
ANNEX II-D: OUTCOME ANALYSIS AGAINST STRATEGIC OBJECTIVES AND CROSS-CUTTING RESULTS

1. This annex presents the detailed outcome performance of WFP under its five strategic objectives and eight strategic results and the outcome performance of WFP's work on cross-cutting results. It complements the summarized data provided in part II of this annual performance report by giving specific information on each outcome indicator.
2. The following outcome analysis uses the methodology described in annex II-C for which the following definitions apply:
 - a) *No. of countries reporting*: The number of country offices reporting against an indicator for one or several target groups, locations, activities and/or modalities.
 - b) *No. of countries reporting sufficient data*: The number of country offices reporting sufficient data. Only country offices that have reported sufficient data are included in the performance analysis. "Sufficient data" is defined as a complete set of measurements that account for at least 50 percent of the country's operational size (measured as transfers, expenditures or beneficiaries, depending on the indicator) in terms of the total transfers associated with the given outcome indicator. For example, if the complete set of measurements for "Food consumption score for its interventions – proportion of households with acceptable food consumption score" in Cameroon accounts for only 40 percent of the total transfers associated with that indicator in Cameroon, then data from the Cameroon country office are not included in the analysis of the food consumption score and Cameroon is classified as a country that is not reporting sufficient data for that indicator.
 - c) *Country reporting rate*: The number of countries reporting sufficient data divided by the total number of countries reporting.
 - d) *No. of measurements*: The total number of measurements against an indicator. For example, the food consumption score can be measured for one activity in three locations and for three target groups at each location, giving a total of nine measurements.
 - e) *No. of complete measurements*: The number of measurements for which all three data points (annual follow-up, annual target and baseline) are reported by the country offices reporting sufficient data.
 - f) *Reporting rate*: The number of complete measurements divided by the total number of measurements (the total number of measurements, complete and incomplete, against an indicator).
 - g) *No. of measurements showing improvement or stabilization compared with the baseline*: The number of measurements for which the annual follow-up value has improved or remained stable compared with the baseline.
 - h) *No. of measurements achieving or exceeding the target*: The number of measurements for which the annual follow-up value has reached or exceeded the annual target value.

Figure 1: Summary of 2022 performance by strategic objective

Strategic Objective 1 – End hunger by protecting access to food

Strategic Result 1 – Everyone has access to food

Outcome 1.1: Maintained/enhanced individual and household access to adequate food

Outcome indicators	No. of countries reporting	No. of countries reporting sufficient data	Country reporting rate	No. of measurements	No. of complete measurements	Reporting rate	Performance rating ¹			No. of measurements showing improvement or stabilization compared with the baseline	No. of measurements achieving or exceeding the target
							2022	2021	2020		
1.1.1 Food consumption score – percentage of households with acceptable food consumption score	69	58	84%	176	160	91%	●	●	●	80	46
1.1.10 Enrolment rate	30	26	87%	33	33	100%	●	●	●	23	19
1.1.11 Attendance rate (new)	19	15	79%	21	21	100%	●	●	●	16	14

¹ Tables in this annex show the performance ratings (recalculated using the revised methodology for assessing outcome performance) for the years 2020, 2021 and 2022 in the “Performance rating” column. All other columns in the tables report 2022 figures.

Outcome 1.1: Maintained/enhanced individual and household access to adequate food

Outcome indicators	No. of countries reporting	No. of countries reporting sufficient data	Country reporting rate	No. of measurements	No. of complete measurements	Reporting rate	Performance rating ¹			No. of measurements showing improvement or stabilization compared with the baseline	No. of measurements achieving or exceeding the target
							2022	2021	2020		
1.1.18 Emergency preparedness capacity index	1	1	100%	1	1	100%				1	0
1.1.19 Proportion of eligible population that participates in programme (coverage)	23	21	91%	59	54	92%				44	31
1.1.2.2 Consumption-based coping strategy index (average)	56	47	84%	133	124	93%				76	42
1.1.2.3 Livelihood-based coping strategy index (percentage of households using coping strategies) – percentage of households not using livelihood-based coping strategies	29	24	83%	74	68	92%				32	15
1.1.20 Proportion of target population that participates in an adequate number of distributions (adherence)	19	18	95%	43	41	95%				25	17
1.1.21 Proportion of children 6–23 months of age who receive a minimum acceptable diet	5	5	100%	13	12	92%				12	10
1.1.22 MAM treatment recovery rate	22	22	100%	55	55	100%				30	29

