

**WFP EVALUATION**

# Evaluation of WFP's Supply Chain Strategic Roadmap (2022–2025)

WFP Executive Board – February 2026

World Food Programme

SAVING LIVES  
CHANGING LIVES

# Summary of key insights from the evaluation

## Insight 1: Roadmap contribution

- **Clear aspirations** – moving from operational delivery alone to **leader & strategic partner**

### Pillar 1:

Leadership in emergencies

### Pillar 2:

National system strengthening

Local and Regional Food Procurement Policy

### Pillar 3:

Augmented services and delivery solutions

### Enablers:

- People
- Partnerships
- Technology and innovation
- Evidence

## Insight 2: Systems, structures & platforms

- Investments in **digital platforms & tools** supported **data availability, quality and visibility**
- Menu of **solutions still fragmented**; does not support end-to-end decision making or fully support operational needs
- **Opportunities for greater coordination** between programme and supply chain functions

# ✦ Insight 3: Leadership & efficiency gains in emergencies

- **Effective crisis response** through WFP supply chain
- **Expanded reach to affected people** with flexible delivery modalities
- Measurable **efficiency gains**, with variation across contexts

## Insight 4: National systems strengthening

- Important **contributions to strengthening national systems** which helps **drive supply chain efficiency**
- **Local and Regional Food Procurement Policy** improved access, price, availability, quality of local food items

## Insight 5: Services to partners

- Roadmap reinforced WFP position as **preferred partner within the international humanitarian community**
- UN reforms have potential to **further expand supply chain joint service provision opportunities**

# Insight 6: Operationalizing the supply chain strategy moving forward

- Increasing expectations require a **diversified and expanded supply chain workforce**
- As demands evolve, **new skills** may be needed
- Reporting does not fully **capture supply chain performance**

# Recommendations

1

Update the **Supply Chain Roadmap to a strategy.**

2

Enhance **coherence & interoperability of planning, platforms and processes** across WFP.

3

Enhance external coherence for **operationalization of an UN-wide Integrated Supply Chain Vision.**

4

Strengthen the operationalization of implementation mechanisms in **alignment with the revised strategy, WFP strategic plan and UN80 reforms.**
