Communications and Advocacy	Giving voice to affected populations	<ul style="list-style-type: none">Contribution of beneficiary testimonial to Global Protection Cluster Food Platform

Community Engagement for Accountability to Affected Populations (2021-2026 Strategy)

Easy to read version

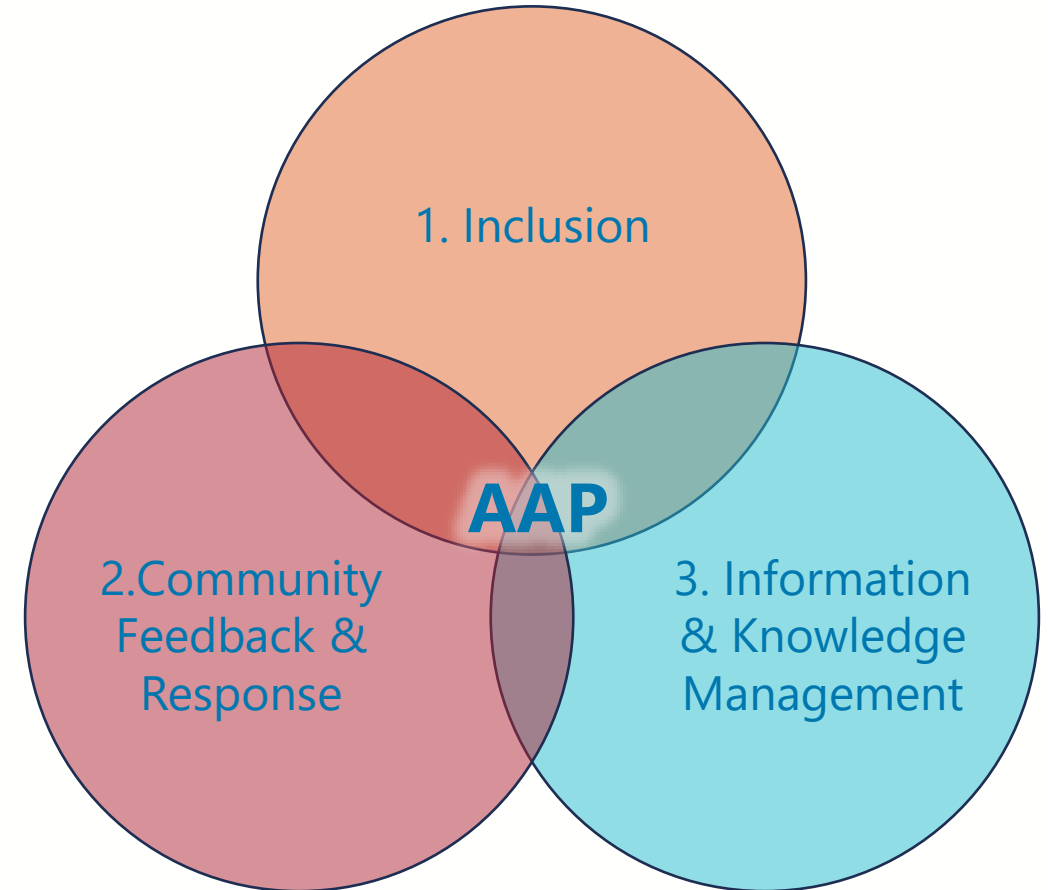

- We have an accountability plan
- Accountability means being able to explain our decisions. It means working with communities to do what we say we will do
- The plan says how we will include people in deciding what support they need

How we will work with and include people in 2021 - 2026

Our new plan will make sure we work in the way people want us to by thinking about:

1. How to include more people affected by hunger
2. How to listen to and act on what people say
3. How to share and use what we learn better

Demystifying Protection **Global Food Platform**

What is it?

- Shifting perception through Beneficiary Voices

What does it look like?

- Beneficiaries' lived experience of protection risks associated with food assistance

Who is invited?

- Applications, partnerships, tie-ins.
