Ethiopia CSP (January 2026 – December 2030) for approval at the Second Regular Session of the Executive Board

November 2025

Evaluation & Learning: Use of CSPE evidence in CSP design

Management Response to the evaluation of the Ethiopia CSP (2020 – 2025)

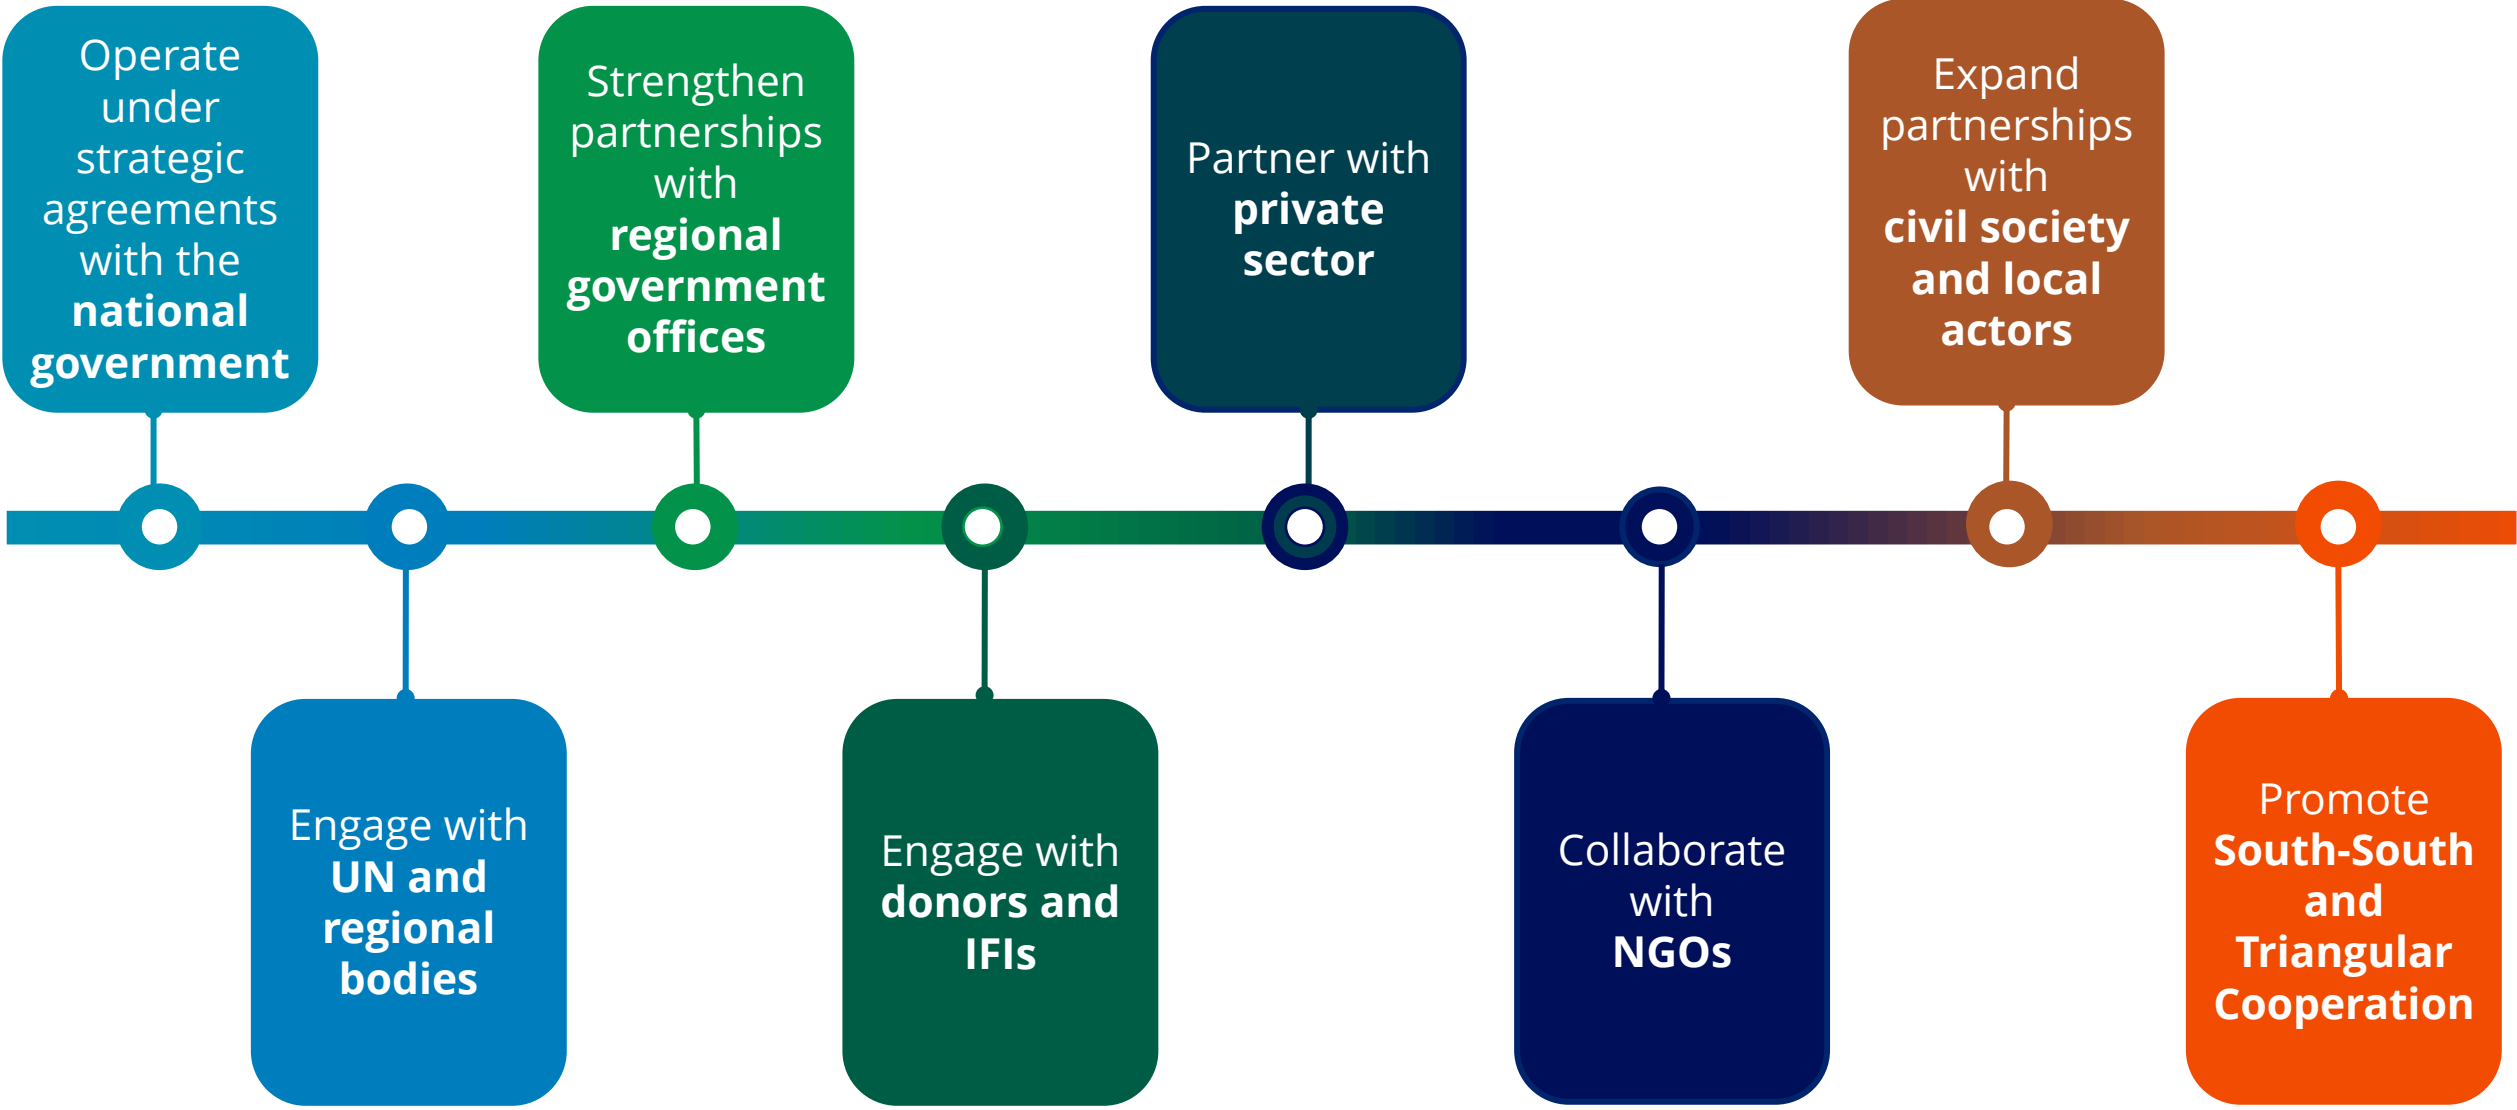

WFP Ethiopia CSP (2026-2030) – Key Strategic Shifts

- **Scenario-based and risk informed planning** to facilitate greater flexibility and adaptive responses in conflict and post conflict areas in line with HDP nexus shifts and transitions.
- **Tailored programme toolkit** contributing to addressing the impact of shocks effectively including climate and economic shocks.
- **Integrating disaster risk management approaches** to build resilience and sustainable response capacities to achieve national development priorities
- **Layering interventions across strategic outcomes** to deliver a cohesive and integrated response.
- **Implementing a people-centred strategy** through strengthened accountability to affected people.

Partnerships

Ethiopia CSP (2026 -2030)

OUTCOME 1	OUTCOME 2	OUTCOME 3	OUTCOME 4	OUTCOME 5
Access to food	Sustainable food systems		Capacity strengthening	Enhance global partnerships
Crisis Response	Resilience Building			Crisis Response
<ul style="list-style-type: none"> Life-saving food & nutrition assistance to crisis-affected people, including refugees 	<ul style="list-style-type: none"> Nutrition prevention Home-grown school feeding 	<ul style="list-style-type: none"> Livelihood support 	<ul style="list-style-type: none"> National emergency preparedness and social protection systems strengthening 	<ul style="list-style-type: none"> On-demand services UNHAS Logistics Cluster