3.1.19 Proportion of targeted communities where there is evidence of improved capacity to manage climate shocks and risks	2	2	100%	2	2	100%				2	1
3.1.2 Rate of smallholder post-harvest losses	6	5	83%	7	6	86%				5	4
3.1.22 Value and volume of smallholder sales through WFP-supported aggregation systems – value (USD)	15	13	87%	14	14	100%				9	6
3.1.22 Value and volume of smallholder sales through WFP-supported aggregation systems – volume (mt)	15	13	87%	14	14	100%				8	3
3.1.25 Number of national food security and nutrition policies, programmes and system components enhanced as a result of WFP capacity strengthening (new)	4	4	100%	4	4	100%				4	2
3.1.4 Percentage of WFP food procured from smallholder farmer aggregation systems	5	4	80%	5	5	100%				4	2
3.1.5 Food consumption score – percentage of households with acceptable food consumption score	8	7	88%	9	9	100%				6	3
3.1.6.2 Consumption-based coping strategy index (average)	9	7	78%	7	7	100%				4	3
3.1.6.3 Livelihood-based coping strategy index (percentage of households using coping strategies) – percentage of households not using livelihood-based coping strategies	7	6	86%	6	6	100%				3	1

Outcome 3.1: Increased smallholder production and sales

Outcome indicators	No. of countries reporting	No. of countries reporting sufficient data	Country reporting rate	No. of measurements	No. of complete measurements	Reporting rate	Performance Rating			No. of measurements showing improvement or stabilization compared with the baseline	No. of measurements achieving or exceeding the target
							2022	2021	2020		
3.1.8 Proportion of the population in targeted communities reporting benefits from an enhanced livelihood asset base	8	6	75%	7	7	100%				7	4
3.1.9 Percentage of targeted smallholder farmers reporting increased production of nutritious crops, disaggregated by sex of smallholder farmer	7	6	86%	7	6	86%				6	2

Outcome 3.2: Increased efficiencies in smallholder aggregation in food value chains

Outcome indicators	No. of countries reporting	No. of countries reporting sufficient data	Country reporting rate	No. of measurements	No. of complete measurements	Reporting rate	Performance Rating			No. of measurements showing improvement or stabilization compared with the baseline	No. of measurements achieving or exceeding the target
							2022	2021	2020		
3.2.12 Proportion of the population in targeted communities reporting benefits from an enhanced livelihood asset base	1	1	100%	1	1	100%		N/A	N/A	1	1
3.2.6 Food consumption score – percentage of households with acceptable food consumption score	1	1	100%	1	1	100%			N/A	0	0

Outcome 3.3: Improved availability of key pro-smallholder public goods and services

Outcome indicators	No. of countries reporting	No. of countries reporting sufficient data	Country reporting rate	No. of measurements	No. of complete measurements	Reporting rate	Performance Rating			No. of measurements showing improvement or stabilization compared with the baseline	No. of measurements achieving or exceeding the target
							2022	2021	2020		
3.3.12 Proportion of the population in targeted communities reporting benefits from an enhanced livelihood asset base	1	1	100%	1	1	100%				1	0
3.3.14 Minimum dietary diversity – women	1	1	100%	1	1	100%			N/A	1	0
3.3.16 Food consumption score – nutrition – percentage of households that never consumed haem iron-rich food (in the last 7 days)	1	1	100%	1	1	100%				0	0
3.3.16 Food consumption score – nutrition – percentage of households that never consumed protein-rich food (in the last 7 days)	1	1	100%	1	1	100%				1	1
3.3.16 Food consumption score – nutrition – percentage of households that never consumed vitamin A rich food (in the last 7 days)	1	1	100%	1	1	100%				1	1
3.3.2 Percentage of targeted smallholders selling through WFP-supported farmer aggregation systems	1	1	100%	1	1	100%				1	1
3.3.22 Proportion of targeted communities where there is evidence of improved capacity to manage climate shocks and risks	1	1	100%	1	1	100%		N/A	N/A	0	0
3.3.24 Value and volume of smallholder sales through WFP-supported aggregation systems – value (USD)	1	1	100%	1	1	100%				1	0

Outcome 3.3: Improved availability of key pro-smallholder public goods and services

