Context

At a time when we are facing record needs, reduced funding and a complex operating environment, WFP's next Strategic Plan provides an opportunity to ensure WFP is optimally positioned to deliver on its vision for a world without hunger. The Strategic Plan will be presented for approval during the November 2025 Executive Board session. An updated Corporate Results Framework (CRF) will be presented for approval alongside the next Strategic Plan.

Objectives

The EB list meetings provide a space to discuss the revised draft outline of the Strategic Plan and CRF. They aim at facilitating alignment and buy-in to the Strategic Plan structure and result framework and offer inputs which will allow to proceed with the drafting of the narrative of the full document and the development of the CRF.

The draft Strategic Plan outline includes the structure of the document and proposed Strategic Outcomes, cross-cutting priorities, and enablers. It builds on key findings and emerging implications from the evidence base and extensive internal and external consultations completed to date. The draft outline presented for discussion has been further refined on the basis of comments received during the first informal consultation with the Executive Board held on the 28th of March 2025.

Approach

The EB list meetings will be chaired by each List Convenor. WFP management will be represented by Carl Skau, Deputy Executive Director. WFP speakers will include Jean Martin Bauer, Director Food Security and Nutrition Analysis; Marco Cavalcante, Director Strategic Coordination; and Rebecca Lamade, Chief Programme Monitoring & Reporting.
