

# Yemen Interim Country Strategic Plan 2027-2029

## *Informal Consultation 21<sup>st</sup> September 2026*

World Food  
Programme

SAVING  
LIVES  
CHANGING  
LIVES

### FROM AVERTING THE WORST

1

Operational space driven **targeted emergency food assistance**

2

Dynamic **prioritization** and shift to **digital cash transfers**

3

Adoption of a **nutrition prevention first** approach, integrating supplementation and food assistance

4

Refocus **management of moderate acute malnutrition** towards high-risk areas

### TO RESILIENCE & SYSTEMS STRENGTHENING

5

Lay a **national social protection foundation** through CBT and WFP's targeting

7

Promote **area-based resilience** integrating ecosystem restoration, livelihood investments, market access and financial inclusion to reduce humanitarian need over time

9

Invest in **nutrition- sensitive value chains** to increase the availability and affordability of local nutritious food

6

Support national **early warning** and transfer **emergency preparedness** and **response capacities** to frontline responders.

8

Transition **from emergency to home-grown school feeding** to improve educational and nutritional outcomes while maximising local economic returns.