Outcome indicators	No. of countries reporting	No. of countries reporting sufficient data	Country reporting rate	No. of measurements	No. of complete measurements	Reporting rate	Performance Rating			No. of measurements showing improvement or stabilization compared with the baseline	No. of measurements achieving or exceeding the target
							2022	2021	2020		
3.3.24 Value and volume of smallholder sales through WFP-supported aggregation systems – volume (<i>mt</i>)	1	1	100%	1	1	100%				1	0
3.3.25 Economic capacity to meet essential needs (new)	1	1	100%	2	1	50%		N/A	N/A	1	0
3.3.5 Percentage of WFP food procured from smallholder farmer aggregation systems	1	1	100%	1	1	100%				1	0
3.3.6 Food consumption score – percentage of households with acceptable food consumption score	1	1	100%	2	2	100%				1	0
3.3.8 Consumption-based coping strategy index (average)	1	1	100%	2	2	100%				1	1

Strategic Result 4 – Food systems are sustainable

Outcome 4.1: Improved household adaptation and resilience to climate and other shocks

Outcome indicators	No. of countries reporting	No. of countries reporting sufficient data	Country reporting rate	No. of measurements	No. of complete measurements	Reporting rate	Performance Rating			No. of measurements showing improvement or stabilization compared with the baseline	No. of measurements achieving or exceeding the target
							2022	2021	2020		
4.1.1 Food consumption score – percentage of households with acceptable food consumption score	26	19	73%	34	34	100%				21	15
4.1.13 Emergency preparedness capacity index	2	1	50%	1	1	100%			N/A	1	1
4.1.15 Percentage of targeted smallholders selling through WFP-supported farmer aggregation systems	8	8	100%	8	8	100%				5	4
4.1.2.2 Consumption-based coping strategy index (average)	19	12	63%	22	22	100%				16	14
4.1.2.3 Livelihood-based coping strategy index (percentage of households using coping strategies) – percentage of households not using livelihood-based coping strategies	16	12	75%	18	18	100%				13	8
4.1.21 Rate of smallholder post-harvest losses	5	5	100%	5	5	100%				3	3
4.1.22 Value and volume of smallholder sales through WFP-supported aggregation systems – value (USD)	10	10	100%	10	10	100%				6	4
4.1.22 Value and volume of smallholder sales through WFP-supported aggregation systems – volume (mt)	10	10	100%	10	10	100%				6	3
4.1.23 Default rate (as a percentage) of WFP pro-smallholder farmer procurement contracts	2	2	100%	2	2	100%				2	1

Outcome 4.1: Improved household adaptation and resilience to climate and other shocks

Outcome indicators	No. of countries reporting	No. of countries reporting sufficient data	Country reporting rate	No. of measurements	No. of complete measurements	Reporting rate	Performance Rating			No. of measurements showing improvement or stabilization compared with the baseline	No. of measurements achieving or exceeding the target
							2022	2021	2020		
4.1.28 Economic capacity to meet essential needs (new)	4	4	100%	4	4	100%				3	2
4.1.29 Number of national food security and nutrition policies, programmes and system components enhanced as a result of WFP capacity strengthening (new)	8	7	88%	9	9	100%				9	7
4.1.33 Resources mobilized (USD value) for national food security and nutrition systems as a result of WFP capacity strengthening (new)	1	1	100%	2	2	100%		N/A	N/A	2	0
4.1.36 Percentage of targeted smallholder farmers reporting increased production of nutritious crops, disaggregated by sex of smallholder farmer	3	3	100%	3	3	100%			N/A	3	3
4.1.37 Percentage increase in production of high-quality and nutrition-dense foods	2	1	50%	1	1	100%				1	1
4.1.38 Percentage of WFP food procured from smallholder farmer aggregation systems	3	3	100%	3	3	100%				2	1
4.1.4 Proportion of the population in targeted communities reporting benefits from an enhanced livelihood asset base	25	15	60%	19	19	100%				15	14
4.1.40 Retention rate/drop-out rate (new) – retention rate	2	2	100%	2	2	100%		N/A	N/A	1	0
4.1.5 Proportion of the population in targeted communities reporting environmental benefits	7	4	57%	7	7	100%				7	6

Outcome 4.1: Improved household adaptation and resilience to climate and other shocks

