Ethiopia2016 Second Quarterly Operational Briefing

Presentation to the WFP Executive Board

WFP Rome Auditorium | 26 April 2016

18 MILLION

IN NEED OF FOOD ASSISTANCE

(out of a total population of 97 million)

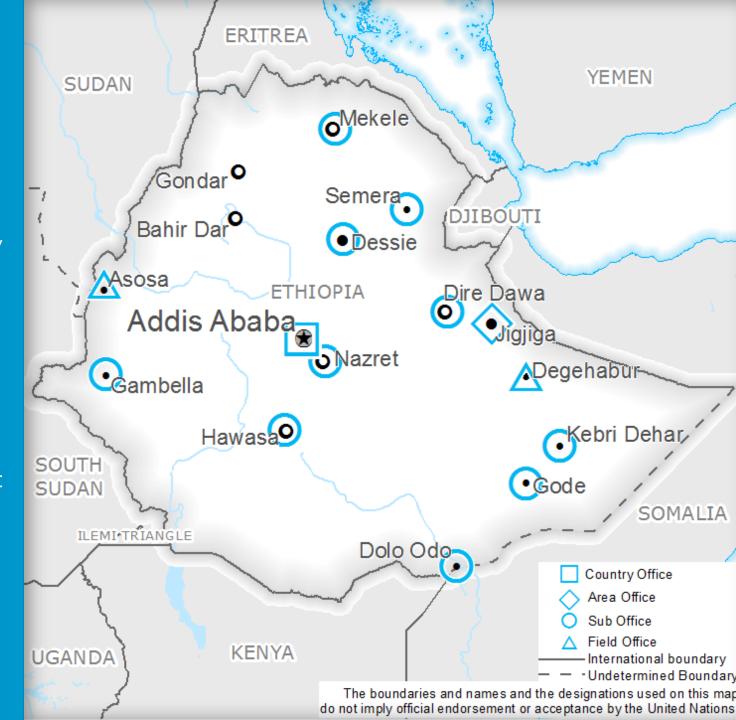

10.2 MILLION targeted through the emergency relief programme based on the 2016 Humanitarian Requirements Document (HRD)

7.9 million targeted under the Productive Safety Net Programme (PSNP)

7.6 MILLION targeted in the joint Government-WFP response, the remaining caseload covered by the Joint Emergency Operation Program (JEOP) NGO consortium

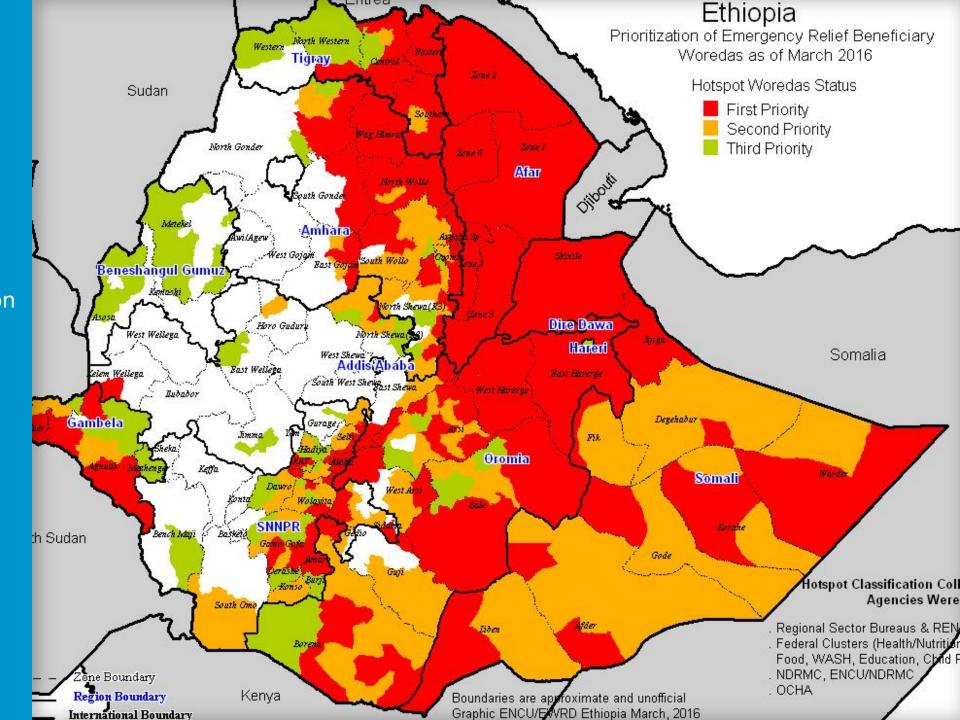

2.5 MILLION in need of treatment for moderate acute malnutrition (MAM), more than double the 2015 figure.

NEEDS CONTINUE TO GROW

Recent woreda
(district) Hotspot
Priority classification
revision increased
the number of
Priority 1 districts
from **186** to **219**

The bottom quintile of the affected population can meet only 15% of food needs from their own means

- Limiting meal size and reducing consumption is the most common coping mechanisms.
- The relief ration is therefore critical for the affected population
- The Belg season performance is very mixed and likely to fall below expectations.
- Belg assessment planned for May/June.

2016 RELIEF PROGRAMME

The scale up from **2.9 million relief** beneficiaries in 2015 to 10.2 million in 2016 has been impressive despite many operational challenges, and is underpinned by unprecedented levels of Government resourcing and support.

However, the current HRD estimate of 10.2 million people underestimates the needs, as 4.5 million Meher-dependent PSNP beneficiaries will likely also need assistance from July onwards.

