Risk Management at WFP

Our mission is to enable risk management leadership throughout WFP supported by integrated tools, guidance, insightful analysis and continuous learning.

- We aim to establish a **systematic and disciplined approach to identifying and managing risks** throughout WFP, including fraud risks.
- **Key risk management areas** across WFP include risk analysis, reporting and triangulation of oversight findings, management assurance on internal controls, coordination of donor reviews, organizational resilience/business continuity management and an integrated corporate digital solution for governance, risk and compliance (Risk and Recommendation Tracking tool - R2).
- **Global network of Regional Bureau- and field-based Risk Officers, Risk Focal Points, and Anti-Fraud and Anti-Corruption Officers** help bring the risk management process to life – **closest to our operations and the people we serve.**

*** Supporting Front Office 25%

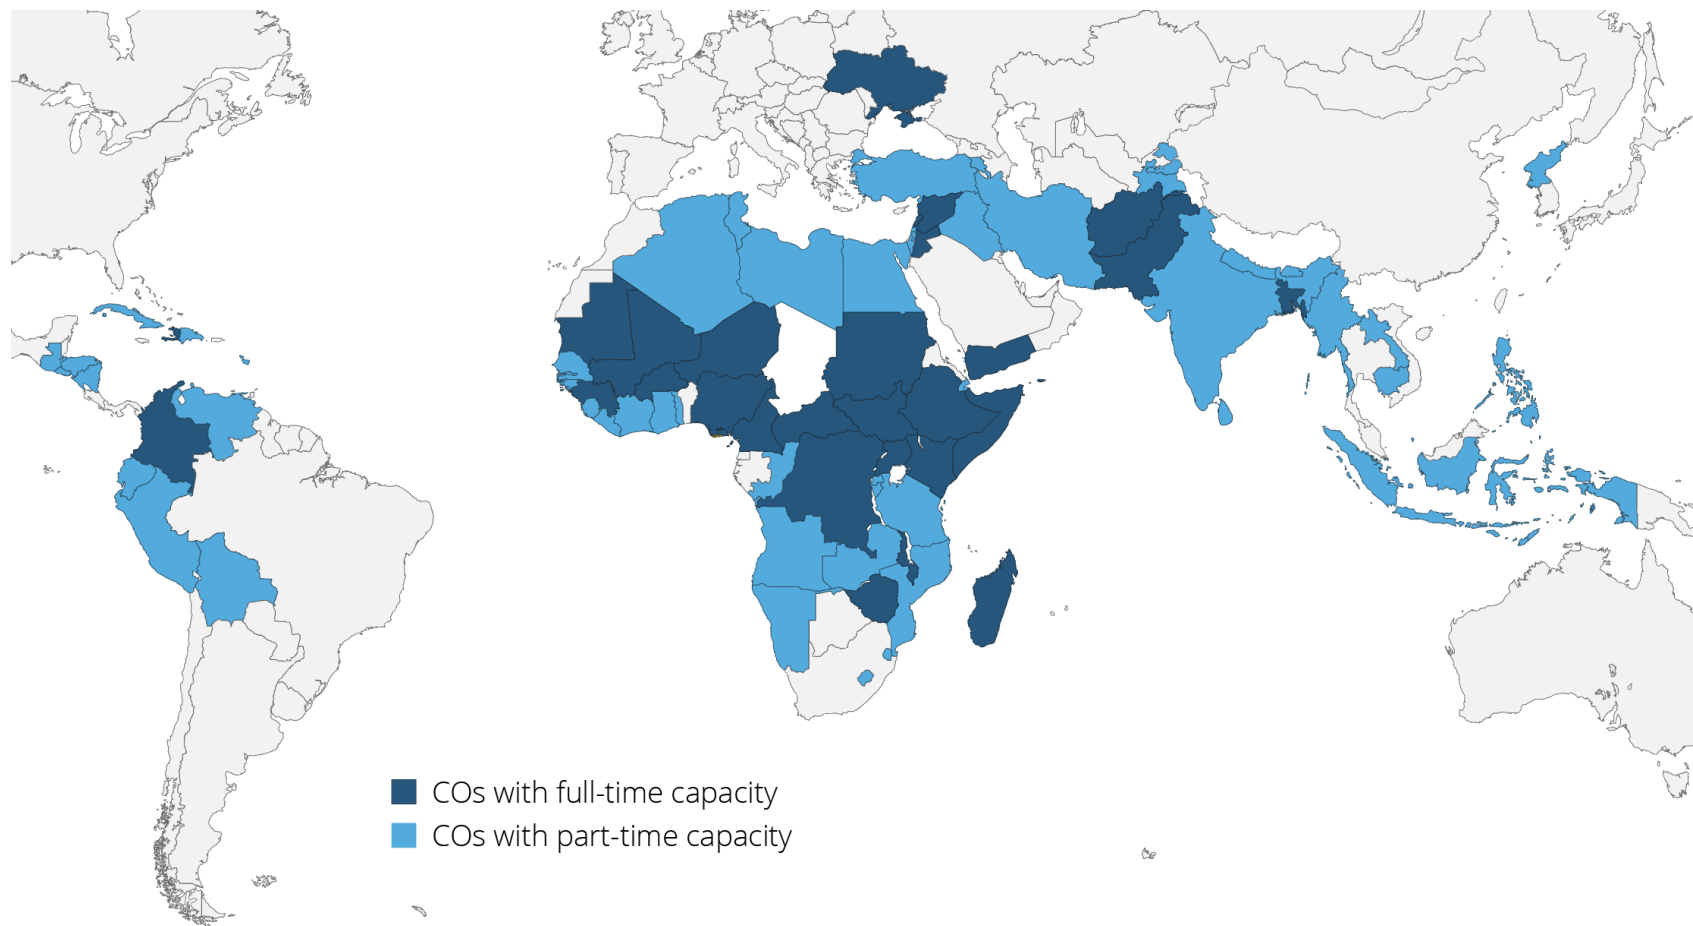

Risk Management Expanding Global Network and Engagement

Risk Network:

- **32 Country Offices and 6 Regional Bureaux** with full-time risk capacity
- **50 Country Offices** with part-time capacity