Outcome indicators	No. of countries reporting	No. of countries reporting sufficient data	Country reporting rate	No. of measurements	No. of complete measurements	Reporting rate	Performance Rating			No. of measurements showing improvement or stabilization compared with the baseline	No. of measurements achieving or exceeding the target
							2022	2021	2020		
4.1.6 Proportion of targeted communities where there is evidence of improved capacity to manage climate shocks and risks	14	10	71%	12	12	100%				10	6
4.1.7 Minimum dietary diversity – women	6	4	67%	8	8	100%				1	1
4.1.8 Food consumption score – nutrition – percentage of households that never consumed haem iron-rich food (in the last 7 days)	12	8	67%	12	12	100%				11	10
4.1.8 Food consumption score – nutrition – percentage of households that never consumed protein-rich food (in the last 7 days)	12	8	67%	12	12	100%				11	10
4.1.8 Food consumption score – nutrition – percentage of households that never consumed vitamin A rich food (in the last 7 days)	12	8	67%	12	12	100%				10	9
4.1.9 Proportion of children 6–23 months of age who receive a minimum acceptable diet	4	2	50%	6	5	83%				1	0

Outcome 4.2: Supported inclusive commercial food system functions and services

Outcome indicators	No. of countries reporting	No. of countries reporting sufficient data	Country reporting rate	No. of measurements	No. of complete measurements	Reporting rate	Performance Rating			No. of measurements showing improvement or stabilization compared with the baseline	No. of measurements achieving or exceeding the target
							2022	2021	2020		
4.2.18 Rate of smallholder post-harvest losses	1	1	100%	1	1	100%			N/A	1	1
4.2.20 Percentage of targeted smallholder farmers reporting increased production of nutritious crops, disaggregated by sex of smallholder farmer	1	1	100%	1	1	100%				0	0
4.2.21 Default rate (as a percentage) of WFP pro-smallholder farmer procurement contracts	1	1	100%	1	1	100%			N/A	1	1
4.2.22 Percentage increase in production of high-quality and nutrition-dense foods	1	1	100%	1	1	100%			N/A	1	1
4.2.23 Value and volume of smallholder sales through WFP-supported aggregation systems – value (<i>USD</i>)	1	1	100%	1	1	100%				1	1
4.2.23 Value and volume of smallholder sales through WFP-supported aggregation systems – volume (<i>mt</i>)	1	1	100%	1	1	100%				1	1

Outcome 4.3: Improved availability of food system-strengthening public goods and services

Outcome indicators	No. of countries reporting	No. of countries reporting sufficient data	Country reporting rate	No. of measurements	No. of complete measurements	Reporting rate	Performance Rating			No. of measurements showing improvement or stabilization compared with the baseline	No. of measurements achieving or exceeding the target
							2022	2021	2020		
4.3.11 Proportion of targeted communities where there is evidence of improved capacity to manage climate shocks and risks	1	1	100%	1	1	100%		N/A	N/A	1	0
4.3.24 Value and volume of smallholder sales through WFP-supported aggregation systems – value (<i>USD</i>)	2	2	100%	2	2	100%				2	2
4.3.24 Value and volume of smallholder sales through WFP-supported aggregation systems – volume (<i>mt</i>)	2	2	100%	2	2	100%				2	2
4.3.25 Percentage of targeted smallholder farmers reporting increased production of nutritious crops, disaggregated by sex of smallholder farmer	1	1	100%	1	1	100%		N/A		1	1
4.3.9 Proportion of the population in targeted communities reporting benefits from an enhanced livelihood asset base	1	1	100%	1	1	100%		N/A	N/A	0	0

Strategic Objective 4 – Support SDG implementation

Strategic Result 5 – Developing countries have strengthened capacity to implement the SDGs

Outcome 5.1: Enhanced capacities of public and private sector institutions and systems, including local responders, to identify, target and assist food-insecure and nutritionally vulnerable populations

Outcome indicators	No. of countries reporting	No. of countries reporting sufficient data	Country reporting rate	No. of measurements	No. of complete measurements	Reporting rate	Performance Rating			No. of measurements showing improvement or stabilization compared with the baseline	No. of measurements achieving or exceeding the target
							2022	2021	2020		
5.1.14 Number of national food security and nutrition policies, programmes and system components enhanced as a result of WFP capacity strengthening (new)	49	47	96%	56	55	98%				52	39
5.1.15 Number of national programmes enhanced as a result of WFP-facilitated South–South and triangular cooperation support (new)	8	8	100%	9	9	100%				8	5
5.1.16 Number of people assisted by WFP integrated into national social protection systems as a result of WFP capacity strengthening (new)	6	2	33%	2	2	100%		N/A	N/A	1	1
5.1.17 Proportion of cash-based transfers channelled through national social protection systems as a result of WFP capacity strengthening support (new)	4	4	100%	10	10	100%				10	8
5.1.18 Resources mobilized (<i>USD</i> value) for national food security and nutrition systems as a result of WFP capacity strengthening (new)	8	7	88%	8	8	100%				6	3
5.1.19 Partnerships index (new)	7	7	100%	7	7	100%				6	4
5.1.20 SABER school feeding national capacity (new)	4	3	75%	3	3	100%			N/A	3	2

