Management Response

CSPE

November 2025

Significant Shifts in the Operational Context Since CSP Evaluation

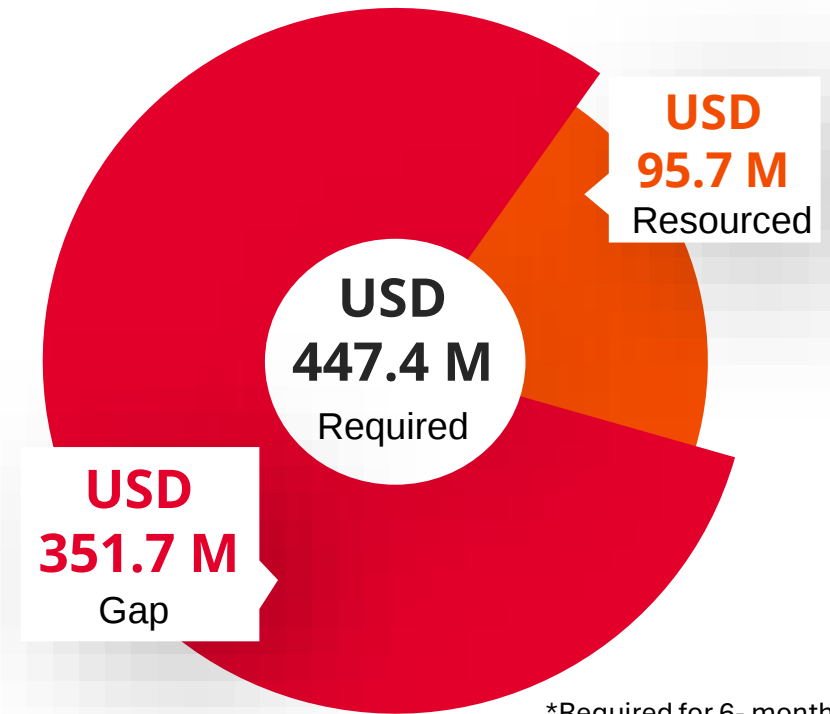

Heightened Crisis

- De facto authorities control large areas in North and South Kivu
- Increased insecurity affecting population movements
- Forced returns and dismantling of IDP sites leading to secondary displacement and premature returns to unsafe areas

Increase Food Insecurity

- Food insecurity at unprecedented levels across the country
- Over 10 million people projected to face crisis/emergency levels in 2026
- 3 million affected in Eastern provinces, where WFP concentrates its operations.

Funding Disruption

Evaluation & Learning: Use of CSPE evidence in CSP design

Management Response to the CSP evaluation of DRC Country Office

Rec 1. Prioritisation & Transfer Modality

Agreed

Key actions

- ✓ Refined emergency prioritisation strategy
- ✓ Continued assessment of transfer modalities
- ✓ Piloted e-voucher assistance, reaching 30,000+ individuals.

CSP Activities 1, 2 & 3

Rec 2. Transition to Resilience Programming

Agreed