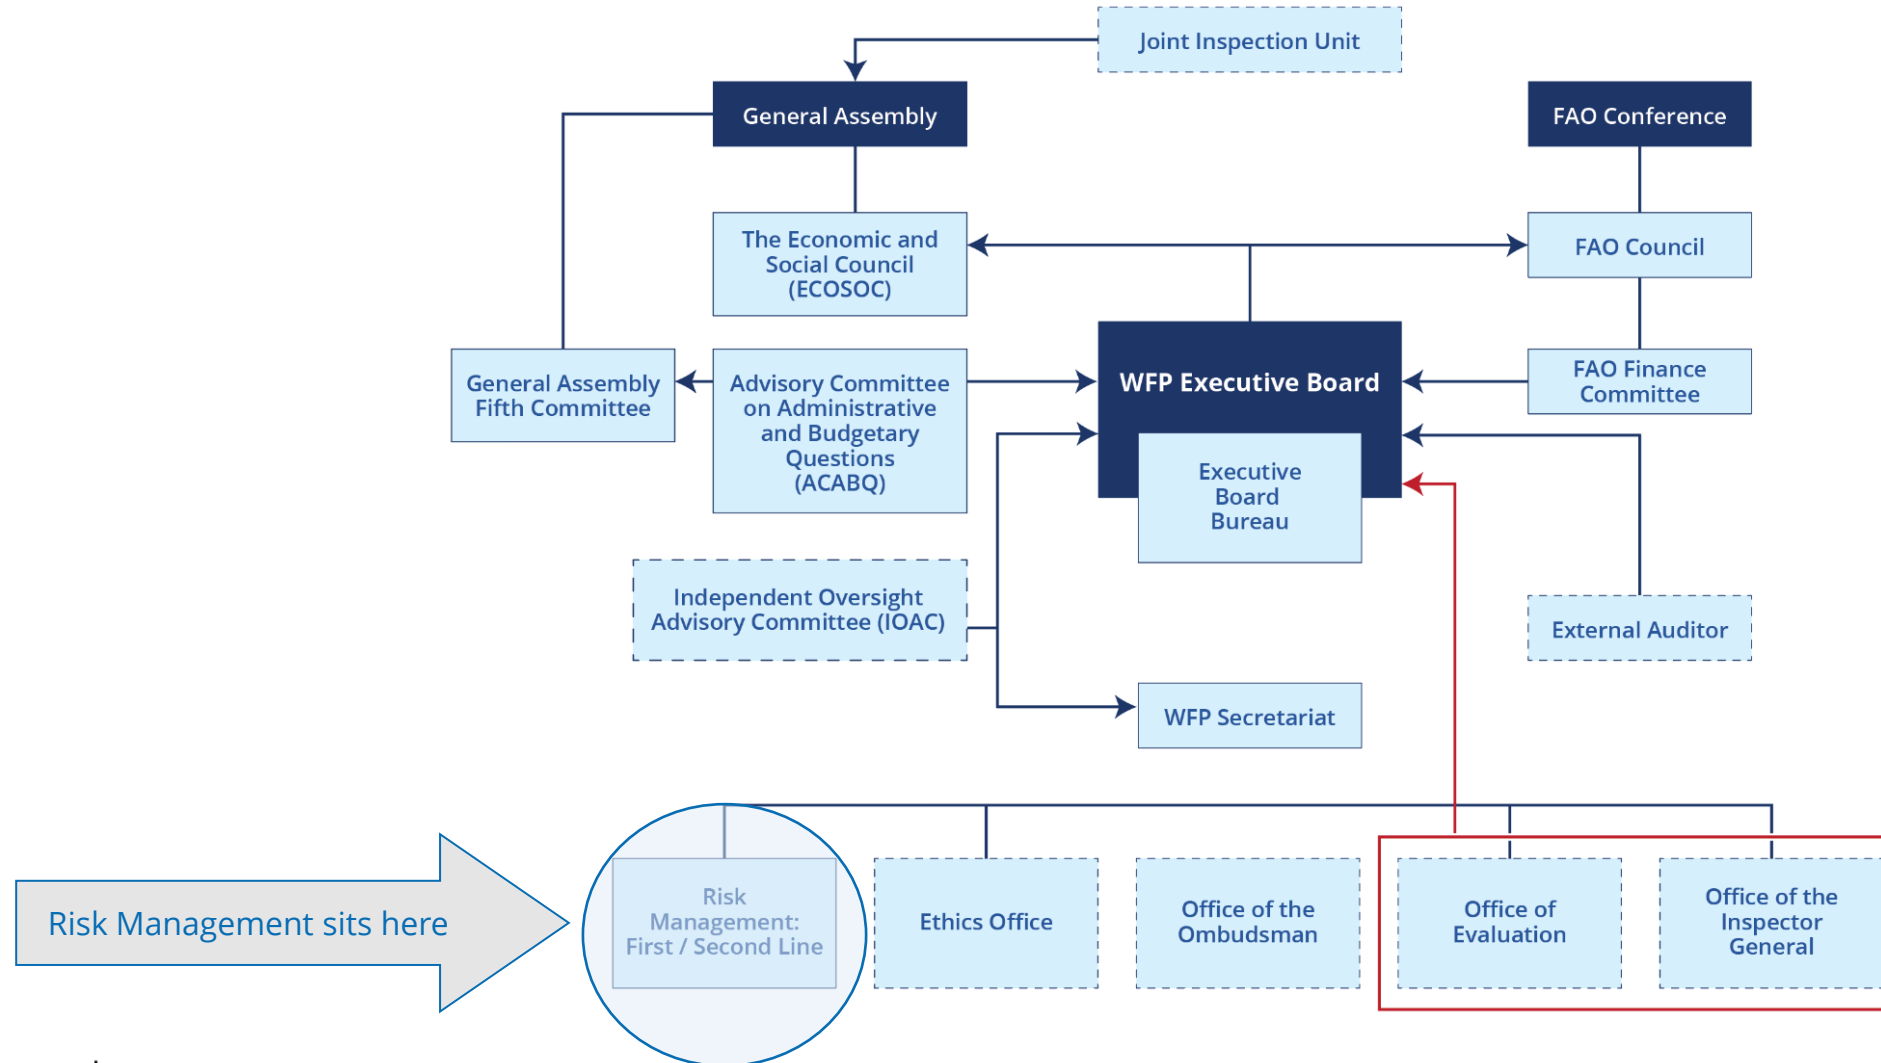

Mobile Risk Officers:

- Since March 2022, RMD coordinated **30+ temporary duty deployments**, in line with 2022 risk management maturity review and External Auditor recommendations
- **Continuous and ongoing regional support**