Outcome 5.1: Enhanced capacities of public and private sector institutions and systems, including local responders, to identify, target and assist food-insecure and nutritionally vulnerable populations

Outcome indicators	No. of countries reporting	No. of countries reporting sufficient data	Country reporting rate	No. of measurements	No. of complete measurements	Reporting rate	Performance Rating			No. of measurements showing improvement or stabilization compared with the baseline	No. of measurements achieving or exceeding the target
							2022	2021	2020		
5.1.21 Proportion of targeted sectors and government entities implementing recommendations from national zero hunger strategic reviews	3	3	100%	3	3	100%				3	1
5.1.22 Proportion of targeted communities where there is evidence of improved capacity to manage climate shocks and risks	2	2	100%	2	2	100%			N/A	1	1
5.1.24 Retention rate/Drop-out rate (new) – retention rate	2	1	50%	1	1	100%				0	0
5.1.3 Emergency preparedness capacity index	13	12	92%	12	12	100%				12	6

Outcome 5.2: Partners' demand for quality services fulfilled

Outcome indicators	No. of countries reporting	No. of countries reporting sufficient data	Country reporting rate	No. of measurements	No. of complete measurements	Reporting rate	Performance Rating			No. of measurements showing improvement or stabilization compared with the baseline	No. of measurements achieving or exceeding the target
							2022	2021	2020		
5.2.1 User satisfaction rate	2	2	100%	2	2	100%				2	1
5.2.3 Number of national food security and nutrition policies, programmes and system components enhanced as a result of WFP capacity strengthening (new)	1	1	100%	1	1	100%			N/A	1	0

Strategic Result 6 – Policies to support sustainable development are coherent

Outcome 6.1: Supported inclusive and sustained food security and nutrition policy reform processes

Outcome indicators	No. of countries reporting	No. of countries reporting sufficient data	Country reporting rate	No. of measurements	No. of complete measurements	Reporting rate	Performance Rating			No. of measurements showing improvement or stabilization compared with the baseline	No. of measurements achieving or exceeding the target
							2022	2021	2020		
6.1.2 Proportion of targeted sectors and government entities implementing recommendations from national zero hunger strategic reviews	1	1	100%	1	1	100%				1	0
6.1.4 Number of national food security and nutrition policies, programmes and system components enhanced as a result of WFP capacity strengthening (new)	2	2	100%	2	2	100%				2	2

Outcome 6.2: Prioritized and implemented food security and nutrition policy reforms

Outcome indicators	No. of countries reporting	No. of countries reporting sufficient data	Country reporting rate	No. of measurements	No. of complete measurements	Reporting rate	Performance Rating			No. of measurements showing improvement or stabilization compared with the baseline	No. of measurements achieving or exceeding the target
							2022	2021	2020		
6.2.4 Number of national food security and nutrition policies, programmes and system components enhanced as a result of WFP capacity strengthening (new)	1	1	100%	1	1	100%			N/A	1	1

Strategic Objective 5 – Partner for SDG results

Strategic Result 7 – Developing countries access a range of financial resources for development investment

Outcome 7.1: Increased government access to financial resources

Outcome indicators	No. of countries reporting	No. of countries reporting sufficient data	Country reporting rate	No. of measurements	No. of complete measurements	Reporting rate	Performance Rating			No. of measurements showing improvement or stabilization compared with the baseline	No. of measurements achieving or exceeding the target
							2022	2021	2020		
7.1.4 Partnerships index (new)	1	1	100%	2	2	100%		N/A	N/A	2	2

Strategic Result 8 – Sharing of knowledge, expertise and technology strengthen global partnership support to country efforts to achieve the SDGs

Outcome 8.1: Enhanced common coordination platforms

Outcome indicators	No. of countries reporting	No. of countries reporting sufficient data	Country reporting rate	No. of measurements	No. of complete measurements	Reporting rate	Performance Rating			No. of measurements showing improvement or stabilization compared with the baseline	No. of measurements achieving or exceeding the target
							2022	2021	2020		
8.1.1 User satisfaction rate	37	34	92%	56	52	93%				44	36
8.1.3 Partnerships index (new)	3	1	33%	1	1	100%				1	1
8.1.4 Number of national food security and nutrition policies, programmes and system components enhanced as a result of WFP capacity strengthening (new)	6	2	33%	2	2	100%				2	1

