

ANNEX II-E: OUTCOME ANALYSIS BY PROGRAMME AREA

NUTRITION

Prevention of malnutrition

Outcome indicators	No. of countries reporting	No. of complete measurements	Reporting rate	2021 performance rating against target	2020 performance rating	Number of measurements showing improvement or stabilization compared with the baseline	Number of measurements achieving or exceeding the target
Minimum dietary diversity – women	16	17	85%			9	4
Proportion of children 6–23 months of age who receive a minimum acceptable diet	17	17	85%			10	6
Proportion of eligible population that participates in programme (coverage)	32	45	94%			31	22
Proportion of target population that participates in an adequate number of distributions (adherence)	32	52	90%			40	32

Treatment of malnutrition

Outcome indicators	No. of countries reporting	No. of complete measurements	Reporting rate	2021 performance rating against target	2020 performance rating	Number of measurements showing improvement or stabilization compared with the baseline	Number of measurements achieving or exceeding the target
ART default rate	4	6	100%			3	3
ART nutritional recovery rate	4	6	100%			4	4
MAM treatment default rate	35	73	95%			52	52
MAM treatment mortality rate	35	72	95%			50	50

Treatment of malnutrition

Outcome indicators	No. of countries reporting	No. of complete measurements	Reporting rate	2021 performance rating against target	2020 performance rating	Number of measurements showing improvement or stabilization compared with the baseline	Number of measurements achieving or exceeding the target
MAM treatment non-response rate	35	72	95%			46	42
MAM treatment recovery rate	35	72	95%			50	46
Proportion of eligible population that participates in programme (coverage)	23	46	96%			38	23
TB nutritional recovery rate	4	6	100%			3	3
TB treatment default rate	4	6	100%			2	2

Nutrition-sensitive interventions

Outcome indicators	No. of countries reporting	No. of complete measurements	Reporting rate	2021 performance rating against target	2020 performance rating	Number of measurements showing improvement or stabilization compared with the baseline	Number of measurements achieving or exceeding the target
Food consumption score – nutrition	41	267	88%			176	135
Minimum dietary diversity – women	33	66	81%			38	21
Percentage increase in production of high-quality and nutrition-dense foods	5	3	60%			3	2
Percentage of targeted smallholder farmers reporting increased production of nutritious crops, disaggregated by sex of smallholder farmer	11	12	92%			11	5
Proportion of children 6–23 months of age who receive a minimum acceptable diet	29	47	85%			35	17

SCHOOL-BASED PROGRAMMES

Outcome indicators	No. of countries reporting	No. of complete measurements	Reporting rate	2021 performance rating against target	2020 performance rating	Number of measurements showing improvement or stabilization compared with the baseline	Number of measurements achieving or exceeding the target
Attendance rate (new)	30	31	82%			19	15
Enrolment rate	36	41	91%			25	17
Graduation rate (new)	3	3	100%			2	1
Percentage of students who, by the end of two grades of primary schooling, demonstrate ability to read and understand grade level text (new)	2	2	100%			1	0
Retention rate/drop-out rate (new)	33	38	86%			22	15
SABER school feeding national capacity (new)	11	3	23%			3	3

SMALLHOLDER, LIVELIHOOD, FOOD SYSTEMS AND CLIMATE RISK MANAGEMENT

Outcome indicators	No. of countries reporting	No. of complete measurements	Reporting rate	2021 performance rating against target	2020 performance rating	Number of measurements showing improvement or stabilization compared with the baseline	Number of measurements achieving or exceeding the target
Default rate (as a percentage) of WFP pro-smallholder farmer procurement contracts	4	4	100%			4	4
Proportion of the population in targeted communities reporting environmental benefits	13	14	82%			14	13

SMALLHOLDER, LIVELIHOOD, FOOD SYSTEMS AND CLIMATE RISK MANAGEMENT

Outcome indicators	No. of countries reporting	No. of complete measurements	Reporting rate	2021 performance rating against target	2020 performance rating	Number of measurements showing improvement or stabilization compared with the baseline	Number of measurements achieving or exceeding the target
Proportion of the population in targeted communities reporting benefits from an enhanced livelihood asset base	43	49	89%			45	34
Rate of smallholder post-harvest losses	12	12	86%			10	8
Value and volume of smallholder sales through WFP-supported aggregation systems – volume (mt)	30	35	92%			26	15
Consumption-based coping strategy index (average)	35	46	87%			27	23
Food consumption score	47	67	88%			41	29
Percentage of WFP food procured from smallholder farmer aggregation systems	12	13	100%			10	5
Proportion of targeted communities where there is evidence of improved capacity to manage climate shocks and risks	12	10	77%			9	3
Value and volume of smallholder sales through WFP-supported aggregation systems – value (USD)	30	35	92%			25	14
Percentage of targeted smallholders selling through WFP-supported farmer aggregation systems	21	20	95%			14	7
Livelihood-based coping strategy index (percentage of households using coping strategies)	27	39	87%			19	12

UNCONDITIONAL RESOURCE TRANSFERS

Outcome indicators	No. of countries reporting	No. of complete measurements	Reporting rate	2021 performance rating against target	2020 performance rating	Number of measurements showing improvement or stabilization compared with the baseline	Number of measurements achieving or exceeding the target
Consumption-based coping strategy index (average)	53	130	92%			82	53
Economic capacity to meet essential needs (new)	14	26	68%			17	15
Food consumption score	65	166	94%			108	80
Livelihood-based coping strategy index (percentage of households using coping strategies)	25	74	93%			39	30

The above outcome analysis is done following the methodology stated in annex II-C. The following definitions apply:

- No. of countries reporting:** countries reporting against an indicator for one or several targeted groups/locations/activities/modalities.
- No. of complete measurements:** if a measurement has all the three data points (annual follow-up, annual target and baseline), it is defined as: *complete*.
- Reporting rate:** Proportion of complete measurements over the total number of measurements recorded for an indicator.
- No. of measurements showing improvement or stabilization compared with the baseline:** number of measurements within the indicator, for which the annual follow-up improved compared with the baseline.
- No. of measurements achieving or exceeding the target:** number of measurements within the indicator, for which the annual follow-up reached or exceeded the annual target.