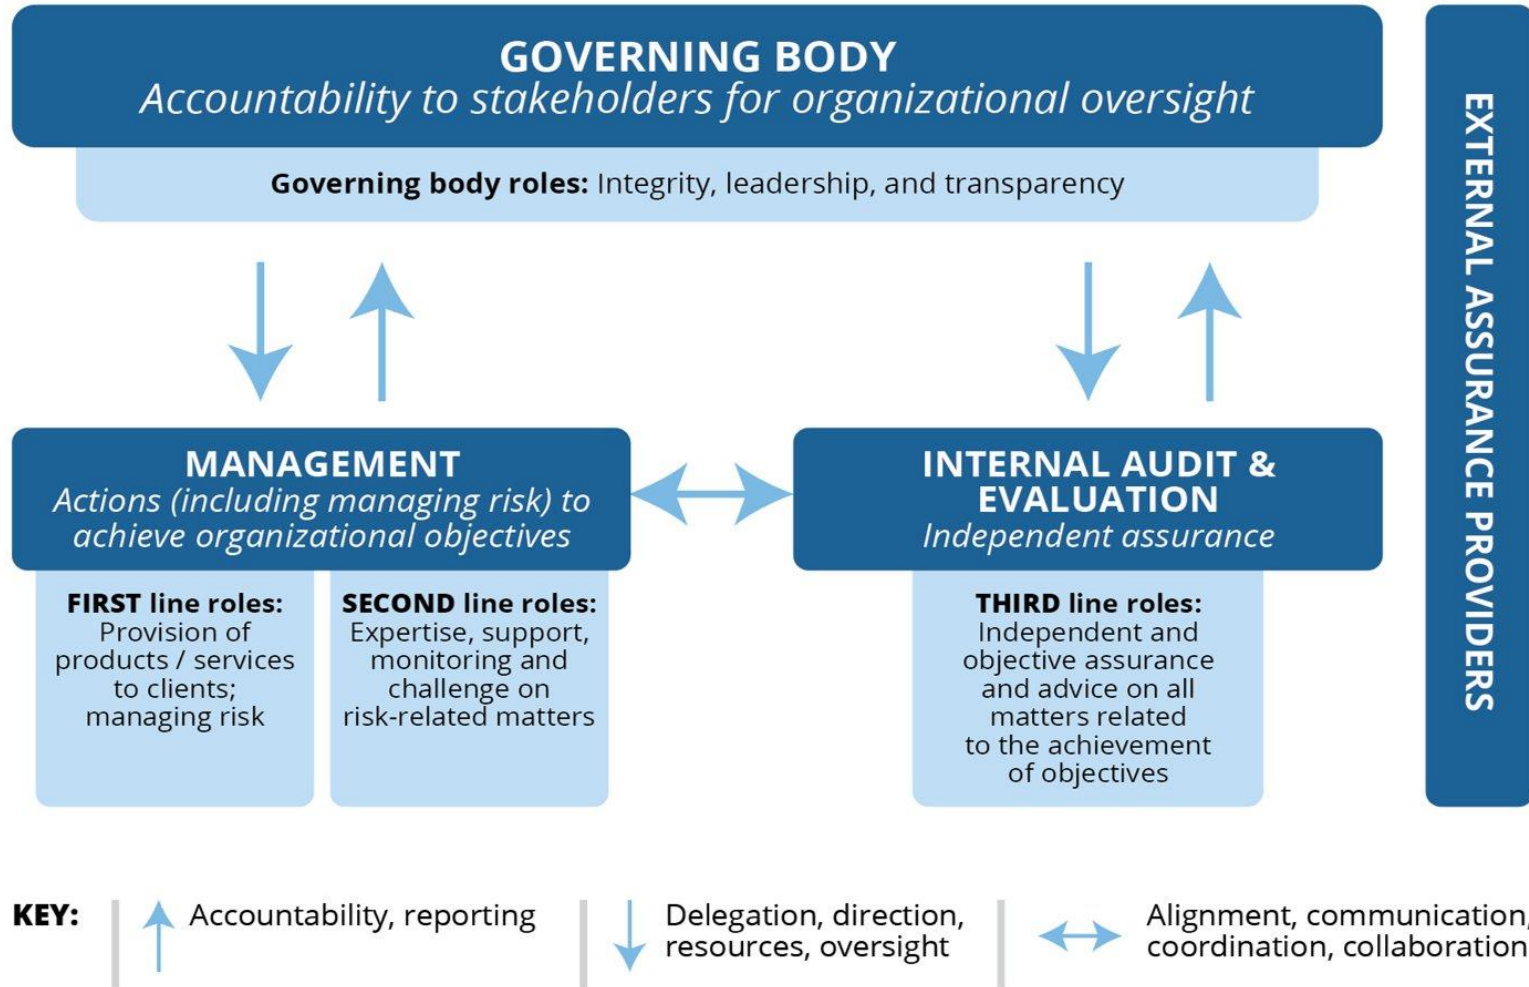

WFP's Overall Governance and Oversight Architecture:

Where risk management sits

Three Lines Model

Overview of Risk Management at WFP and EB Oversight Role

Board documents institutionally led by RMD:

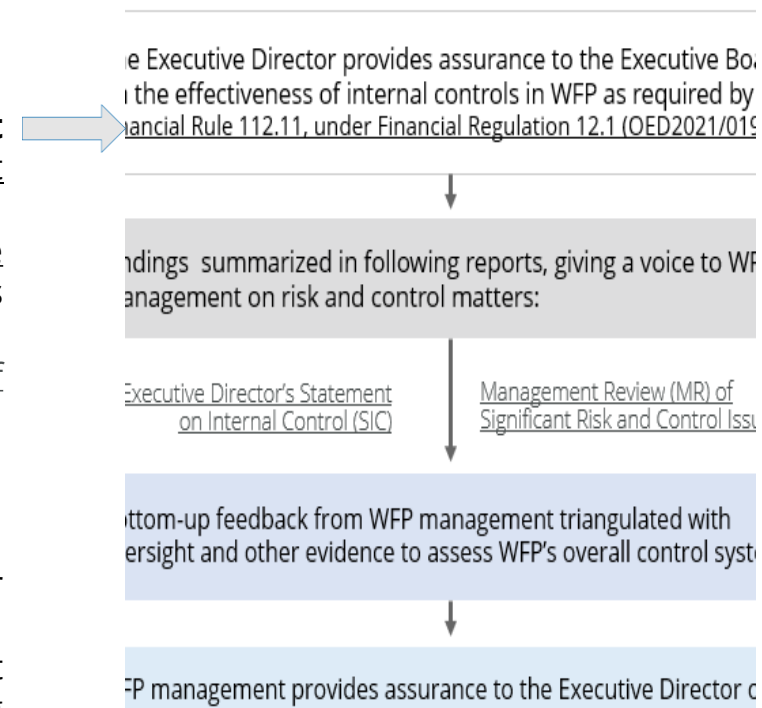

- Internal Control Framework (OED 2015/016)¹; and
- Board-approved 2018 Enterprise Risk Management Policy², 2018 Oversight Framework³, and 2021 Revised Anti-Fraud and Anti-Corruption Policy⁴.