Outcome 8.2: Enhanced strategic partnerships with the public and private sectors, Rome-based agencies and other operational partners

Outcome indicators	No. of countries reporting	No. of countries reporting sufficient data	Country reporting rate	No. of measurements	No. of complete measurements	Reporting rate	Performance Rating			No. of measurements showing improvement or stabilization compared with the baseline	No. of measurements achieving or exceeding the target
							2022	2021	2020		
8.2.11 Food consumption score	1	1	100%	1	1	100%				1	1
8.2.12 Partnerships index (new)	3	2	67%	2	2	100%				2	2
8.2.13 Number of national programmes enhanced as a result of WFP-facilitated South-South and triangular cooperation support (new)	1	1	100%	1	1	100%		N/A	N/A	1	1
8.2.14 Economic capacity to meet essential needs (new)	1	1	100%	2	2	100%		N/A		1	1
8.2.2 User satisfaction rate	5	5	100%	7	6	86%				4	4
8.2.3 Consumption-based coping strategy index (average)	1	1	100%	3	3	100%				2	2

CROSS-CUTTING RESULTS

C.1: Affected populations are able to hold WFP and partners accountable for meeting their hunger needs in a manner that reflects their views and preferences

Cross-cutting indicators	No. of countries reporting	No. of countries reporting sufficient data	Country reporting rate	No. of measurements	No. of complete measurements	Reporting rate	Performance rating			No. of measurements showing improvement or stabilization compared with the baseline	No. of measurements achieving or exceeding the target
							2022	2021	2020		
C.1.1 Proportion of assisted people informed about the programme (who is included, what people will receive, length of assistance)	74	61	82%	235	176	75%				100	30
C.1.2 Proportion of project activities for which beneficiary feedback is documented, analysed and integrated into programme improvements	63	59	94%	146	132	90%				117	93

C.2: Affected populations are able to benefit from WFP programmes in a manner that ensures and promotes their safety, dignity and integrity

Cross-cutting indicators	No. of countries reporting	No. of countries reporting sufficient data	Country reporting rate	No. of measurements	No. of complete measurements	Reporting rate	Performance rating			No. of measurements showing improvement or stabilization compared with the baseline	No. of measurements achieving or exceeding the target
							2022	2021	2020		
C.2.2 Proportion of targeted people receiving assistance without safety challenges (new)	72	62	86%	226	178	79%				111	88
C.2.3 Proportion of targeted people who report that WFP programmes are dignified (new)	66	56	85%	207	164	79%				116	83
C.2.4 Proportion of targeted people having unhindered access to WFP programmes (new)	60	50	83%	187	147	79%				96	49

C.3: Improved gender equality and women's empowerment among WFP-assisted population

Cross-cutting indicators	No. of countries reporting	No. of countries reporting sufficient data	Country reporting rate	No. of measurements	No. of complete measurements	Reporting Rate	Performance rating			No. of measurements showing improvement or stabilization compared with the baseline	No. of measurements achieving or exceeding the target
							2022	2021	2020		
C.3.1 Proportion of households where women, men, or both women and men make decisions on the use of food/cash/vouchers, disaggregated by transfer modality	75	65	87%	224	175	78%	●	●	●	100	65
C.3.2 Proportion of food assistance decision making entity – committees, boards, teams, etc. – members who are women	53	50	94%	93	81	87%	●	●	●	55	35
C.3.3 Type of transfer (food, cash, voucher, no compensation) received by participants in WFP activities, disaggregated by sex and type of activity	33	26	79%	69	50	72%	●	●	●	47	45

C.4: Targeted communities benefit from WFP programmes in a manner that does not harm the environment

Cross-cutting indicators	No. of countries reporting	No. of countries reporting sufficient data	Country reporting rate	No. of measurements	No. of complete measurements	Reporting Rate	Performance rating			No. of measurements showing improvement or stabilization compared with the baseline	No. of measurements achieving or exceeding the target
							2022	2021	2020		
C.4.1 Proportion of FLAs/MOUs/CCs for CSP activities screened for environmental and social risk	52	49	94%	126	118	94%	●	●	●	117	61
