

LOGISTICS CLUSTER

The Role of the Logistics Cluster

The Logistics Cluster provides the humanitarian community with **coordination, information management**, and, where necessary, **logistics service provision** to ensure an effective and efficient response takes place in each and every Logistics Cluster operation.

To achieve this goal, the Cluster fills gaps in logistics capacity, offers logistics coordination services, and where necessary acts as 'provider of last resort'. Globally, the activities of the Logistics Cluster are driven by the Global Logistics Cluster Support Cell (GLCSC), based in Rome.

“Buttressing these field-based operations is WFP’s Global Logistics Cluster Support Cell at (WFP) Headquarters whose preparedness and response capacity is unmatched and a model I would encourage other clusters to adopt.”

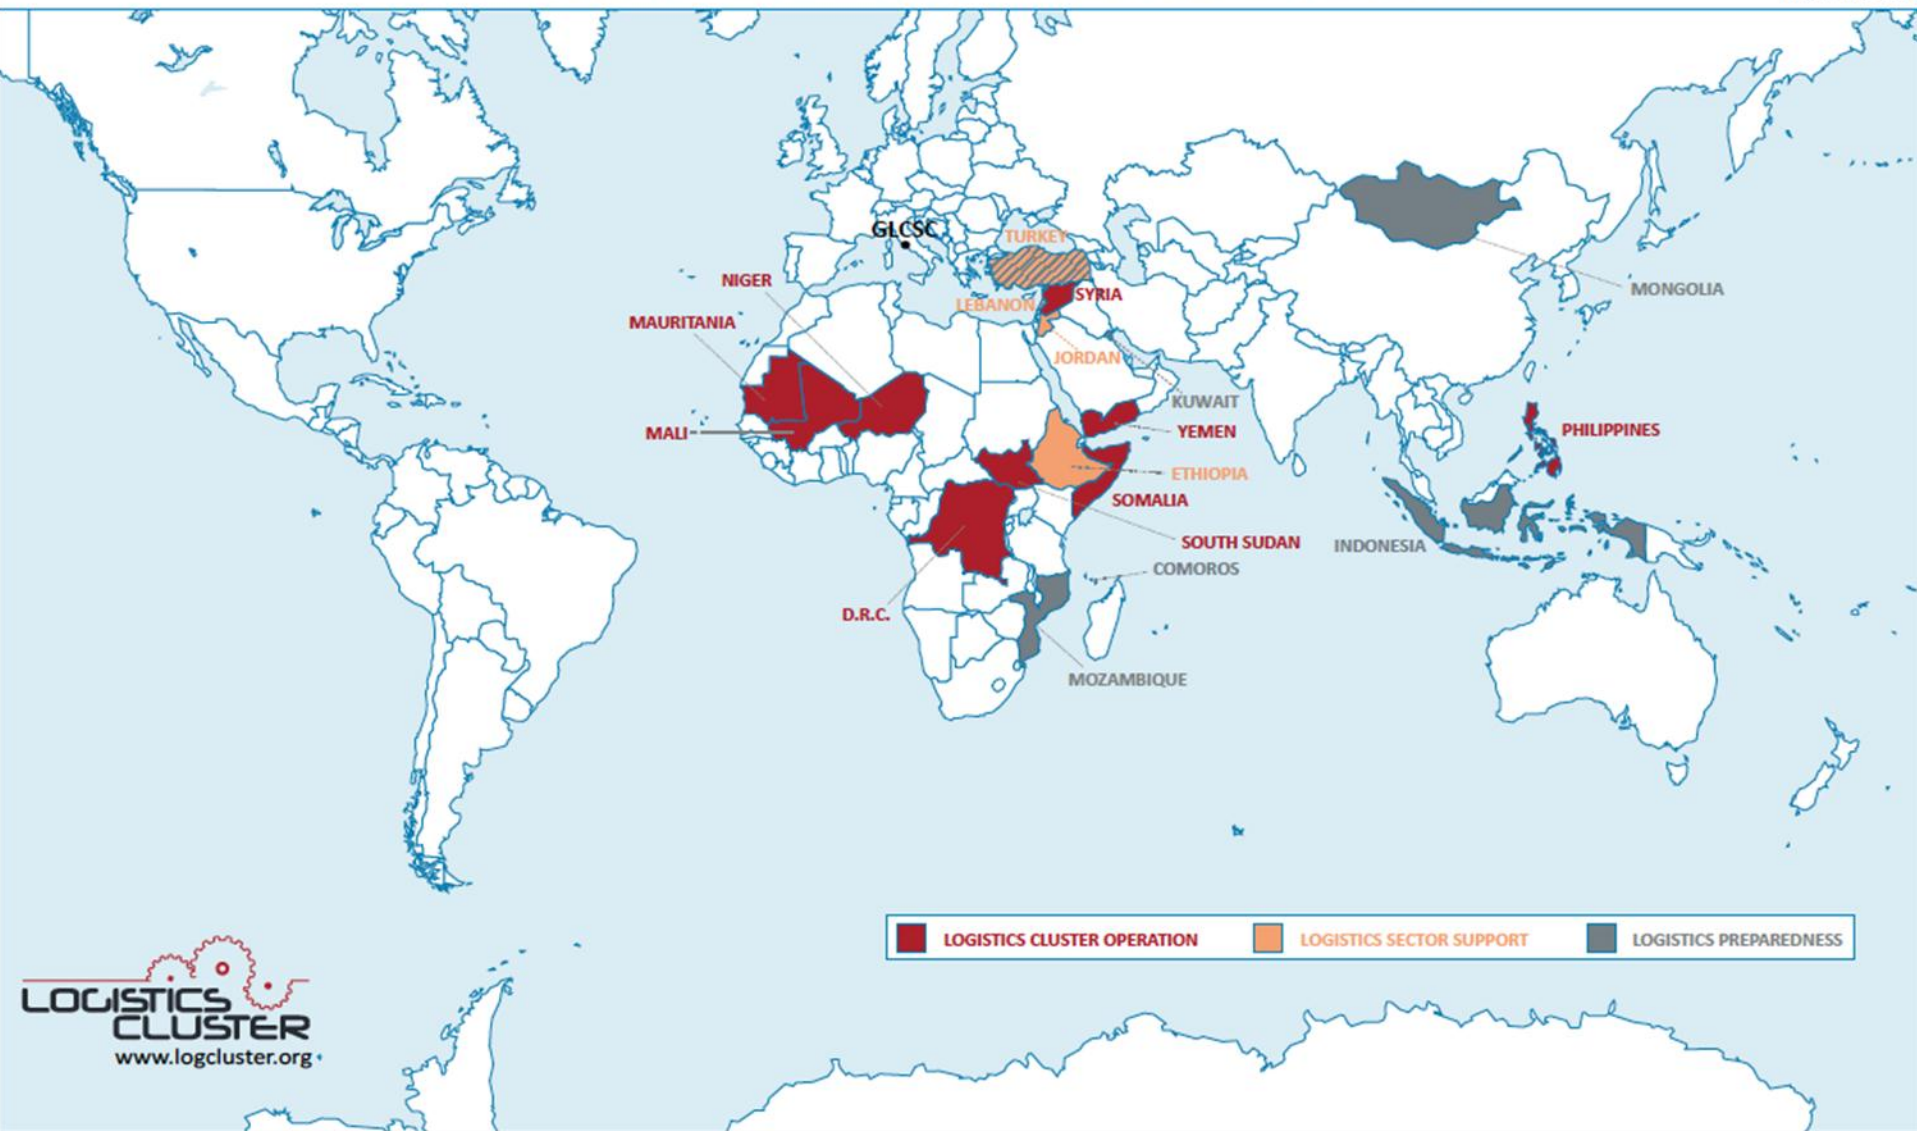

– John Holmes ERC, 2008

Ensure the humanitarian community has the ability to save lives through timely and reliable logistical service support and information