Processes requiring annual updates to the Executive Board:

- Annual Executive Director Assurance Exercise which forms the **Executive Director's Statement on Internal Control** (published in the Audited Annual Accounts) and related Management Review of Significant Risk and Control Issues (Annual Session);
- Coordination and follow-up related to a) reviews conducted by the Joint Inspection Unit of the United Nations System (JIU) (First Regular Session) and b) corporate performance audits conducted by the External Auditor (Annual Session); and
- Management response to the Annual Evaluation Report and Implementation Status of Evaluation Recommendations Report (Annual Session).

Processes requiring regular updates to the internal Risk Committee (new), WFP Independent Oversight Advisory Committee (IOAC) and Executive Director:

- Corporate Risk Register (updated twice annually and presented to Risk Committee) for endorsement and IOAC thereafter⁵; and
- Implementation status of Evaluation, JIU, External Auditor and Internal Audit oversight recommendations (quarterly updates to IOAC, updates to the Executive Director for relaying progress during pre-Board List meetings).

¹ Framework established in September 2011 and updated via Executive Director Circular in 2015 upon United Nations adoption of Three Lines in 2014.

² First policy approved by the EB in 2005 and the second in 2015. NEW POLICY expected 2025 onward, after evaluation is conducted.

³ First policy approved by the EB in 2011 and previously owned by the Inspector General. NEW FRAMEWORK expected 2025 onward, taking into account the 2023 JIU Accountability Frameworks Review and the EB Governance Review findings.

⁴ First policy approved by the EB in 2010 and the second in 2015, both previously owned by the Inspector General.

⁵ Established in September 2011 to mainstream risk management, it considers risks that occur globally, focuses executive management attention to ensure accountability for addressing these risks, and facilitates priority decision-making around these risks.

Induction Background: External assurance and internal oversight

Governance and functional structure and reporting

External Audit (EA)

EB reporting:

- RMD designated institutional focal point for corporate performance and field audits, monitoring / tracking recommendations
- RMD prepares annual EA recommendations implementation status report [embedded annex in Audited Annual Accounts (from EB.A/2024)]
- Where applicable, findings/synergies summarized in RMD's *Management Review of Significant Risk and Control Issues* (EB.A)
- From EB.2/2024: Separate summary field report on EA Management Letters

Management reporting:

- Risk Committee/IOAC/ED Briefs
- EA recommendations monitoring, validation & closure

Joint Inspection Unit (JIU)*

EB reporting:

- RMD designated institutional focal point for JIU reviews and UN System Chief Executives Board (CEB) coordination
- RMD prepares JIU annual report for EB.1
- Regular email updates via EBS on JIU reports issued throughout year (effective Jun 2023)
- Where applicable, findings/synergies summarized in RMD's *Management Review of Significant Risk and Control Issues* (EB.A)

Management reporting:

- Occasional surveys to field (e.g., racism, discrimination, insurance, PSEA)
- External Oversight dashboard (to be made available to EB on restricted site – *in progress*)
- Risk Committee/IOAC/ED Briefs

Established by General Assembly Resolution 31/192 (22 December 1976), the JIU is the **only independent external oversight body of the United Nations system mandated to conduct **evaluations, inspections, and investigations** system-wide*

Office of Internal Audit (OIGA), Office of Inspector General (OIG)

EB reporting:

- OIGA issues recommendations (a.k.a. as “agreed actions”) from internal audit, inspection and proactive integrity review (PIR) reports. With the exception of PIRs, which are unrated, recommendations are classified in terms of “Medium” or “High” priority. Summarized in Annual Report of the Inspector General (EB.A).
- Internal audit reports and accompanying management comments posted on WFP's public website since 2013, in accordance with the Revised policy for disclosure of oversight reports issued by the Office of the Inspector General (4th iteration since 2010) which allows Permanent Representations accredited to WFP to request various OIG reports
- Where applicable, findings/synergies summarized in RMD's *Management Review of Significant Risk and Control Issues* (EB.A)

Management reporting:

- RMD reports on Corporate Results Framework Key Performance Indicator (KPI) in Annual Performance Report (EB.A)
- Risk Committee/IOAC/ED Briefs

Office of Evaluation (OEV)

EB reporting:

- OEV issues impartial, systematic assessments of WFP activities, operations, strategies and policies via: i) Centralized evaluations commissioned and managed by OEV and presented to EB for consideration; ii) Decentralized evaluations commissioned and managed by management; and iii) Impact evaluations managed by OEV at the request of country offices.
- Management responses to centralized evaluations are presented to EB at each session, preceded by roundtable
- Management responses to the Annual Evaluation Report and Implementation Status of Evaluation Recommendations Report presented at EB.A (at EB.A/2024, a qualitative analysis was included by management for 1st time in latter)
- Where applicable, findings/synergies summarized in RMD's *Management Review of Significant Risk and Control Issues* (EB.A)

Management reporting:

- RMD report Corporate Results Framework Key Performance Indicator (KPI) in Annual Performance Report (EB.A)
- Risk Committee/IOAC/ED Briefs/Informal sessions and roundtables

Risk Management Division Learning Channel

Learning Essentials

Introduction to risk management –

- provides structured approach to integrating risk management in WFP work plans and activities through risk identification, risk assessment, risk response & mitigation and risk monitoring.

Three Lines –

- provides an introduction to WFP risk management model and internal controls outlined in 2018 WFP Oversight Framework
- most popular non-mandatory course in 2020

Internal Control in Action –

- accompanied by complementary field guide
- provides practical advice on how to implement better and smarter controls using WFP specific real-life examples
- most popular non-mandatory course in 2022 and to date

For Risk Professionals

Minimum Control Standards for Managing Third Party Risks in Emergencies –

- launched during COVID-19 pandemic
- designed to support colleagues in reducing likelihood of fraud and wrongdoing during emergencies
- focused on work with third parties (NGOs, vendors, Financial Service Providers)

Risk Management for Decision-Makers –

- builds on Intro to Risk Management course
- targets more senior staff, however, other levels have taken

Risk Management Learning path

4-course certification –

- **Three Lines** – launched Sep 2019, 7,928 learners to date
- **Introduction to Risk Management** – launched Nov 2021, 3,224 learners to date
- **Internal Control in Action** – launched May 2022, 4,753 learners to date
- **Risk Management for Senior Decision-Makers** – launched Jun 2022, 2,021 learners to date

Framework for Management Oversight at WFP

Practical tips for Management Oversight

1. Conduct continuous oversight with performance lenses
2. Plan at least two months ahead
3. Ensure adequate senior technical expertise
4. Collaborate with concerned units
5. Document findings & define action plan
6. Escalate & follow-up high priority recommendations
7. Constructively challenge the first line
8. Provide support to address issues

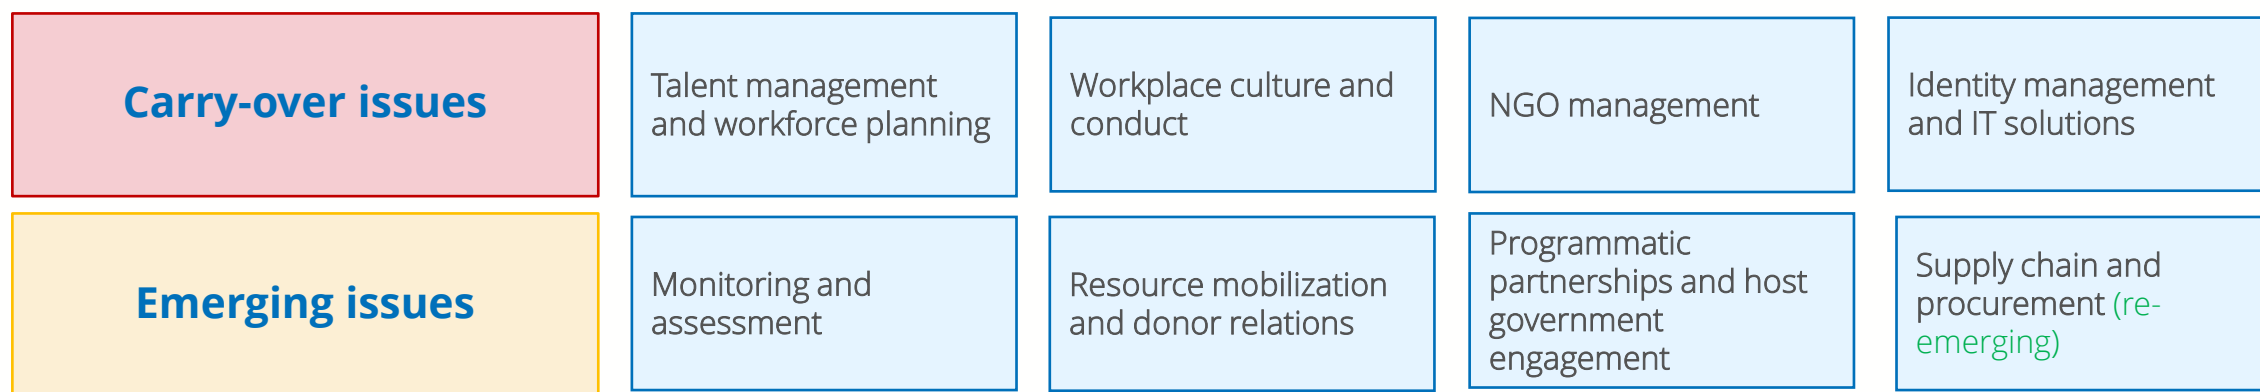

Management Review of Significant Risk and Control Issues, 2023

The Executive Director's Assurance Exercise concluded in January 2024 with **94% submission rate** by the deadline.