Protracted Relief and Recovery Operation (PRRO) 200712

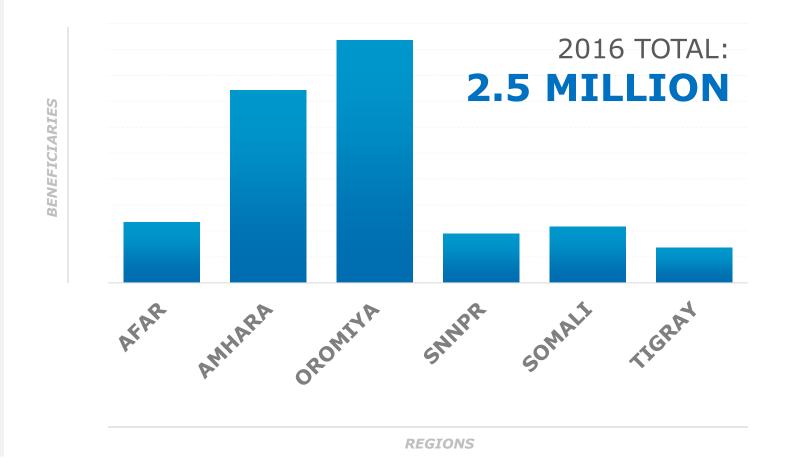

Responding to Humanitarian Crises and Transitioning Food-Insecure Groups to More Resilient Strategies July 2015 - June 2018

NUTRITION

The **Targeted Supplementary Feeding Programme (TSF)** treats children under five years of age, and pregnant and nursing women who are suffering from moderate acute malnutrition (MAM) with Specialized Nutritious Foods.

An additional 300,000 malnourished people are being targeted following the revision of the Priority **Hotspot woreda**classification in March.

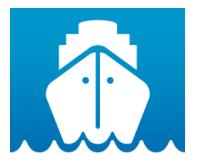

BENEFICIARIES TARGETED (TSF):

WFP is treating the Ethiopia Drought as a *prioritized* emergency, and is already drawing on surge support from within the RBN region, HQ, and beyond

Port congestion in Djibouti has been a major logistics constraint. A Three Port Strategy, involving the use of Djibouti, Berbera and Port Sudan, form part of the logistics strategy for this emergency operation

Transport capacity within Ethiopia is significantly over-stretched even at current levels of needs

Countrywide, distribution is lagging significantly behind dispatches. This is mainly due to the limited distribution capacities at Woreda (district), Kebele (ward) and Food Distribution Point-level

The Ethiopia Logistics Cluster has been activated, primarily to support Government capacities at the hub level to plan, implement and track dispatches and distributions. A Special Operation to finance this support will be released in the coming weeks

Inter-Agency

All WFP-supported programmes are implemented by the Government

For the drought response, the lead partner is the Government's National Disaster Risk Management Commission (NDRMC).

- WFP partners with UNICEF and the Ministry of Health, and International NGOs for nutrition support.
- WFP partners with UNHCR and the Government's Administration for Refugees and Returnees Affairs (ARRA) and international NGOs for refugee operations.
- Ministry of Agriculture and the donor working group is the partner for PSNP.
- For the Country Programme, WFP partners with the Ministry of Education for School Feeding; with the Ministry of Health for HIV/AIDS; and Ministry of Agriculture for the MERET land rehabilitation programme.
- WFP partners with FAO in the Home Grown School Meals programme in the SNNPR region.

Clusters

WFP co-chairs the **Food Cluster** with the NDRMC,
attended by NGOs and donor representatives.

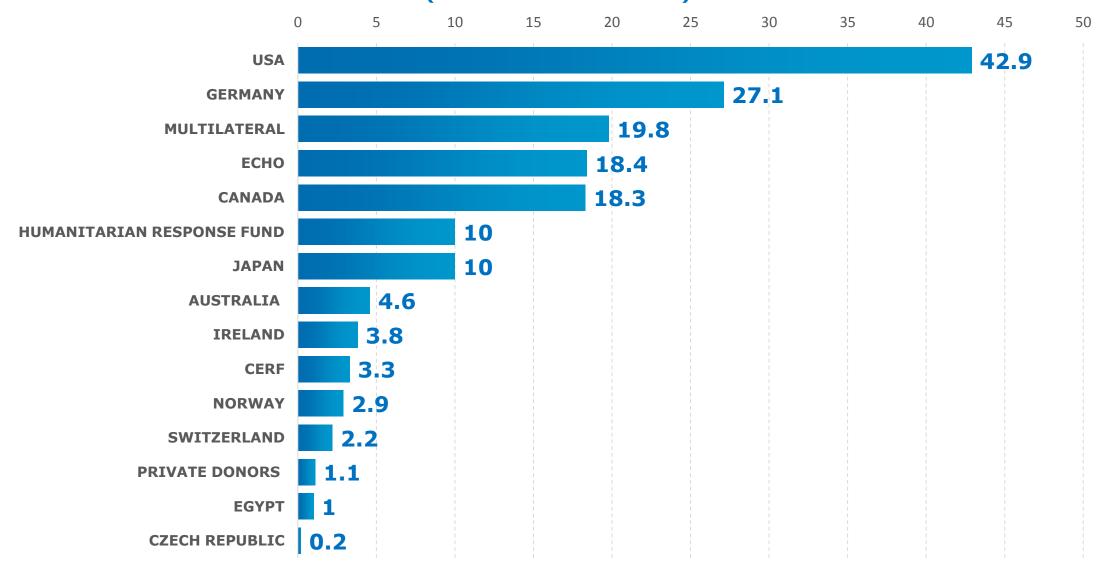

The **Logistics Cluster** was recently activated under NDRMC lead.

WFP also participates in the **Nutrition Cluster**, also led by the Ethiopian government and facilitated by UNICEF.
