CHANGING
LIVES

Country Context

Food security & Nutrition: Around **3.4 million Ivorians are food insecure**. Over 20% of children under five suffer from chronic malnutrition and about 70% suffer from anemia.

Agriculture: Shift from food crops to cash crops: reduced local food availability, degraded soils and increased vulnerability to climate change. Sector dominated by smallholder farmers with limited access to markets, finance, and technology.

Regional disparities: Approx. **38% of the population** lives below the poverty line (55 % in rural and northern regions), due to informal sector domination and limited social protection.

Education: Despite significant progress in expanding access to education, **2.3 million children** remain out of school.

External shocks: Sahel spillover with more than **70,000 asylum seekers** from Burkina Faso.

CSP (2026-2030) Elaboration Process

Situation Analysis and Needs Assessment

Review of national priorities, Strategy evaluation, Socio-economic data analysis and needs identification

Regional Consultations

Presentation of evaluation results and review of the theory of change with local actors, Engagement with communities

Alignment with Corporate Policies and Guidance

Technical and strategic validations, Refocus of the outcomes (3 to 2) and better integration across activities

Theory of Change & Results Framework

Review of WFP comparative advantage, Gap analysis, Definition of high-level outcomes and outputs, Calibration exercise

National Consultation and Formulation Workshop

Presentation of the evaluation results and strategy priorities, Confirmation of alignment with national priorities and UNSDCF, Validation by government, UN agencies, NGOs, civil society and donors

Executive Board Informal consultation

Executive Board

CSP (2026-2030) Overview

	Crisis response	Resilience				
CSP Strategic Outcomes	OUTCOME 1: Food insecure and shock-affected populations in Cote d'Ivoire can meet their essential food and nutrition needs during and in the aftermath of shocks by 2030	OUTCOME 2: By 2030, the government has strengthened capacity to deliver a sustainable school feeding programme through the promotion of a resilient food system - including improved livelihoods, better natural resource management, and the development of local value chains				
Target	Beneficiaries: 170,000 Budget: \$27 M	Beneficiaries: 544,000 Budget: \$ 63 M				
Activities	Act.1 : Emergency preparedness and response	Act.2 : Home-grown school feeding	Act. 3: Community resilience and asset creation	Act. 4: Smallholder farmers and value chains		
Goal	National and local capacity strengthening and progressive handover					
Enablers	 People	 Partnerships	 Funding	 Evidence	 Innovation	 Advocacy
People at the center
