INTERMEDIATE OUTCOMES I

GOALS By 2026

IMMEDIATE OUTCOMES

OUTPUTS

Access to equipment, inputs & energy facilitated

Risk transfer, reduction & mitigation measures delivered

Procurement localized & markets/value chains supported

Training conducted (livelihoods, resilience, risk mgt)

Evidence generation, analysis & use enhanced

Resource mobilization pursued (external & domestic)

Supply chain, telecommunications & aviation delivered

Digital service delivery solutions deployed

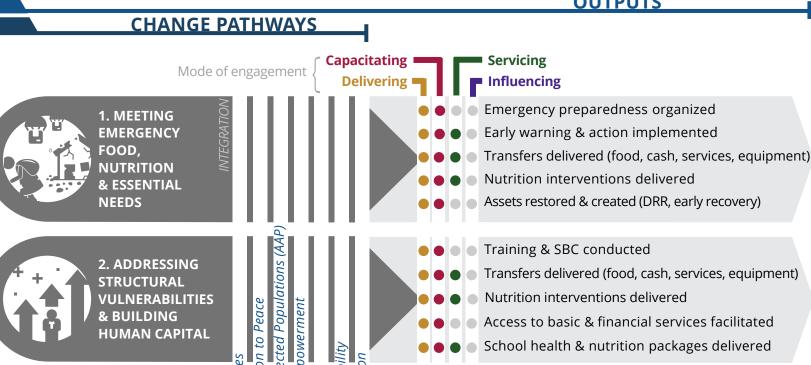

Administrative & infrastructure support provided

Policies & legislation development facilitated

Assets restored & created (land & water)

Technical expertise & advice provided

Systems design & operations supported

- Global policy debates influenced
 - Evidence generated & communicated

Cluster mechanisms coordinated

Data & analytics provided

- Humanitarian diplomacy & peace advocacy conducted
- Global partnerships strengthened

PEOPLE & COMMUNITIES

- People have increased access to nutritious food, cash & services
- People consume sustainable & healthy diets
- School-age children have increased access school health & nutrition packages
- Urban & rural poor have increased income, skills & capacities
- Safety, dignity & integrity of people are protected
- Gender equality is enhanced & women are empowered
- Smallholders are more productive, reduce PHL & better access to markets
- Community-based systems are strengthened
- Ecosystems are regenerated

Food systems

National programmes:

Supply chain systems
