PLANET: All people in Tanzania, especially the most vulnerable, contribute to and benefit from improved management of natural resources, climate change impacts and clean, efficient renewable energy.

PEOPLE: All people in Tanzania, especially the most vulnerable, contribute to and benefit from enhanced access to quality, integrated secondary education, RMNCAH and nutrition services .

PROSPERITY: People in Tanzania, working in MSMEs and small-scale agriculture, especially the most vulnerable, achieve increased productivity, incomes and gender-inclusive sustainable livelihoods.

ENABLING ENVIRONMENT: All people in Tanzania engage in and benefit from government institutions that are more effective, accountable and compliant with international human rights standards and norms.

WFP CSP

STRATEGIC OUTCOME 1
Crisis-affected populations are able to meet their essential food and nutrition needs and build resilience to shocks and stressors.

STRATEGIC OUTCOME 2
Vulnerable populations consume more diversified and nutrient-rich diets and have improved access to nutrition, health and education services that contribute to human capital development.

STRATEGIC OUTCOME 3
Targeted populations achieve climate resilient rural livelihoods and improved food security and nutrition through sustained access to markets, enhanced value chains and sustainable management of natural resources.

STRATEGIC OUTCOME 4
Government institutions and development partners have improved access to on-demand services and innovation platforms.

LONG-TERM VISION TO 2030 AND BEYOND

From delivering to enabling the government and communities to deliver and transferring capacities

CSP 2017-2022

Position WFP as a knowledge organization that helps others to understand hunger & nutrition issues with a view to national ownership.

CSP 2022-2027

Support the government to deliver equitable and inclusive economic growth & prosperity for the people of Tanzania through a resilient and sustainable food system that leaves no one behind.

CSP 2027-2032

Government institutions and human capacities, at national and sub-national levels, strengthened in the transition to an upper middle-income country.
