |  | 83 | 37 |
| C.1.2 Proportion of project activities for which beneficiary feedback is documented, analysed and integrated into programme improvements | 61 | 29 | 48% | 150 | 60 |  | 60 | 48 |

C.3: Improved gender equality and women's empowerment among WFP-assisted population

| Cross-cutting indicators | No. of countries reporting | No. of countries reporting sufficient data | Country reporting rate | No. of measurements | No. of complete measurements | Performance rating | No. of measurements showing improvement or stabilization compared with the baseline | No. of measurements achieving or exceeding the target |
|--|----------------------------|--|------------------------|---------------------|------------------------------|---|---|---|
| C.3.1 Proportion of households where women, men, or both women and men make decisions on the use of food/cash/vouchers, disaggregated by transfer modality | 74 | 44 | 60% | 689 | 386 |  | 203 | 158 |
| C.3.2 Proportion of food assistance decision-making entity – committees, boards, teams, etc. – members who are women | 58 | 29 | 50% | 119 | 45 |  | 31 | 18 |
| C.3.3 Type of transfer (food, cash, voucher, no compensation) received by participants in WFP activities, disaggregated by sex and type of activity | 35 | 19 | 54% | 72 | 37 |  | 35 | 34 |

C.4: Targeted communities benefit from WFP programmes in a manner that does not harm the environment

| Cross-cutting indicators | No. of countries reporting | No. of countries reporting sufficient data | Country reporting rate | No. of measurements | No. of complete measurements | Performance rating | No. of measurements showing improvement or stabilization compared with the baseline | No. of measurements achieving or exceeding the target |