Enhancements to the 2023 Executive Director's Assurance Exercise included:

- Incorporating **WFP's Reassurance Action Plan** elements by sharpening questions across all control areas and adding a new section on targeting;
- **Streamlining while addressing gaps** by reducing duplicative questions and adding new topics such as supply chain; and
- **Extensive sharing of findings**, tailored analyses and results webinar.

Risk and control challenges prioritized in the Management Review for further attention:

2023 Management Review: Quinquennium analysis

Marking the 5-year anniversary of the revised Executive Assurance Exercise process, the document includes quinquennium analysis covering 2019 to 2023.

Between 2019 and 2023, among the current **top six risk areas**, **NGO management** (-11 percent), and **monitoring** (-9 percent) experienced the **most notable drop**.

Of the **four other risk areas**, the **most significant improvements** were noted in **staff capacity** (+18 percent), **cash-based transfers** (+11 percent) and **identity management** (+7 percent), while **reporting wrongdoing** remained steady.

2021 Revised AFAC Policy – Fraud Management Cycle

1. Identify and assess fraud risks

- Be aware of potential fraud in your functional area
- Assess the risks and prioritise those which require WFP to focus its resources for prevention and mitigation

2. Prevent, deter, and detect fraud

- Live the WFP values
- Follow the WFP rules and regulations
- Maintain a strong system of controls
- Complete the mandatory training on WeLearn

3. Respond to fraud incidents

- If you see something, say something!
Report to OIG: InvestigationsLine@wfp.org
- You are also strongly encouraged to report to your Office or Division Director
- Address control gaps found to have control

Fraud Awareness Week is here!

An opportune time to remember our stake in the fight against fraud, equip ourselves with the necessary knowledge and tools, and gain a fresh impetus to protect WFP.

1. **Identify and assess fraud risks**

- Be aware of potential fraud in your functional area
- Assess the risks and prioritise those which require WFP to focus its resources for prevention and mitigation

2. **Prevent, deter, and detect fraud**

- Live the WFP values
- Follow the WFP rules and regulations
- Maintain a strong system of controls
- Complete the mandatory training on WeLearn

3. **Respond to fraud incidents**

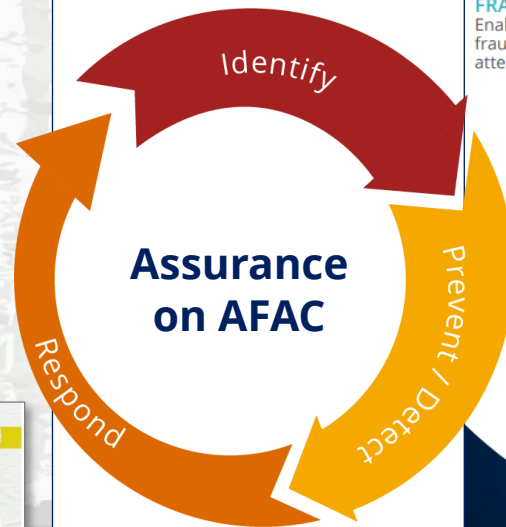

- If you see something, say something!
Report to OIG: InvestigationsLine@wfp.org
- You are also strongly encouraged to report to your Office or Division Director
- Address control gaps found to have control

Remember: Fraudsters work around the clock to find new ways to steal from our beneficiaries – so don't let them succeed.

Keep in mind the key action: **"Identify-Prevent-Respond"** as we continuously assess every effort to safeguard our beneficiaries' progress.

David Binnsley, WFP Regional Director

RMD | Risk Management

IDENTIFY

CONDUCT AN ANNUAL FRAUD RISK ASSESSMENT: Enables you to identify the top fraud risks and focuses your attention in mitigating them.

PREVENT, DETECT AND DETER

SET THE TONE: The best defence against fraud is to live the WFP values and promote a culture of integrity, honesty and accountability.

ENFORCE INTERNAL CONTROLS: Promote adherence to the existing system of internal controls for preventing and detecting fraud. Carefully consider the impacts of temporarily waiving a control and document the rationale for doing so.

RAISE AFAC AWARENESS: Empower staff with knowledge on fraud management – ensure your staff are up to date with the AFAC/PSEA mandatory WeLearn course.

EMBED AFAC IN CONTRACTUAL ARRANGEMENTS: Ensure contractual arrangements with cooperating partners, vendors and other third parties include appropriate provisions for countering and recovering losses due to fraud.

