The management response to the evaluation of Nutrition and HIV

2023 February

The six recommendations to the Evaluation of WFP's Work on Nutrition and HIV/AIDS

1

Strategic document articulating WFP's position on HIV

2

WFP Nutrition Strategy to articulate definition and approach to nutrition integration

3

Develop process and guidance for effective operationalization of nutrition integration

4

Enhance capacities in nutrition and HIV across WFP

5

Knowledge management (KM) action plan, increasing work across units

6

Sustained and strategic partnerships, including through multistakeholder entities and platforms