RESPOND

PROMPTLY REPORT:

- **OIG:** Encourage your staff to promptly report any reasonably suspected case of fraud.
INVESTIGATIONSLINE@wfp.org
- **MANAGEMENT:** Escalate any material case of fraud to your Regional Director, the Director of Enterprise Risk Management Division and the Inspector General.
- **DONOR:** Comply with fraud reporting requirements in applicable donor agreements.
- Ensure that a feedback mechanism is in place for beneficiary and external reporting.

COUNTRY DIRECTOR AFAC CHECKLIST: BEST PRACTICES EVERY LEADER SHOULD ACT ON TO PREVENT FRAUD

We take huge pride in our work. But we also know that WFP's fantastic work can be undermined by the dishonesty of a small number of people. The good news? There are some basic steps Country Directors can take to identify fraud risks, prevent them from happening, and respond to them if they happen.

Lead the way to manage the risk of fraud in your office by acting on the following:

JIU - Joint Inspection Unit

Independent external oversight body of the United Nations system mandated to conduct evaluations, inspections and investigations system-wide.

Web - <http://www.unjiu.org>

Email - jiu@unog.ch

United Nations General Assembly resolution 62/246 requested the JIU to study the feasibility of using a web-based system to monitor the status of recommendations and receive updates from organizations. With the support of participating organizations, the WBTS was designed, developed, and implemented between 2010 and 2012.

The screenshot shows the JIU Follow-up System web application. The browser address bar displays the URL: <https://jiufus.un.org/UNFollowupSystem/spring/todo?execution=e11s1>. The page header includes the logo of the Joint Inspection Unit of the United Nations System and a 'Logout' link.

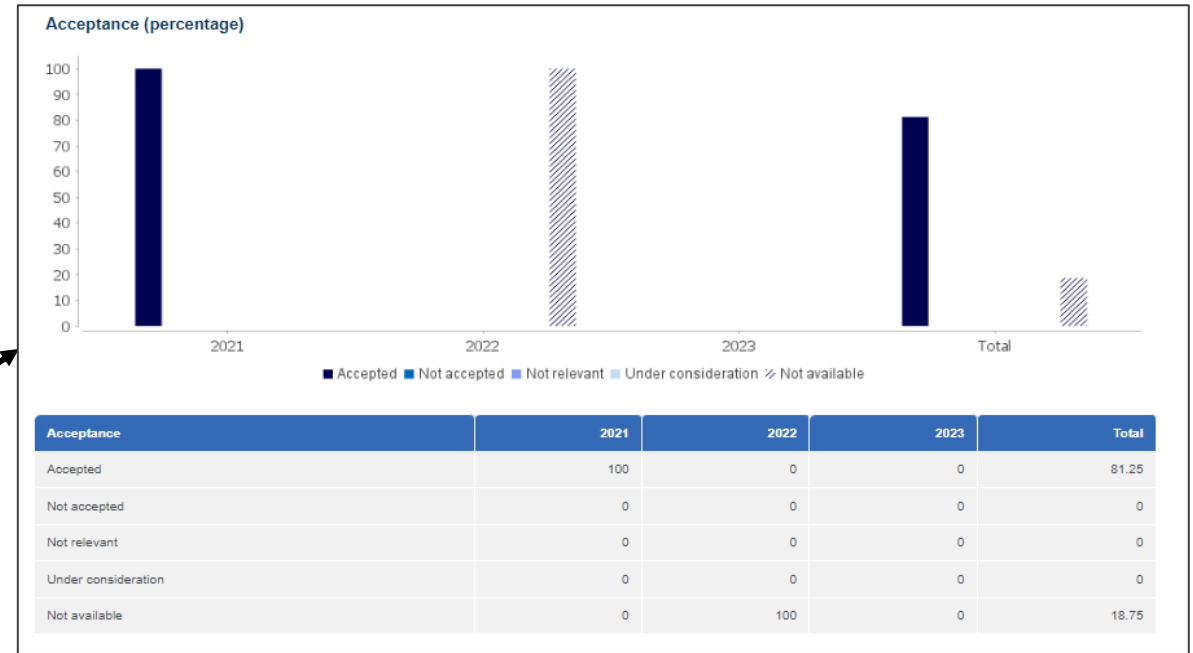

The main navigation bar contains the following items: To Do, Documents, Considerations, **Statistics** (selected), and Administration. A dropdown menu is open under 'Statistics', listing the following report categories:

- Acceptance and implementation by documents
- Acceptance and implementation by intended impact
- Acceptance and implementation by Executive Heads and Governing Bodies
- Acceptance and implementation by Participating Organizations
- Graphics of acceptance and implementation
- Trends of acceptance and implementation
- Intended impact of recommendations

Below the navigation bar, there is a 'To Do' section with a legend for 'Work' (yellow) and 'Pending Response' (red). A filter for 'Year from' is visible. A table with the following columns is shown:

Document	Short Title
+ JIU/NOTE/2022/1	Review of measures and mechanisms for address
+ JIU/REP/2021/5	Ethics function
